Interview With Comrade Laura (2012, Published March 17, 2017)

NOTE FROM REDLIBRARY: The attached images of post-1999 Communist Party of Peru combatants are illegitimate. They are photos of members of the “Left” opportunist José group, today known as the MPCP (Militarized Communist Party of Peru). 1.1 INTRODUCTION

Today we publish the CONVERSATIONS WITH COMRADE LAURA IN THE BASES OF THE VIZCATAN MOUNTAINS, in the VRAEM, carried out around 2012, the essence of the interview is that in it, as it has to be, with people’s war the defense of Chairman Gonzalo is assumed, the Great leadership of the Party and the Revolution, Gonzalo Thought, the First Congress and the BUP (Basis of Party Unity) and of the entire path traveled so far and a firm position is taken against the revisionist and capitulationist ROL led by the rat Miriam and especially against the right opportunist line, disguised as the left, revisionist and capitulationist of the rat José and his litter who usurped the CRP (Regional Party Committee). We consider it to be a masterful Marxist-Leninist-Maoist, Gonzalo Thought document. In it with the party documentation in hand, C. Laura, from the mountains of Vizcatán, with deep class sentiment and hatred, with firm conviction and communist position and with the ideology of Marxism-Leninism-Maoism, Gonzalo Thought assumes the defense of our Great leadership, Chairman Gonzalo, and of his all-powerful thought and demarcates, crushes and sweeps against all the hoaxes of the Peruvian CIA-reaction and its servants of the

new revisionism against Chairman Gonzalo, the PCP and the people's war.

With this interview we document how the left with people's war struggles to impose the red line in the VRAEM. Thus, the communists, combatants and masses, practicing the philosophy of struggle that only with the rifle can the world be transformed, are struggling to carry out the reorganization of the CRP of the PCP (Communist Party of Peru) as part of the general reorganization of the entire Party in the midst of the people's war and fighting to the death against the new revisionism.

It is a document with which the two-line struggle was imposed in the Party in 2013, therefore it expresses how the two-line struggle was being handled at that time, which served as the basis for taking the leap in the party task of the RGP (General Reorganization of the Party) around May 2014. It thus shows part of that process. That is why there will be many questions that readers can plan on various aspects, some surely very important about this fight and that are revealed in the interview. Many have already been resolved in the elapsed time and others are surely still being resolved with the development of the RGP in the middle of the people's war. With this interview we are made aware that we are getting closer to its brilliant culmination.

In addition, the problem of sweeping away through two-line struggle everything that is opposed to the Great leadership and Gonzalo Thought is a complex problem that requires doing it thoroughly. Because as it is established, only by firmly holding to the Great leadership of Chairman Gonzalo and his all-powerful thought and developing a firm and shrewd two-line struggle to keep the Party red can we advance in the people's war and firmly maintain its course.

There are some photographs that have been sent to us and that we have not published to preserve the revolutionary secret regarding the photos in which comrade Laura and the interviewer and others appears, for various other reasons. In any case, it is our first edition of these important conversations, it is certain that others will come.

We are sure that this publication will raise to the top the optimism and revolutionary joy of all Maoists and other revolutionaries in the world, and especially in Latin America.

1.2 THE THIRD MOMENT OF CONTEMPORARY PERUVIAN SOCIETY. CONVERSATIONS WITH COMRADE LAURA AT THE BASES OF THE VIZCATAN MOUNTAINS:

MPP: Let us make way for Comrade Laura, so that this process of Peruvian society reaches posterity with the greatest clarity. This discussion was held in the area called Roblepampa. On the banks of the Imaybamba river, border between the departments of Huancavelica and Ayacucho. The Imaybamba River comes down from the heights of Sanabamba, part of its flow comes from the highlands of Tayacaja, and on its way it ends at the Mantaro river, almost at the height of the sector called Purísima a little further down the Mantaro river. This whole place is part of what is called glorious and warrior Vizcatan.

C. Laura: I will start by expressing my subjection to Chairman Gonzalo, Head of the Party and the Revolution, to the Communist Party of Peru, to the undefeated Ideology of the Proletariat: **Marxism-Leninism-Maoism, Gonzalo Thought**, to... the people's war in Peru.

The year 1980 has a special name, it is ILA-80. Over the years, its importance will be marked in an unfading way, as it already is, since from that moment, the future birth of the People's Republic of Peru has been engraved on the back of the Andes. We are entering a crucial moment, that of the general crisis of bureaucratic capitalism; Peruvian society, as a system, has expired in these almost two hundred years of republican life. This period, furthermore, is marked by the armed conflict between revolution and counterrevolution; This ardent struggle of the Peruvian people has served so that the whole world understands that the ideology of the proletariat, in hard struggle, has reached its Third, New and Superior stage: Marxism-Leninism-Maoism, Maoism becoming what is fundamental and decisive in the world, to carry out proletarian revolutions. In Peru it is of special importance as Marxism-Leninism-Maoism, Gonzalo Thought. An era has opened whose first part must culminate with the establishment of a New State of Workers and Peasants, a People's Republic of New Democracy, whatever circumstances we may have to go through.

After more than eleven years of military government and General Francisco Morales Bermúdez being the defacto President, having installed a Constituent Assembly that sanctioned the 1979 Charter, called for elections on May 1980, the date on which a president would be elected and begin to function, with its powers in the liberal demo style, what the ruling classes called *Democracy*, also called by the direct actors of that time, the transfer of power to civility. In 1980 the transfer of power from the hands of the Armed Forces took place, with a new Magna Carta that constitutes the third restructuring of the Peruvian state in the 20th century. Since then, successive governments have a central problem: the people's war led by the Communist Party of Peru.

MARXISM-LENINISM-MAOISM, GONZALO THOUGHT. THE HIGHEST IDEOLOGY OF THE WORKING CLASS, RAISED TO THE TOP BY THE COMMUNIST PARTY OF PERU.

This people's war is faced by the reactionary state of Peru, employing the counterrevolutionary policies of using the masses against the masses and in the midst of a barbaric genocide, they make an attempt to defeat what they call armed subversion. They fought ardently, to further ignite the people's war, to build the new power and at the expense of the blood shed by the communists and the sons of the people, we were able to open support bases and enter the guerrilla war, which lights bright hopes to end the slavery of man by man.

Note: The redacted image was taken by the author, in the area called Roblepampa, moving a little further down the river; On the banks of the Imaybamba River, a tributary of the Mantaro River, current province of Tayacaja, this river marks the boundary between the departments of Huancavelica and Ayacucho. Of course, the left bank of the Mantaro already belongs to the department of Junín. Due to lack of adequate material and... the conversation could not be recorded, which is why we only wrote down some questions that we considered fundamental or those that were very easy to record.

CAMARADA LAURA. SETIEMBRE DEL 2012. ROBLEPAMPA.

MPP: In the present dialogue, Comrade Laura began by commenting on the Great Proletarian Cultural Revolution, which she considers of utmost importance. As the conversation progressed, questions arose, I would say, there was no interview plan. This dialogue took place in sight and in the presence of Comrade Mariela, who also appears in the photo and nodded when Comrade Laura's demonstration lasted the longest.

MPP: Comrade Laura, tell us something about your life in Vizcatan, what is the daily work of the guerrillas:

C. Laura: We have always considered it more important to develop our lives as part of the Party and the Revolution. Life, short or long, we believe should be useful to the most sublime of humanity: the struggle for Communism... and we firmly believe in the construction of the People's Republic of Peru, a Republic of New Democracy, we believe in the Revolution, in the armed struggle; We raise Chairman Mao's great slogan to the top: *Power is born from the rifle*. This grandiose process of the Revolution in Peru is led by the working class, through its Party, it is the one that gives direction and it is the Party of the working class, the Communist Party of Peru, that has to guide us to our final goal. We reiterate, a Marxist-Leninist-Maoist, Gonzalo Thought Party, the scientific ideology of the proletariat, being Maoism, that is the fundamental and decisive thing for the World Proletarian Revolution and Gonzalo Thought for the Peruvian Revolution, for being the creative application of Maoism to our reality. We reiterate our philosophy of struggle that only with the rifle can the world be transformed. Many hearts, along with ours, have already undertaken this heroic deed, which will lead humanity to the final goal, which is Communism.

I don't think it is worth telling this chapter of my life, because our lives are made part of the party and the revolution. We only strive to comply with our daily tasks.

Together with our comrades, in reiterated opportunities, we have given our firm commitment to give our life for the party and the revolution. For our inalterable goal which is communism, knowing that after our death, other hands have to grip the rifle, with equal or greater skill. We can proclaim before the world and before Marxism-Leninism-Maoism, Gonzalo Thought, the struggle we fight is the final struggle for the kingdom of eternal harmony, a society without the rich or poor, the always bright luminous communism.

The Great Proletarian Cultural Revolution, a powerful mass movement, led by Chairman Mao Zedong, in full socialist construction in China, the Revolution never seen on earth, because for a long time, the proletariat remained in complete power. This Great Proletarian Cultural Revolution, aimed directly against the bourgeoisie, against those leaders who follow the capitalist path such as the "Chinese Khrushchev" Liu Shaoqi and also to fight against the right wing recall wind of the sinister Deng Xiaoping. The proletariat, led by the great, glorious and correct Communist Party of China, under the leadership of Chairman Mao Zedong, organized in People's Communes, seized power from the hands of the bourgeoisie that had infiltrated the Party, they were the same leaders as those already mentioned. The famous "January storm" was unleashed in Shanghai, in which, in the midst of a fiery class struggle, Comrade Jiang Qing, wife of Chairman Mao Zedong and other leaders such as Zhang Chunqiao, Wang Hongwen, and Yao Wenyuan distinguished themselves. When the counterrevolutionary coup d'état of October 1976 took place, our Party launched its resounding war cry to the world with the slogan "Long Live the Shanghai Four," taking a firm and tenacious position to combat the revisionism of Deng Xiaoping and against the triple revisionist attack: the Albanian Revisionism of Ramis Alia, the Soviet Revisionism of Brezhnev, and the Chinese revisionism of Deng Xiaoping. Chairman Gonzalo, in a heroic and tenacious struggle, leading the Communist Party of Peru, launched into the world the highest proletarian slogan, the highest ideology of the proletariat: "Long live Maoism!" As the Third, New and Superior stage of the ideology of the proletariat. The Great Proletarian Cultural Revolution, is the greatest milestone of the World Proletarian Revolution, it is the fight to the death between revolution and counterrevolution, the fight between restoration and counter-restoration; With this powerful mass movement unparalleled in history, the ideology of

the proletariat became Marxism-Leninism-Maoism, mainly Maoism, key to leading the revolution and to reconstituting proletarian parties in the world.

This moment in the history of Peru, I consider, of transcendent importance, because at the national and international level there's been an ardent struggle, to end the domination of North American, Russian or whatever imperialism, to end the slavery of the Peruvian people, slavery that the ruling classes: The big landowners, the big bourgeoisie, the big bankers, having as their instrument the state, their backbone the armed forces and the police forces, exercise their domination over our people. It must be clearly established that the Bourgeoisie has reached its highest and last stage of its development, the stage of imperialism, whose characteristic is monopolistic, parasitic and dying, which Lenin has taught us; this system is struggling in a gigantic crisis, which aims to solve them by invading other nations, to plunder their wealth and enslave their people. Under the pretext of a "total war on terrorism," all the imperialists, en mass, have launched aggression to the people. Aggression, led by the US. What they want is a new division of the world, for which they want control of Europe. It is mainly North American Imperialism, as well as Russian social imperialism and other imperialist countries, the source of wars in the world. Well, the US imperialists and their allies (France, England, Russia, etc.) have invaded the Arab countries: Syria and Iraq; the Middle East: Afghanistan, Iraq, Palestine, Lebanon, Libya, Syria, etc. The North American troops are also in Peru, Pichari Base. The DEA, under the pretext of fighting against drug trafficking, which is actually against the people's war, against the Peruvian people, being a necessity of the reactionary government of Peru, to develop a low intensity war, demand greater economic aid and prepare the military intervention of North American imperialism mainly. The Islamic State is a consequence of imperialist aggression; The imperialists with their infamous aggression, have engendered this movement and today they are charged. From Peru, we make a solemn call for these attacked peoples to rise up in people's war, organizing themselves in the People's Liberation Army, led by the Communist, Marxist-Leninist-Maoist Party and hoisting Long Live the Arab People and Yankees Go Home, Yankees Out. In Peru, We give our firm commitment to defeat the Southern Command, whatever the price and the time that has to be paid. The imperialist aggressors will never prevail, it is imperialism and revisionism of all kinds that will be defeated. History has proven it over and over again. We remind North American imperialism: Peru and other places, where they have unleashed aggression, is for you, not one but many Vietnams, with the

only difference that in Peru we have raised the gun against you and we will not let go of it until the whole world enters luminous communism.

Contemporary Peruvian society has expired, it is struggling in the midst of a general crisis. Crisis in the economic, political and ideological. Successive governments in turn claim to resolve this crisis, what they are doing is deepening it, as we are clearly seeing today. The same old corrupt people, for example, say they fight against corruption. This is unheard of. Corruption reigns in the upper echelons of the reactionary state of Peru. They have no way out. The only thing left is the revolution in progress.

As far as we are concerned, we want to reiterate, as many times as necessary, so that it remains clear throughout history and so that the peoples of the world learn from our assumptions and mistakes. It is the Communist Party of Peru that has dared to initiate the People's War and we have already carried it forward for several years. The main foundation to sustain this war is the ideology of the proletariat, Marxism-Leninism-Maoism, Gonzalo Thought, invincible and all powerful. The only true way to transform society: People's War. There's no other way. In history, in the development of society, the different systems when they expire have given way to another more developed stage. However, again it should be emphasized: there is no historical precedent in which, one class cedes power to another and benignly withdraws from the stage of history. Transformations can only be accomplished through the storm of revolution.

Under these circumstances, in September 1992, the arrest of Chairman Gonzalo took place and our Party, tested in a thousand battles and supported by the undefeated ideology of the proletariat, Marxism-Leninism-Maoism, Gonzalo Thought, had to face this bend; in difficult moments all kinds of monsters arise, suckled and sheltered by imperialism, mainly North American, such as the revisionists of the "peace accords" sheltered in it MOVADEF; These miserable traitors launched into the world, with unbridled determination, the supposed peace, pacification and dialogue, the most stupid idea to poison the class, the masses. Communists are made for the highest difficulties. The imperialists and the revisionists, in holy alliance, shout to the wind, the supposed defeat of the Party, the defeat of socialism, the expiration of Marxism. We warn you, no matter how many cannons fire, no matter how much they unload devastating blows, prepare the most cunning genocide against the people, they will not be able to prevail. We are ready to cross the river of blood that the revolution demands, to achieve our unalterable goal, communism. The universal validity of Maoism is for us the highest

science of the revolution and a thunderous wake-up call for the imperialists, revisionists and opportunists of all kinds. The truth of Marxism-Leninism-Maoism, Gonzalo Thought, is irresistible. The popular masses will invariably rise up in revolution. The world revolution will triumph inexorably. This is demanded by Maoism and we will comply. Chairman Gonzalo has affirmed in a forceful way: “Marxism has not taken a step in life or achieved anything except with struggle, conquered with effort, and Maoism is not and will not be an exception; The struggle for Maoism, as the third stage of Marxism is and will be hard, long, complex and difficult, it will never prevail spontaneously. Our story is that, we have no other path: struggle, effort, unyielding tenacity, unwavering persistence and time for practice to test and sanction the truth. Everything new has to be imposed in ardent struggle, fighting the old that refuses to die, nothing has been given to us at a bargain price, we have conquered everything with effort, with our blood and with luminous lives that without vacillating a moment they have been offered by the Party and the revolution. For that we have been forged as communists, with light in mind, steel in the chest, sword in hand and challenge to death.

“Fight the battle and you will know how it unfolds. Communists are bold and we are bold because we are consistent materialists, and we are not afraid of being wrong, nor are we afraid to confront anyone because the truth is on our side. This is our conviction and we cannot have another; we are men of conviction, ‘convicted and confessed’ of the greatest transformative scientific ideology, proven in thousands of glorious battles. There was not nor is there any ideology on earth that has had the practical proof of Marxism-Leninism-Maoism; nor have so many millions ever been and will be swept away by such a powerful revolutionary storm” - Chairman Gonzalo.

MPP: Comrade, tell us how did you start your study of Party principles?:

C. Laura: In my youthful years, back in the third year of high school, I had the opportunity to know the book, *Broad and Alien is the World*, the work of the illustrious writer Ciro Alegría. A novel that my father admired and maybe that's why I became interested in reading it quite avidly... I think. Rumi became my community. I became friends with its Mayor Don Rosendo Maqui, his children and grandchildren. By Doroteo Quispe, Eloy

Condorumi and Jerónimo Cahua, by Clemente Yacu and Valencio; also the Mosco ox and the Choloque bull. I gave special attention to Fiero Vásquez, but, even more so, to Benito Castro; to fight for the land and against oppression it is fair to exceed the limits established by the powerful; to dare is the question. If our lives are surrendered in the middle of the fight, at good time, we have shown the oppressor that we are invincible by daring to take up the rifle, knowing that our defeats are transitory and momentary, absolutely transitory and momentary, who await the final triumph; while the ferocity of the oppressor paints him full-length, the inescapable end of his decline and his final defeat. This I learned with Benito Castro.

[*Translators Note: In the English language edition of c, the chapter referenced by C. Laura was left out, in later editions it was included as appendix 1. We are using translations from the English language edition from appendix one which is called Scenes From Mining Life, in order to make it easier for English language readers to source the chapter and study it on their own.]

MPP: Comrade, tell us a bit more about Broad and Alien is the World.

C. Laura: Chapter XIII [appendix 1 in the English language edition] of this book is called: History and Mining Spears [Scenes of Mining Life-trans]. It deeply marked my understandings, I was definitely oriented towards the Party and the Revolution... After the death of Calixto Paucar, in this chapter you can read:

“What do they think Jack is? He’s won me over; we’re both socialists...”

Socialism. That magic word that so torments the rulers of Peru. The word that turns the rulers on duty into a nightmare on their dark nights. Socialism has awakened in us enthusiasm and joy, which is worth dying for. There is nothing more glorious than covering oneself with the red flag and defiantly launching into the heart of the battle, fully aware of our historical mission, to overthrow the old order and build a new one, the People’s Republic of Peru, in the image and likeness of the working class, according to our ideology, scientific and all-powerful, Marxism-Leninism-Maoism, Gonzalo Thought.

When the Navilca workers are being buried:

“Our flag, this is our flag! Let’s sing!’ Shouted Jack, not knowing what else to say. They unfurled a large red cloth and began to sing.”

“Nobody except Jack and his assistant knew what that flag meant, or the song they were singing. It was a hoarse, powerful song which struck the marchers like a great wind filled with other worlds.”

When one reaches this reading, when our heart is agitated uncontrollably, nothing can be the same. What was socialism? What did that red flag mean? What was that harsh, powerful song that Jack and his assistant sang? These and other questions I set out to solve by studying and, of course, fighting. Our keynote is to learn to fight in the course of war itself. In the course of the revolutionary war we will turn from beginners to experienced.

Chairman Mao Zedong and Comrade Jiang Qing, at the Yen-an support base.

The red flag of the gringo Jack and his assistant were clearly etched in my mind. That song, hoarse and powerful, that they sang was engraved in my mind. I made up my mind: to investigate the meaning of that flag and the solemn song. As the months and years went by, the landscape opened up for me and I came to understand all of that, which was extremely exhilarating.

That Red Flag, unfurled by the gringo Jack and his assistant, had already flown defiantly before the bourgeois world over the Hotel de Ville, as a symbol of the Republic of Labor with the Paris Commune, the most heroic feat of those workers ready to storm the sky, in the words of the greatest

thinker of the centuries Karl Marx, in 1871. This same flag was raised by the workers, in the streets of Berlin, Milan, London, Madrid, Paris, Chicago and the whole world. This same flag was raised victorious in October 1917, in the city of Petrograd, in the hands of the Bolsheviks, proclaiming all power to the Soviets and the birth of the Workers 'and Peasants' Republic, the Dictatorship of the Proletariat, with Vladimir Ilyich Ulianov Lenin and Joseph Stalin. This same flag, defiant before the wind, flew undaunted at the Rising of the Autumn Harvests, in the Ching kang Mountains, in Yenan; in the streets of Shanghai during the Great Proletarian Cultural Revolution, marching at the head of all of it, Chairman Mao Zedong and alongside him, Jiang Qing, Zhang Chunqiao, Wang Yongwen, Yao Wenyuan and the proletariat of the Chinese people. This same Red Flag has been unfolded in the wind in Peru, since October 7, 1928, with José Carlos Mariátegui. It had to go through a hard period of abandonment and reconstitution to be hoisted on the spine of the Andes of Peru, since the year 80, justly called ILA-80. This same flag, In short, today it flames victorious in the glorious and warrior Vizcatan, so that no one can lower it, or write in the opposite direction. Plus, keep it always deployed at the cost of our lives. Today we raise, defend and apply our undefeated Flag: Marxism-Leninism-Maoism, Gonzalo Thought. We can serve nothing else. With Chairman Mao, we learned to know Peru. His work and his thought have deeply marked the minds and hearts of the communists in our homeland and, with this, illuminate the sun of revolution, for ever and ever. Chairman Gonzalo, is the heir of Chairman Mao Zedong, with him Maoism shines as the Third, New and Higher stage of Marxism, in a tough battle, which implies Raising it, Defending it and Applying it. Let's do it!

Let's go back to Broad and Alien is the World. That solemn, hoarse and powerful song was The International, the highest and most sublime song, the most beautiful song of the working class, a song created by Eugene Potier, which today is sung proclaiming the final struggle for Communism, the unalterable goal of humanity.

This hoarse and powerful song, which is The International and the Red Flag, which flames defiantly before the bourgeois world, has plunged into terror and convulsions of rage, turning the dark nights of the reactionaries of Peru, imperialism and revisionism. Instead, it has summoned the resounding battle cry of the working class who, with raised fists, are marching uncontrollably to their ultimate goal, communism.

I sincerely believe that our concern for the Red Flag and the hoarse and

powerful chant of the gringo Jack and his assistant have been resolved.

We definitely got into the study of Marx, Lenin and Chairman Mao Zedong, we met Mariátegui... and we had Chairman Gonzalo in Peru

MPP: Comrade, how do you organize the study in Vizcatan and what other books have impressed you?:

C. Laura: Because of our obligation as communists, we study books by Marx, Engels, Lenin, Stalin, Mao Zedong, José Carlos Mariátegui, and Party documents. Our life is a constant fight. We would like to dedicate ourselves more to study, but time is short and ours is the life of highly mobile guerrillas. Still, there is time to read. How the Steel was Tempered by Nikolai Ostrovski is another book, recommended for young proletarians. We too have many comrades in the style of Pavel Korchagin, brave to the point of sacrifice, integrity and disciplined in the line of duty. If our flag is red, it is soaked with the blood of those who offered it and will continue to offer it, to continue supporting it... and ours will join a little more to keep it always alive, always burning, always bright.

In this unparalleled fight to reach a new world, I have seen my comrades go to battle with the same enthusiasm as ever; If someone did not return, it was because, he had done as always, by giving his commitment to fight, he already belonged to history. So we meet in a solemn ceremony and reaffirm our commitment to fight to the last drop of blood and give our lives for the Party and the revolution. As we have already demonstrated and we are demonstrating it repeatedly and as many times as necessary. Our entire contingent, en mass, makes their resounding battle cry heard: 'Honor and Glory to the Heroes of the People' 'Long live the Revolution.' Only once did I feel the spasm of the gallows in my neck, in Tsomaveni, in the hands of the enemy. Only courage and determination changed this fatal episode. So, I clearly remembered the swaying body of Valia Bruszhak, Rosa Gritsman... Would I march to the scaffold, singing like they did? Yes, I would. But remember, one is the words and the other is the deed. Dare, and problems will be solved. This book also goes with me, raising morale and giving courage and optimism.

MPP: Many intellectuals have expressed different opinions about subversion in Peru, what do you think about it?:

C. Laura: In Peru, through different newspapers, magazines, radio and television, different people have been expressing themselves. You will know them by their fruits. Some do it with such anger against the Party and the Revolution. They are right, they are defenders of the established order. The

hair has to defend the skin, otherwise where would it adhere to. For them, Peru is made up of the big bankers, the big landowners, the big bourgeoisie and all kinds of leeches that suck the blood of the people. They consider themselves great defenders and even representatives of the people. Of course they want them, if not, where would the surplus value come from, the profit of the rich. The bourgeois intellectuals demonstrate their spiritual poverty by defending the parasitic system, this is why they detest everything that concerns the profound transformation of a society and especially when it is done through a revolution, through armed struggle. For example, that man who expresses in his own face the aberration, the anguish and the misery of the bourgeois class, the author of that babel and bastard publication called Prophets of Hate, who without the slightest embarrassment and with the greatest self-confidence of a parasite of the system, after so much absurd and senseless imagery, referring to Chairman Gonzalo, affirms:

“...From this perspective it would be necessary to condemn in the harshest terms these people, because the damage they did to Peruvian society is immense... There is no person who has produced more deaths and suffering in recent Peruvian history...”

When this babbling refers to Peruvian society, he is talking about Peruvian society as system, this society is that of the big landowners, the big bankers, the big bourgeoisie in its two factions: buyer and bureaucratic; it is the voice of North American imperialism mainly.

Here it is worth asking: Isn't this reactionary state of Peru the one that preaches peace for the starving dead? In the world, three quarters of humanity are mired in hunger, in misery, because of the imperialist system. In Peru, due to the only prevailing system, 60,000 children die each year before their first birthday, according to data from the Lima newspapers. Can we compare the officially reported dead in the war between revolution and counterrevolution? Those killed in war, in just over twenty years, do not exceed the death of minor children by starvation; even being, that the vast majority of the dead is a consequence of the genocide to which the Peruvian people were subjected by the armed forces and police. This heartless author of Prophets of Hate says:

“...Well, the damage they did to Peruvian society is immense...”

Simply answer these questions: Who destroys the productive forces of a nation in formation like ours? Who prohibits the peasantry from working

the land with instruments discarded by history hundreds of years ago? Who squeezes the proletariat until it sucks its blood for a miserable salary? Who generates unemployment, rising cost of living, terrible working conditions? Who generates the crisis that grinds the people and sweeps the small and medium property? Who squanders our wealth for ridiculous payments by predating the sea, sinking the countryside, closing mines, depleting forests, drowning cities in misery? Who drowns the nation with huge debts, subduing us more? The answer is: the Peruvian state, of the landowners, the big bankers, the big bourgeoisie in its two factions: buyer and bureaucratic, lackey of North American imperialism mainly. Not only is it enough to harm this society, it has to be defenestrated, swept away, demolished, disappeared. And on its ashes, on its rubble, build, the mighty, the spring, the unfading People's Republic of Peru; a Republic of Workers and Peasants and, finally, a society without rich or poor, a society of eternal harmony, Communism.

Meanwhile, fight, fight, resist. It is good to remember what the Party always has in mind: Our center is to fight. Our base is the proletariat and the people. Our path is the people's war. Our objective is the People's Republic of Peru. Our ideology is Marxism-Leninism-Maoism, Gonzalo Thought. Our final goal is the World Proletarian Revolution and Communism.

MPP: Comrade, is there a special date that the Party celebrates?

C. Laura: Of course, we can mention a few: May Day, International Day of the working class, for the events in Chicago, for the blood shed by the workers and the conquest of the eight-hour workday. On May 17, the beginning of the armed struggle in Peru, is ILA-80. On June 14, the day of the birth of José Carlos Mariátegui. On June 19, Heroic Day, in homage to the martyrs of Frontón, Lurigancho and Santa Bárbara, Chorrillos. October 4, Prisoner of War Day. October 7, Day of the founding of the Communist Party of Peru. On December 3, Chairman Gonzalo's birthday and Day of the People's Liberation Army. On December 26, Chairman Mao Zedong's birthday, for being the highest summit of the ideology of the proletariat, Maoism.

Sight achieved at the Yanan Support Base. Chairman Mao Zedong and Comrade Jiang Qing. Standard bearers of the Great Proletarian Cultural Revolution. Maoism, the Third, New and Higher stage of the ideology of the proletariat.

MPP: We want some feedback from you about Dr. Abimael Guzmán Reinoso and Augusta La Torre Carrasco:

C. Laura: Dr. Abimael Guzmán Reinoso, Chairman Gonzalo, born on December 3, 1934, in Mollendo, Islay. In his youthful years he was impacted by the fiery class struggle in his native Arequipa department and by the events of the Second World War. He frankly and consciously sought his party membership until he succeeded. Tenacious and consistent in the fight against revisionism, he had the opportunity to fight Khrushchev's revisionism at the international level and Jorge Del Prado's revisionism until he was expelled at the IV Conference of January 1964. He assumed the Reconstitution of the Communist Party of Peru, up until then weighed down by an electoral and capitulationist line. His proposals to *Reconstitute the Party* and *create the armed force* they came true; previously they fought arduous conflict with lines contrary to Marxism such as the opportunism of Patria Roja that denied revolutionary situation and denied Chairman Mao Zedong and became worshipers of Deng Xiaoping; against the liquidationism of Saturnino Pare-

des and the liquidationism of the left of what was Sergio and his self-styled ‘Bolshevik’ group, and in the IX Plenum he fought against an opportunist line of the right that refused to initiate the armed struggle. Chairman Gonzalo worked tirelessly for the Reconstitution of the Party, as a Party of a new type, Marxist-Leninist-Mao Zedong Thought, as it was called at that time. He endowed him with a just and correct ideological and political line and in the crucible of the class struggle he forged the historical contingent that assumed the beginning of the armed struggle, ILA 80. He struggled vigorously until the Reconstitution was completed, as Master of Communists, continuator and heir to Marx, Engels, Lenin, Stalin, Mao Zedong and José Carlos Mariátegui; He guided the Party, step by step, through the difficult but glorious path of encircling the cities from the countryside, to build a New Democratic State. The greatest thing, as the highest expression of the development of the matter, was the Historic First Congress, the Marxist-Leninist-Maoist Congress, Gonzalo Thought, which set the way forward until the triumph of the class. For the international proletariat, he proclaimed Maoism as the Third, New and Higher stage of Marxism, becoming the ideology of the proletariat in Marxism-Leninism-Maoism. In the shocking and ardent class struggle and leading the people’s war in Peru, the ideology rose to Marxism-Leninism-Maoism, Gonzalo Thought, key to the development of the World Proletarian Revolution and in Peru to conquer power. The people’s war burns victorious in the Andes of Peru, an inextinguishable light that will guide us to the always resplendent and revived Communism. Chairman Gonzalo (and excuse me for being repetitive) must be said as many times as necessary, he is the successor and heir of Marx, Engels, Lenin, Stalin, Mao Zedong and José Carlos Mariátegui. A great militant and communist fighter, his thought and work are imperishable. Extraordinary man whose life beats to the end, with the unfading light of Marxism-Leninism-Maoism, Gonzalo Thought, with the omnipotent creative force of the masses. In homage to his complete and total dedication to the revolution, December 3, the date of the birth of Chairman Gonzalo, is the People’s Liberation Army Day and as such it already shines in history.

About Comrade Norah, the Party has declared:

The greatest heroine of the Party and the revolution! Example of giving ones life, consequent anti-revisionist. Partner, comrade and wife of Chairman Gonzalo.

...One moment!... You want a documented opinion of the Party about Dr.

Abimael Guzmán Reinoso. . . this is our appreciation about Chairman Gonzalo, Head of the Party and the Revolution, the greatest Marxist-Leninist-Maoist, Gonzalo Thought, living on the earth; also about Comrade Norah. (She takes a notebook out of her bag and reads):

The First Congress of the Communist Party of Peru, Marxist-Leninist-Maoist Congress, Gonzalo Thought, has declared Comrade Norah: "THE GREATEST HEROINE OF THE PARTY AND THE REVOLUTION!", which is why it has issued the following:

"SPECIAL RESOLUTION

HONOR AND GLORY TO COMRADE NORAH! THE FIRST CONGRESS PAYS A DEEP AND SOLEMN TRIBUTE TO COMRADE NORAH, MEMBER OF THE RED FRACTION AND PROVEN COMMUNIST, GREAT LEADER AND IMPERISHABLE EXAMPLE OF GIVING ONES LIFE FOR THE PARTY AND REVOLUTION, UNFALTERING MARXIST FIGHTER AND CONSEQUENT ANTIREVISIONIST, THE GREATEST HEROINE OF THE PARTY. THE CONGRESS AWARDS THE ORDER OF THE HAMMER AND THE SICKLE, THE HIGHEST PARTY DISTINCTION, AND DECIDES THAT IN THE FUTURE MONUMENT TO THE HEROES OF THE PEOPLE, SHE WILL BE PLACED IN A SPECIAL PLACE AND OF THE GREATEST PREFERENCE." -FIRST CONGRESS OF THE COMMUNIST PARTY OF PERU. Peru, June 29, 1989.

"HONOR AND GLORY TO COMRADE NORAH!

FIRM MARXIST-LENINIST-MAOIST, GONZALO THOUGHT AND ANTI-REVISIONIST, FOUNDER OF THE RED FRACTION AND GREAT HISTORICAL LEADER: EXAMPLE OF GIVING ONES LIFE FOR THE PARTY AND THE REVOLUTION; DAUGHTER OF THE PEOPLE AND THE INTERNATIONAL PROLETARIAT. FLAMING RED FLAG CHALLENGING THE WIND. THE GREATEST HEROIN OF THE PARTY AND THE REVOLUTION!" -CHAIRMAN GONZALO. Peru, March 8, 1991.

"Chairman Gonzalo, the greatest man of the present time, head of the party and the Revolution. The Peruvian people, in glori-

ous years of combat and victories, march uncontrollably to the conquest of power throughout the country. People's Committees have been opened, expression of the new power, developing the war of movements. Chairman Gonzalo directs all our work, all our struggle. You ask yourself, who is Chairman Gonzalo? He is the new leader of the heroic deeds, teacher of teachers, great among the greats, he is the eagle of our Party. Look at him in these years of the triumphant revolution, look at him how he forms communists in his image and likeness, how he forms iron legions ready to overcome all storms. How the new power builds brick by brick. The rebellion is justified. What we have? Nothing. What we want? Everything. We want a new, communist society. No rich or poor. A society of eternal harmony. Chairman Gonzalo guarantees it. Hoisting, Defending and Applying Marxism-Leninism-Maoism, Gonzalo Thought. The people's war in Peru lights bright hopes. Incarnate Gonzalo Thought!" -Zonal Committee Ayacucho of the PCP. 1990.

This paragraph is part of the manifesto of the entire Party. For us, Gonzalo Thought is of primary importance, it is the application of Marxism-Leninism-Maoism, mainly Maoism to the revolution in backward, semi-feudal and semi-colonial countries, like ours. At present it is being bypassed as a consequence of the right opportunist line, disguised as the left, which is the current direction. But, how can we explain his attitude of: denying the First Marxist-Leninist-Maoist Congress, Gonzalo Thought; brand the action of Lucanamarca as 'terrorist,' what is the difference of opinion of the opportunists with the reactionary government of Peru, regarding Lucanamarca? None. Can there be so much coincidence? Obviously it is a pernicious line that is denting the revolution. Praise the reactionary government of Hugo Chávez in Venezuela, Evo Morales of Bolivia; praise the government of Fidel Castro, with the argument of "they are somehow on the way to socialism"; to renege against Maoism, supposedly "for not building the Fourth International", to sigh for Che Guevara, the already defeated focusim, by assigning military ranks to the PLA fighters, commandism, in their black attempt to build an army with a bourgeois military line, "every army in the world is made up of men... women are a complement." Demanding the death of Chairman Gonzalo, which would be a gigantic assassination, a devious stab at the working class. All these problems have to be solved in a tough two-line struggle, in

the midst of the storm of the revolution, as we are already developing it.

MPP: Many intellectuals have expressed their opinions about Chairman Gonzalo, some even against it and in a condemnatory way. What do you say about it?:

C. Laura: Just as there are bourgeois... reactionary intellectuals, there are also very lucid intellectuals, worthy of calling them, men of wide imagination, capable of understanding and apprehending the historical moment that is being lived and giving the place that corresponds to Dr. Abimael Guzmán Reinoso, Lead of the Revolution and President of the Communist Party of Peru. The Peruvian people, the international proletariat, have already given their opinion. History, an irrefutable judge, has also given its verdict and in the pages of our history, Chairman Gonzalo is the most illustrious man of the Great March, of the Peruvian Revolution; and, his name will be stamped next to that of Marx, Engels, Lenin, Stalin, Mao Zedong and José Carlos Mariátegui... The voice of Dr. Abimael Guzmán Reinoso: "Uphold, Defend and Apply Marxism-Leninism-Maoism, Gonzalo Thought,"

In these circumstances it is worth affirming: an intellectual production worthy of appreciation, *The Generation of 50: A Divided World*, by the literary teacher Miguel Gutiérrez, in whose sensible and brilliant pages, he states:... "Abimael Guzmán would be a unique case among the revolutionary intellectuals who accesses Marxism, not for ethical reasons, as an existential search or as a cathartic therapy to ward off certain obsessions, but through the rational way, after waging a scorching conflict in his spirit between idealism and materialism... What else can be said about Abimael Guzmán?... his difference from the cheap fame for which so many intellectuals strive, and an austere, very austere life, all this behavior, all this attitude configures an intellectual different, of a new type, burned by a unique and absolute passion - flame, fire, bonfire, fire - burned by the critical and radical development of thought... Abimael Guzmán and comrade Gonzalo are the same person, so the one who has been directing this great historical event is a man of superior intelligence, of unwavering will and discipline, and that if the militants accept his leadership they do not do so by authoritarian imposition, but by the correctness of their thinking and the coherence between being and thinking'. Chairman Gonzalo is the son of the Party and the Revolution. A life dedicated totally and completely to the Party and the Revolution. It can only be reiterated: Thank you Chairman, your encouragement, your life and your work beat in us unfading and imperishable."

Dr. Miguel Ángel Rodríguez Rivas, a lecturer at the CAEM Center for

Higher Military Studies, stated: “He was one of the best students of a time that was characterized by having brilliant students, Abimael was a theorist of the highest level. Arequipa has been poor in many things, less in producing men. Guzmán is one of them. I think that, in Peru, his level is next to Mariátegui”.

Doctor Luis Guillermo Lumbreras, author of *The Origins of Civilization*, a professor at the University of Huamanga at that time, keeps the following memory: “A brilliant man, a great controversialist; possessor of precise rhetoric, spoken in short sentences, which always contained something specific. As a teacher he was brilliant; as an excellent exhibitor, not so writing; speaking he was fluent and extremely rigorous... he was very disciplined and orderly, not inclined to leisure, he was always looking for what to do and talking about what had to be done”.

Dr. Efraín Morote Best, rector of the San Cristóbal de Huamanga National University during Abimael’s stay in Huamanga, says: “. . . Peru has rarely seen a man of the intelligence and stature of Dr. Guzmán. Along with his high intellect, he was a simple person, full of virtues, solid ideas and convinced of the revolutionary changes that were in store for Peru, a personality like no other, worthy of appreciation... As a man he was always sensible and worthy of appreciation ; as an intellectual and teacher, of admiration and respect, both for the breadth and solidity of his knowledge and for the ability to adhere to applications contrary to yours. . .” For our part, Thank you Dr. Morote!

Even a picturesque character, at that time close to the Party, tenacious opportunist, voter, a well known client of the Peruvian Parliament, worshiper of his simile, the sinister and dwarf Deng Xiaoping, Comrade Eco, Rolando Breña, from Patria Roja, cannot hide the historical truth and has dared to express his opinion about Chairman Gonzalo, when he says: “. . . As an intelligent person; educated, prepared, studious, skilled, with a great conviction of what he does and with a tremendous ability to expose issues and convince people. Another virtue is his dedication to political and partisan work.”

“THE CENTRAL TASK AND THE HIGHEST FORM OF EVERY REVOLUTION IS THE TAKING OF POWER THROUGH ARMED STRUGGLE, THAT IS, THE SOLUTION OF THE PROBLEM THROUGH WAR. THIS REVOLUTIONARY MARXIST-LENINIST PRINCIPLE HAS UNIVERSAL VALIDITY, BOTH

IN CHINA AND IN OTHER COUNTRIES” -Chairman Mao Zedong.

“THE CENTRAL TASK AND THE HIGHEST FORM OF EVERY REVOLUTION IS THE TAKING OF POWER THROUGH ARMED STRUGGLE, THAT IS, THE SOLUTION OF THE PROBLEM THROUGH WAR. THIS REVOLUTIONARY MARXIST-LENINIST-MAOIST PRINCIPLE, GONZALO THOUGHT, HAS UNIVERSAL VALIDITY, BOTH IN PERU AS IN OTHER COUNTRIES”. -Central Committee of the PCP.

Dr. Abimael Guzmán Reinoso, Chairman Gonzalo. Head of the Communist Party of Peru, Great Marxist-Leninist-Maoist, Gonzalo Thought.

Augusta La Torre Carrasco, comrade Norah, communist combatant, partner and comrade of Chairman Gonzalo. Honor and Glory!

MPP: Tell us something about what happened in Lucanamarca and its implications:

C. Laura: I was not at that opportunity because I was only ten years old.

According to party documents, Lucanamarca's action is clearly framed within what, with good reason, Lenin established, when in the article *Teachings of the Paris Commune*, published on March 23, 1908, it is forcefully stated: "... The proletariat must never forget that, under certain conditions, the class struggle takes the form of armed struggle and civil war; there are times when the interests of the proletariat demand a relentless extermination of the enemies in open field combat." The faint-hearted bourgeois intellectuals have reason to utter, with their liver and so much anger, against the ideology of the proletariat. When the time comes, with a firm hand you have to wield the sword, to preserve, overcome, maintain and advance.

The voice of the Party and the Revolution regarding the action in Lucanamarca, timely, clear and forceful, was expressed by Chairman Gonzalo:

"The fight has been intense, hard, they have been complex and difficult moments. Faced with the use of armed retinue and reactionary military action, we responded forcefully with one action: Lucanamarca. Neither they nor we forget it, of course, because there they saw an answer that they did not imagine, there more than 80 were annihilated, that is the real thing; And we say it there was excess, as it was analyzed in the year 83, but everything in life has two aspects: our problem was a forceful blow to restrain them, to make them understand that it was not so easy; On some occasions, like on that one, it was the Central Directorate itself that planned the action and arranged things, as it has been. There the main thing is that we gave them a forceful blow and we restrained them and they understood that they were with other types of combatants of the people, that we were not the ones they had fought before; that's what they learned; excess is the negative aspect. Understanding the war and based on what Lenin says, taking Clausewitz into account, in war the masses, in combat can surpass and express all their hatred, the deep feeling of class hatred, of repudiation, of condemnation that they have, that's the root; this has been explained by Lenin, well clearly explained. Excesses can be committed, the problem is to get to a point and not pass it because if you exceed it you deviate... if we are going to give the masses a set of restrictions, demands and prohibitions, deep down we do not want the waters to overflow, that the alluvium will enter, sure that when it enters it sweeps, but then it returns to its course."

So, let's understand things as they were: Lucanamarca's action was a clear and forceful response to the disastrous policy of the masses against the masses that the reactionary armed forces have used, to make natives fight against natives. The oppressors, throughout history, have always employed

a part of the masses to, taking refuge in it, support their old hulk. Singing tests: During the Spanish invasion of Tahuantinsuyo, thousands of auxiliary Indians: Guatemalas, Nicaraguas, Huancas, Chachas, Cañaris and a part of the Cuzqueños themselves under Paullo's command, fought alongside the Spanish to exterminate Tahuantinsuyo. During the Túpac Amaru rebellion, the royalist battalions were made up mostly of Indians. A royalist battalion was practically a battalion of marching Indians. Let's see what historian Daniel Valcárcel says:

“As a base for the offensive, the royalist chiefs, paradoxically, have an abundant indigenous element, led by inconsistent and traitorous chiefs such as Pumacahua, Rosas, Sinanyuca or Choquehuanca. Out of a total of 17,000 armed men, there will be just over 14,000 faithful Indians, who will fight furiously against their brothers, the rebellious Indians. And the Spaniards will encourage by all means this division, which both suits their interests”.

- INDIGENOUS REBELLIONS, DANIEL VALCARCEL.

These Indians, faithful to the royalists, fought furiously against their brothers, the rebellious Indians.. And the attitude of the Spaniards was to encourage this by all means, because it favors their interests to stay in power, to continue exploiting. Today; successive governments in power in Peru have encouraged, formed armed groups called: CAD Self-Defense Committee, selected groups for annihilation, Citizen Security, etc. whom we know as armed retinue, black heads, at the service of reactionary state power and, therefore, mainly of North American imperialism. The crimes, robberies, looting, and violations of these counsels still go unpunished, awaiting the justice that only the triumphant people can impose. In Lucanamarca, the armed retinue made up of secret agents of the reactionary state, chieftains (gamonalillos), parasites with no known trade, prodding the population, They have perpetrated a crime against humanity, with treachery and advantage, assassinating combatants of the People's Guerrilla Army. The answer was immediate and was overwhelming. These, called farmers by the government of the day, which encouraged these chieftains (gamonalillos) by all means, because they were favorable to their interests, they have taught themselves on their backs the forceful response of the proletariat; The people have organized their forces to punish the crime they have committed, for having raised their hands against the Party and the Revolution, for having risen up against their own class

brothers, in favor and in defense of an oppressive government. History will put things in their place and the action of Lucanamarca serves and will serve to draw lessons, both the revolutionaries and the oppressors. Contemporary society, the ruling classes that sustain it, are struggling in the midst of a general crisis that has eaten away at the marrow. The crisis is not only economic, but also political and ideological. Bourgeois ideology has expired. They have no way out or escape. Over many years it has accumulated a series of burdens such as corruption, blatant theft, vile oppression, genocide against unarmed masses, hunger, misery, tuberculosis patients, hundreds of thousands of children who die of hunger before fulfilling two years of age, miserable wages, in short... The Peruvian State has become the Augean stable, where a veritable mountain of excrement has accumulated, a gigantic heap of garbage, in almost 200 years of republican life. To clean all this filth, there must be a Hercules who directs a torrent and there will be no stone on stone. In our homeland, the stable of Augías is the reactionary state of Peru. The Communist Party is the Hercules that has to guide the great torrent that are the Peruvian people What we have? Nothing. What we want? Everything. We want a just society, without rich or poor, a society of eternal harmony, communism.

MPP: What do you think of Movadef and the book De Puño y Letra (Fist and Letter)?:

C. Laura: ... In this situation, a phenomenon called the movement for amnesty and fundamental rights (Movadef) has arisen, which after so much litany has launched its black counterrevolutionary program called De Puño y Letra, whose author is Elena Iparraguirre Revoredo, a sinister schemer, vile and despicable, asp who spills her poison with the help of other miserable self-described defenders of Dr. Abimael Guzmán. They (Iparraguirre) have the right to go to the swamp, as they are already covered in the mud of the right opportunist line, capitulationist and electorate. But, they do not have the right to vilify Chairman Gonzalo, using and staining his name. The right-wing opportunists in Peru have launched a whole counterrevolutionary program, colluding with US imperialism and the reactionary state of Peru, in their vain attempt to annihilate the Party and the people's war. This sinister plan of annihilation is the shameful reissue whose black jaws of Khrushchev, Liu Shaoqi and Deng Xiaoping, have spread their putrid slime.

De Puño y Letra, we reiterate, it does not reflect Gonzalo Thought, it is against the First Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought. Against the Program. Against the General Political Line and its

center the Proletarian Military Line and, therefore, an enemy of the Party and the Revolution. The opportunists have manipulated, at will, according to the convenience of US imperialism, the words of Chairman Gonzalo. And what, has revisionism not acted this way? The so-called Presentation of this book that bears the signature of the rat Miriam, constitutes the entire black spirit of this monstrosity, the rest are pure shell, the wrapping to hide its black path of capitulation.

Let's analyze very briefly, this opportunistic monstrosity. In the first part called the Presentation, we find everything that is essential, the entire objective of capitulation. Everything else is the black mania of the revisionists to make up their monstrosity, to frame Chairman Gonzalo's words, to use him for their black ends. This is clearly seen in *De Puño y Letra*.

In the Presentation, page 15, signed by the rat Miriam, it says: "...concrete proposal: fight for a political solution, fight to start a peace agreement and lay the foundations for a second congress."

The group of opportunists who swarm in law firms, have expressed themselves through many pamphlets, exposing their nauseating stench in the open air, affirming: 'the peace accords, political solution to the problems derived from war, work for the people and defense of national production, strategic turn, national reconciliation, lay the foundations for the second congress.' All this is a reissue of the old bourgeois principle of freedom, equality and fraternity, the supposed peace of bayonets to sacrifice the Party and the Revolution. And the so-called II Congress, a congress to deny the historic First Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought. Denied and abandoned the first, the opportunists are left to raise their ragged flag of capitulation, the black path of electoralism and the consequent abandonment of the armed struggle and finally the enlistment to fight with arms those who were their comrades. A shameful capitulation, a cunning betrayal of the Party, the World Proletarian Revolution and the class. Let's never allow it!

MPP: What can you tell us about the Peace Accords?:

C. Laura: Let's begin to see this monstrosity in the light of Gonzalo Thought:

“...There is a moment in which diplomatic relations and deals take place and they are a necessity in the development of a people's war... But, we must start from the fact that in diplomatic meetings only what is won in the battle field is negotiated at the table because nobody gives what they have not lost obviously,

that is understood. Well, one would wonder, has that moment arrived in Peru? That moment has not come, so what reason is there to raise the dialogue? The dialogue simply aims to stop, to undermine the people's war..."

Extremely clear, the time for dialogue has not come in Peru. Dialogue, or diplomatic treatment as it is called, at this time serves to undermine, and this is precisely what the opportunists want. Its name is not a peace accord. It's diplomatic treatment, negotiating table. This will take place in the final part of the People's War, with a complete and total surrender of the reactionary forces. At the moment it is only possible to fight until victory, then, at the negotiating table, you just have to endorse what has been won on the battlefield.

It is good to remember that successive reactionary governments in Peru, since Belaunde, have been concerned with establishing peace organizations. During the government of García Pérez, the so-called Peace Commission emerged, whose visible head was Bishop Metzinger (if not the Catholic Church), this monstrosity ended up aborted, since it could not even be started. It is also public knowledge that the revisionists, in droves, joined with the chant of 'peace with social justice.' In the so-called marches called by the opportunists and revisionists, en mass, they began to speak about "pacification." It was Fujimori who promulgated a Legislative Decree, creating the Council for Peace. So this babble of 'peace', 'pacification' is part of the low intensity war that mainly Yankee imperialism develops. It is with the arrest of Chairman Gonzalo, that the servant lackey of Yankee imperialism, will agitate more wildly the words of 'peace', 'pacification', 'surrender', 'capitulation', to which the opportunists have joined in chorus, revisionists, capitulators and voters, wanting to fish in a troubled river. Are not the US imperialists the ones who proclaim 'disarmament', 'era of world peace', while invading the peoples to plunder their wealth, in the midst of a heinous genocide?

The proletariat has a well established path: that of the people's war. In ardent struggle, Gonzalo Thought has generated that, fighting contrary ideas, has repeatedly clarified, in the party documents, with breadth and detail, four fundamental questions of Marxism-Leninism-Maoism, Gonzalo Thought: 1.- Revolutionary violence. 2.- The class struggle. 3.- Socialism and the Dictatorship of the Proletariat. And 4.- The Fight against revisionism.

A war, whatever its class character, ends with the total victory of the

victor. The loser only has to accept his defeat, sign and hand over everything he possesses: power, territory, weapons, a high war indemnity, absolutely everything. Let's look at some historical facts:

The Treaty of Versailles, of June 28, 1919, at the end of World War I. For the defeated: Mutilation or loss of their territory, high war compensation and considerable reduction of the army of the defeated.

The Jiang Qing Negotiations, between Chairman Mao and Chiang Kai-shek.

The Paris Negotiations, in 1973, between Vietnam and US imperialism, which was thunderously defeated.

Some events that occurred in Peru, after an offer of dialogue and amnesty:

- 1.- Túpac Amaru I, executed by Viceroy Toledo, in Huacaypata in 1579.
- 2.- Diego Cristóbal Túpac Amaru, executed in Cusco on July 19, 1783, after an offer of peace.

The amnesty offer for Diego Cristóbal Túpac Amaru came from Viceroy Jáuregui and Field Marshal Del Valle, with the help of Bishop Moscoso y Peralta, that is, the viceregal state, supported by his army and the church, united to subdue the rebellion, as is the case today, with the People's War led by the Communist Party of Peru. That October 10, 1781, Field Marshal Del Valle, had written to Diego Cristóbal in a threatening tone, reminding him of what happened to his cousin José Gabriel, Micaela Bastidas and the other leaders of the uprising, giving him the understanding that he was waiting for him. such a tragic end of not accepting amnesty, forgiveness. This means that the thirst for blood of the viceregal authorities was not yet, nor will it be, quenched and that they hid their criminal instincts behind the talk of the amnesty. We draw a lesson for history, currently, successive governments of the day, especially that of the first half of the nineties, have repeatedly stated: 'Surrender yourselves to be tried according to the law.' What does this mean? Life imprisonment, extermination, the total annihilation of the Party and the People's War. Opportunistic gentlemen, call yourself Miriam, Nicolás, Crespo, Fajardo or whatever, answer what was your peace agreement? But give the mule to the haystack. These opportunists and any other of the same kind, will go from the call for peace to enlistment, to fight with arms in hand those who were their comrades, in reality the Party, the revolution, the people of Peru, the proletariat international.

Let's go back to Diego Cristóbal Túpac Amaru. On January 17, 1782, in Sicuani, Cusco, the pardon ceremony of Diego Cristóbal was held, who, henceforth, accompanied Field Marshal Del Valle and Bishop Moscoso y Per-

alta in the pacification campaign. Of course, other rebellious leaders considered Diego Cristóbal's attitude to accept the amnesty a serious mistake. And they were right. At the beginning of the year 1783, due to a demonstration by the Indians against the viceroyalty in Marcapata, Diego Cristóbal was arrested, along with his mother, some relatives and others considered accomplices. What happened to Marcapata was just a pretext, the viceregals had long wanted to eliminate Diego Cristóbal. When the time came they consummated it. It was May 31, 1783, the prosecutors, including the Oidor Don Benito de la Mata Linares, sentenced Diego Cristóbal Túpac Amaru, his mother Marcela Castro, his wife Manuela Tito Condori and other lieutenants to death. The viceregals not only hanged Diego Cristóbal, but also sent him to death,

Lesson for history: the opportunists of the peace agreement, from Movadef, have become the living reissue of the executioners Felipe Quinco and Pascual Orcoguaranca. The viceroy Jáuregui, the visitor José Antonio de Areche, the Oidor Benito de la Mata Linares, have been reincarnated in the current governments, their armed forces and their judiciary. While the role of the town crier Lorenzo Quispe is played by the reactionary media in Peru, in their fight against the communists and revolutionaries. Let us remember that pantomime of an interview carried out by a television nut, the opportunist man, voter and capitulator who goes by the surname Crespo. It was a discussion, commotion, of two phonies, two madmen, in a competition of who best serves their master, the oppressive government of Peru and US imperialism.

MPP: What can you tell us about Abimael's so-called letters?:

C. Laura: On the letters asking for the supposed peace accords. The rat Miriam assumes that Chairman Gonzalo wrote it. This monstrosity of opportunism has been thwarted by the overwhelming reality.

In our opinion, the initial bell of the so-called peace accord was given by the magazine *Caretas* N° 1272, published on August 5, 1993, which on page 28, puts in the heading of the article: "Behind the screen. Secrets of the 'Operation of 50 hours,' " written by the journalist Cecilia Valenzuela. In this article, *Caretas* states: "After the capitulation of Abimael Guzmán was announced as a fact, on the morning of Wednesday, July 28, a reporter from the State channel announced that a giant television screen was being installed in the Congress of the Republic... by the closing of this edition, neither video nor capitulating leader have been seen between the attacks and the blackouts that have returned in recent days." The central objective of the

Fujimori government and mainly of US imperialism, was, through tricks, to divide the Party, propagate a supposed capitulation of Abimael and thus pave the way for his re-election and perpetuation in power. With this objective, the servile newspaper La Republica of July 27, 1993, on its entire front page says: ABIMAEEL GIVEN UP. According to Caretas, the government palace had already been cooking the so-called capitulation, an act of capitulation, which in their vain dreams would lead the Party to declare itself defeated and lay down its arms. What in the eyes of the world has never happened. The same frivolous Caretas also affirms: "Days before, the Oiga magazine had published a note in which it cited the last statement of the military group 'León Dormido', dated July 14, 1993..." Later he says: "the negotiations with Abimael would not have progressed, since he asks, in exchange for signing the document, to be deported from the country." Once again, the objective was to make Chairman Gonzalo appear, as a capitulator. But... the objective of the Fujimori government, in the opinion of "León Dormido"... they would not have progressed. The opportunists joined in this! Proclaiming the so-called peace letters.

But, the central point of Caretas N ° 1272 is the publication of the facsimile of the communiqué of the military group "León Dormido," whose heading reads: TO THE NATIONAL AND INTERNATIONAL PUBLIC OPINION. What interests us is item 3. ANNOUNCE ON JULY 28, 1993: referring to what the government will do until that date. The statement says:

"A self-censorship of Abimael Guzmán, filmed, recorded, where he declares the war declared by the Communist Party over, and that Montesinos managed to make him sign an indictment (if not, it is falsified). With this objective, Montesinos has been meeting at the Base Naval del Callao with Abimael Guzmán, to convince him of his self-censorship and sign the document. They have met up to today about 13 times, on one occasion there were 6 in a row, they go down to Guzmán's cell: Montesinos, the Director of Naval Intelligence, and a Navy officer who films everything, then this is analyzed by the specialists from the navy and Montesinos, and the material is taken to the SIN facilities, by Montesinos himself, the meetings last approximately from 11 a.m. to 5 p.m. The idea was... with Guzmán's statement, Fujimori is assured of reelection and Montesinos of power. The negotiations have not progressed because Abimael Guzmán, in exchange for signing that

document, asks to leave the country DEPORTED.”

Acting with advantage and treachery, they have a clear affirmation of, “if the letter is given: very good; in case of not having it: it is to be falsified.” This version of “León Dormido,” published by the magazine Oiga y Caretas, clearly demonstrates that it was the Peruvian state and all its institutional hulks that concocted the so-called peace agreement; wanting to announce it on the occasion of his message for national holidays in 1993, a fact that did not happen at that time; but, in the end, this dirty and protective intention of the peace agreement. On behalf of Fujimori, it took place some time later at a meeting of the United Nations, this time with the solidarity and musical background of the opportunists, capitulators and voters such as Miriam, Nicolás, Crespo, Fajardo. This document from “León Dormido” also refers to the murder of a professor and nine students from La Cantuta University, at the hands of the armed forces, a fact that was later corroborated by the overwhelming reality.

In the publication of La Republica of January 14, 2008, Gloria Cano, Lawyer of the Civil Part, gives as evidence, the testimony of Mr. Rafael Merino Bartett, former adviser of the National Intelligence Service (SIN), who has declared to be the author of the above letter.

To the question: Did you write a document on the Shining Path? Merino Bartett, replied: “I wrote the three letters of Abimael: the peace accords, the one of subjection, and another where he praised Montesinos...” This was corroborated by numerous studies such as in the book *The Imperfect Spy*, referring to Mr. Merino, word for word can be read:

“...sociologist and lawyer by profession... his great talent for writing speeches and drafts of laws... one of the most prominent Peruvian experts on the Shining Path. He avidly collected documents and speeches by Senderista leaders. According to Merino, he was the main person in charge of the interrogations of the imprisoned Abimael Guzmán... Merino says that he wrote the two letters of the peace accords and that Guzmán signed them without changing a single comma.”

So, the so-called peace accords and the peace letters, plain and simple never existed. The so-called letters asking for peace only existed in the rotten minds of the revisionists and opportunists, lackeys of North American imperialism mainly.

What was the argument of the opportunists who stammered the peace agreement? That the Party had been beheaded... that in these conditions the revolution could not triumph,... that at most it could maintain itself at the risk of being defeated, etc. Our party was reconstituted to make revolution, to fulfill its historic mission of being the vanguard of the proletariat. We have a Congress, the highest of its kind on earth, son of the Party and the People's War, the First Congress, Marxist-Leninist-Maoist, Gonzalo Thought Congress, a People's Guerrilla Army that reached its highest level of being People's Liberation Army, Marxist-Leninist-Maoist, Gonzalo Thought. For opportunists none of this counts. To show them the invincibility of the revolution, it is enough to remember what the press and the reactionaries themselves say:

On Sunday, November 8, 2009 La República comments in its headline on page 3: "Terrorist group in the VRAE increased its fire power," based on the statements of the former GEIN member, General PNP (r) Marco Miyashiro Arashiro, who also commented: "The VRAE terrorist group has considerably increased its actions and has shown that it increasingly improves its firepower..." We assume that Mr. Miyashiro is knowledgeable about war issues, his words are well founded and have a very solvent grip, but, how did he get to be General? This same day 11-08-2009, page 10, in La República, the former Interior Minister Fernando Rospigliosi spoke, commenting on the Excellence Plan: "SHINING PATH (SL) IN OFFENSIVE, MILITARY DEFENSIVE."

"The results are visible:

- More than fifty deaths on the side of the law enforcement and dozens injured;
- A helicopter shot down;
- Not a single terrorist leader captured or killed according to official versions, without confirmation, some fallen attackers;
- Strengthening of the Shining Path, which has increased its arsenal by approximately 40% with weapons stolen from the army;
- Growth in the number of Senderista columns, something that did not happen many years ago, as a result of the attractiveness of the continuous victories and no defeats of the terrorists;

-High moral of the Senderistas and very low moral of law enforcement, who are now totally on the defensive, no longer patrol and lock themselves in their bases to wait for the next attack.”

Rospigliosi, also commented on Israeli adviser Baruch Ziv.

As it is, the so-called defeat of the Party and the Revolution, which the opportunists cackle so much, exists only in the black pus they carry for their brains. Even the reactionaries recognize the triumph of the People’s War.

We provide you with some views of the actions of the People’s Liberation Army, as tangible proof of what the People’s War is in Peru. These views are in the documents that we have published and that are fully known to the Armed Forces and the police forces, since they are the ones that have brought the weapons that we have today. Most of the weapons owned by the People’s Liberation Army come from the armed forces and the police forces. We make the other part we confiscate and, by the way, we have not been able to acquire them in the market due to their high cost.

So, what was the so-called defeat of the Shining Path, defeat of terrorism, peace accords, national pacification and many other diatribes? We firmly believe that all this is infamy against the Party. With revolutionary fervor we spread the red flags of rebellion to the wind. Long live the People's

War! It is Right to Rebel! Take the skies by storm! Our invincible weapon: Marxism-Leninism-Maoism, Gonzalo Thought. The reactionaries say: Lay down your weapons. We answer: Come and take them. Once again we raise Chairman Mao's slogan to the top: "He who is not afraid of death by a thousand cuts dares to unhorse the emperor."

Let's remember some historical facts:

In the battle of Thermopylae, King Leonidas of Sparta, in the so-called medical wars between Greeks and Persians, together with his three hundred, fought bravely in defense of Greece; They did not care about the numerical superiority of the enemy invader, just over twenty thousand troops. History records the monument to these heroes, proclaiming: Citizen, go tell Sparta that three hundred of its citizens lie here, for obeying its holy laws. Lesson for us: Defend the Party and the Revolution with holy hands, with our blood, with our lives.

During the Spanish Civil War, the battle of Jaquijahuan took place between the forces of Peacemaker La Gasca and Gonzalo Pizarro. Some captains of Gonzalo Pizarro's side, seeing themselves in unequal condition, were of the opinion of capitulating, that is, surrendering; one of the warriors said that in his opinion it was shameful for a Castilian to surrender his weapons and, on the contrary, he harangued his hosts: "attack the enemy and die like Romans." He kept his promise.

In the battle of Arica, a week before the Chilean parliamentarian arrived, they had already agreed not to withdraw and to resist at the cost of their own lives. The reinforcements did not arrive. At the time of the battle, they immolated themselves and fulfilled their promise: to fight until the last cartridge was burned. This testimony found in the texts, *Memoirs of Colonel Roque Sáez Peña* and the Chilean historian Benjamín Vicuña Mackenna.

What would the opportunists have done?: Put their feet in dust and run like the rats that they are.

Remember. We communists are made of special steel, we know what we have to face, we have already faced it. Armed with our undefeated ideology, Marxism-Leninism-Maoism, Gonzalo Thought, we have the fighting spirit of Chairman Mao and Chairman Gonzalo: "He who is not afraid of death by a thousand cuts dares to unhorse the emperor." "As long as men exist, under the leadership of the Communist Party, all kinds of miracles can be performed."

3. January 1836, the Black León Escobar, after a violent rampage, seized the presidential chair in Lima. Foreign troops had to intervene to intercede

in this incident. León Escobar was shot after an offer of dialogue by General Francisco Vidal, his body displayed for three days in front of the cathedral, as an example. Here fits the phrase of Don Carlos Cueto Fernandini, Minister of Education during the first government of Fernando Belaunde Terry:

“In this small world there are representatives of almost everything that is our country: Apristas, communists, thieves, murderers, sexual depraved, crazy people, idiots and people driven by the most extreme hatred and love...”

There is room for everyone in this established order. But, the greatest crime considered aberrant and that deserves the most shocking human and heavenly punishment, is having risen with rifles to build a new order. In the dark dungeons of Peru, the children of the people and the class have launched their resounding battle cry that summons the breath of their fellow men. This battle cry has become the death sentence of the current system of exploitation and oppression. As the poet Pablo Neruda stated, there are costumes for all tastes, there is room for everyone, but be careful, do not let the communists pass. Peru is, and as it should be, under the representation of those who were: presidents (constitutional or defacto), Velasco, Morales Bermúdez, Belaunde, Alan García, Fujimori, Toledo, Ollanta; accompanied by: Esparza Zañartu, Mantilla, Chinguel, Montesinos, Martín Belaunde, the SEPA, the Frontón, the commons of Castro Castro, Ancón and others. All of them have the right to enjoy this carnival that is the oppressive policy of Peru. But you will know their deeds. The Legislative Power of Peru has an extensive record: Julio César Arana, at one time, deputy for Loreto, murderer of natives in the Peruvian jungle in the exploitation of rubber, see *Broad and Alien is the World and The Dream of the Celt*. Colonel Agustín Belaunde, deserter from the battle of Arica, who with the greatest self-confidence and without the least embarrassment, later, was a deputy for the province of Tayacaja, Huancavelica. Amen to the congressmen: eat chicken, steal cable, pimp, trouble makers and a group of scoundrels who fill themselves up by eating the blood and sweat of the Peruvian people.

4. Andahuaylas. After an offer of dialogue and supposed peace, the authors of this uprising were arrested and today they pay for their audacity in Piedras Gordas. You don't play war. The sacrifice of conscientious combatants cannot serve for the shameful act of handing over the rifles, as firewood, in a heap and in the middle of the street and then being confined in the black dungeons of the reactionary state of Peru. After the events in Andahuaylas, why was the retreat not undertaken, with a view to new fighting? Just by heading in the direction of Ocobamba and Ongoy, or failing that towards

Pacucha, Huancarama and the Cocas Valley, surely the peasant masses would have acclaimed them.

5. The events of Bagua. Known to the news media as the Baguazo. The People of Bagua, the Awajun and Wampis, have rightly claimed extremely rational points in defense of their environment and their lands. But, the interests of the big bourgeoisie are worth more. Bagua citizens were considered second class, by García Pérez, a well-known conjurer. Things became increasingly violent due to the participation of the police forces. Opportunistic gentlemen! If you have an iota of revolutionary morals left, please take this as a lesson. The government and representatives of the Bagua communities, at the negotiating table, had already been in dialogue for 55 days. What was this dialogue for? To buy time and prepare the massacre of the peasants, without caring about his own police, 23 died according to the news. Peace and dialogue, in the present stage, are a means to annihilate the struggles of the people. The reactionaries are disillusioned, shouting at the top of their voice: “peace, dialogue!” While his two cunning hands wield the murderous dagger. The reactionary forces, equipped with helicopters, tear gas canisters, AKM rifles, attacked the protesters, in the so-called Devil’s Curve. The Awajun and the Wampis defended themselves with sticks, spears and stones. All this, trampling, with all the impudence in the world, his pantomime called for a dialogue table. We imagine that government agents are hypocritically dialoguing, concealing their thirst for hyena blood, wanting to annihilate the Bagua peasants. Well, with the dialogue table installed, they unleashed bloody repression. Gentlemen of the government! Every statesman knows that in an action like that of Bagua, in a violent conflict like that of Bagua, one must preserve one’s own forces and annihilate those of the enemy. Annihilating the enemy’s forces does not necessarily mean killing, but rather depriving him of his ability to resist. And the government and its cabinet did none of this. They did not care at all about the lives of the police officers who were surrounded by fighting and enraged villagers. The result: the disappearance of police personnel. In order to satisfy their personal or group appetites, they are not at all interested in the lives of their own troops. It has always been like this. We asked ourselves: Why didn’t they evacuate the surrounded police personnel, before unleashing the Devil’s Curve massacre? The real killers of the 23 policemen in Bagua were those who were leading the reactionary state of Peru at that time. Can these reactionary leaders dare to defeat the people’s war? These are just dreams and delusions. Dream cost nothing. Keep dreaming. The exploiters always hide behind soldiers from

the town, using them as cannon fodder.

6. The so-called Grito de Montan of August 31, 1883. Iglesias, whom I consider a traitor, capitulated to Chile, stammering: that it was necessary to “end the damage and humiliation of the enemy occupation by practical means. . . Courageous recognition of defeat. . .” Finally he signed the humiliating peace for Peru.

The courageous thing would have been to defend our territory. What were the practical means to end the enemy invasion? On October 20, 1883, the Ancón Treaty was signed, which meant the loss of our territory: Tarapacá, Arica and Tacna. A very high war indemnity: ten million pesos. Moreover, with a complementary treaty, Peru gave Chile 300 thousand pesos a month for the maintenance of the Chilean troops that occupied our territory. This peace agreement was humiliating for the defeated and Chile not only brought down Peru, but also put its foot on it. Remember, the rope breaks at the weakest point. The Chilean Government, recognized as representative of Peru, precisely this traitor Iglesias and signing with only the Treaty of Ancón. The traitors, the fainthearted, sell them workers, sorry, sell them homelands, they are always praised and lauded by the invaders, by the reactionaries,

In a war, the loser is the one who asks for a dialogue. With double intentions: one, through a truce, to regain strength, find a respite and then launch a furious counterattack; another feels lost and what he wants is to preserve part of his interests at a negotiating table, to conserve part of his strength and at a later time to attack again. Thus, too, restorations occur.

MPP: What is the Political Solution to the Problems derived from the War for which the opportunists of the Movadef are so disappointed?

C. Laura: In the world there are two conceptions, two ways of seeing political problems, two parties in contention. The reactionary government of Peru, which represents the big bankers, the big landowners and the big bourgeoisie in its two factions, buyer and bureaucratic, they hold power and are the oppressor class; this on the one hand. And, on the other hand, the Peruvian people: workers, peasants, the petty bourgeoisie and even the national bourgeoisie; they are the oppressed class. The oppressors are supported by a powerful army that is the backbone of this state. To stay in power, every certain period they have generated the so-called general elections for a replacement of authorities that continue to oppress the people. What then do the opportunists of the Movadef pretend? To register as a front, as a politi-

cal party, that meets the requirements imposed by this reactionary state and thus fulfill their dreams of being mayors, regional governors, congressmen and even presidents of the republic. That is, the black path of electoralism, a disease rejected by a long period of reconstitution of the Party. This shameful stage of parliamentary cretinism began in the 1930s, with the abandonment of the Marxist-Leninist theses of Mariátegui and the usurpation of the Party leadership by the opportunists headed by the subject Ravines. The Reconstitution period led us to build the heroic combatant that is the Party, to begin the armed struggle, it allowed us to travel the difficult but glorious path of encircling the cities from the countryside.

MPP: Comrade Laura, what opinion do you have about the Truth [and Reconciliation] Commission?:

C. Laura: First of all, it would be necessary to judge what class position those who make up this so-called “Commission” have. Who has constituted this body?: The reactionary government of Peru, the Peruvian state at the service of North American imperialism mainly. Let’s see its members. Mr. Salomón Lerner, has he ever raised a single finger, even for a day, for at least a minute, against the oppression and misery of the people? Never. What can you expect from this man? Nothing. That so-called commissioner Carlos Iván Degregori, does not go beyond having compiled some isolated facts of the struggles of the people of Ayacucho, being not even a spectator, but, broadly related, part of the era of Velasco Alvarado whom he called a “reformist.” Do you have any commitment or affinity with the people? None. Mr. Alberto Morote Sánchez, reactionary and backwards as a professor at the San Cristóbal de Huamanga National University has never, even pronounced the word people, for him there is no people. That figurine named Tapia, who once proclaimed himself to be an admirer of the RIM (revolutionary internationalist movement), what is his way of thinking? This gentleman applies the policy of the jackal before the lion; shoeshiner, unconditional and faithful servant of the reactionary governments and of North American imperialism, which to ensure its daily pittance, grows behind its masters, takes pleasure in perceiving crumbs; This despicable and parvenu has become a knife for the Peruvian people. What can you expect from this parasite? Is he an imbecile or is he an enemy? He is not an idiot, he has demonstrated his slavish ability alongside and as a banal puppet of the old state of Peru. It has opened its black jaws against Chairman Gonzalo, therefore, he is our enemy.

It is worth it to comment... this Commission was subject to the reac-

tionary State of Peru and to Yankee imperialism, as such, it had no independence and its conclusions had to be governed by the interests of the Peruvian State and Yankee imperialism; We make this statement because of the way of thinking and the class position they defend and will continue to do so. Furthermore, due to the incident that arose when the conclusions reached by the Commission were published; Congressmen, ministers, darker characters and known enemies of the people, the armed forces and police, did not agree with the publication of these conclusions. The pretext, “these conclusions threaten the democratic institutions of the nation,” What was the Commission’s response? Then they would publish it abroad. In this tug of war, it was decided to publish it, but blaming the dead tolls on the Party while exonerating the armed forces and police for the genocide against the Peruvian people. Later, this same Commission throws to the wind the story of national reconciliation to which the opportunists and rotten revisionists of the Movadef join. Thus the things, this Commission called the truth smell exonerating the armed and police forces of the genocide against the Peruvian people. Later this same Commission rejects the tale of national reconciliation, to which the opportunists and rotten revisionists of the MOVADEF join. Thus, this so-called Truth Commission smells of the reactionary state of Peru and of Yankee imperialism. This bastard organization, instrument of North American imperialism and the reactionary government of Peru call the truth, with the greatest cynicism and impudence, has worked for the reactionary government of Peru, in safeguarding the interests of the exploiters and to the detriment of the Peruvian people.

COMRADE JIANG QING, STANDARD OF THE GREAT PROLETARIAN CULTURAL REVOLUTION. COMPANION, COMRADE AND FAITHFUL DISCIPLE OF CHAIRMAN MAO ZEDONG.

Dr. Abimael Guzmán Reinoso, Chairman Gonzalo, Chairman of the Communist Party of Peru and Augusta La Torre Carrasco, Comrade Norah. Teacher of Communists, the eagle of the Party. A life totally and thoroughly dedicated to the Party and the Revolution.

MPP: Comrade Laura, we want your final words on this occasion:

C. Laura: We proclaim from here the future birth of the People's Republic of Peru, the Republic of Workers and Peasants; For this we have the Communist Party of Peru, with a just and correct ideological and political line, Marxism-Leninism-Maoism, Gonzalo Thought and a People's Liberation Army led by such the Party, which guarantee triumph... We raise our top resounding battle cry, against the propaganda storm against the Party and the Revolution. The bird sings seeking the echo of its congeners. Our actions and our experiences will move and summon hearts anxious for justice. The sun is already shining in our pupils and is agitating uncontrollably in our hearts. This is also our firm commitment. . . To Fight.

Separate point. . . I feel immense affection for my father, my mother, my brothers and especially my daughter. Special circumstances mean that we are not together. And it is worth it! . . . It is the revolution. . . it is the Party. . . it is Marxism-Leninism-Maoism, Gonzalo Thought. . . I want them to remember me with joy and let my life be a hallmark of pride for them. I know that tears flow from their eyes... but that those tears are not of regret, but the deep expression of a feeling of class. And as other combatants have already said: I have lived for joy, for joy I go to combat, and for joy I die, and it would be an insult to place an angel of sadness on my grave.. My flag is red and my badge is the hammer and sickle. We consider ourselves children of the Party, of the Revolution and of Chairman Gonzalo and for them I give my life. . . this is my decision. Thank you...

LONG LIVE MARCH 8, INTERNATIONAL WOMEN'S DAY! (March 8, 2013)

Communist Party of Peru - Lima Base.

“It is necessary that we fully develop a systematic work among these female masses. We must educate the women whom we have succeeded in bringing out of passivity, we must recruit and arm for the struggle not only the proletarian women who work in the factories or toil in the home, but also the peasant women, the women of the various strata of the petty bourgeoisie. They too are victims of capitalism.” - Lenin

We begin by expressing our greetings to our dear and respected Chairman Gonzalo, our leadership; conscious and voluntary subjection to our Base of Party Unity (BUP), the foundation that guides all our action; conscious and voluntary subjection to the PCP, to the present leadership forged and made by our leadership, to all its system of leadership; salute to the People's War that against wind and tide is maintained, defending with blood and fire the New Power, torch of hope of the proletariat and the Peruvian people. Commitment to demolish and sweep away the sinister new revisionism of the revisionist and capitulationist Right Opportunist Line (ROL) and the Left Opportunist Line (LOL), spawn of imperialism, mainly Yankee.

On this date we pay solemn, elevated and heartfelt communist homage to comrade Norah, the greatest heroine of the Party and the Revolution. A firm anti-revisionist, an example of persistence, of going against the current, of overcoming difficulties, together with Chairman Gonzalo she was a member of the red fraction of the 60s and 70s. She broke into ILA 80 with actions such as Chuschi and others; great organizer, example of merging with the deep and profound masses. Creator and forger of the Popular Women's Movement. Member of the I Marxist Congress of the Party... her example is everlasting.

We also pay tribute to Comrade Jiang Qing, member of the Red Faction, together with Chairman Mao Zedong. Promoter of the Great Proletarian Cultural Revolution (GPCR). Firm fighter against revisionism. She gave her life in prison, when the fascist counterrevolutionary coup of Deng Xiaoping accused her of being part of "the gang of four," an infamous hoax. She was always left-wing.

Comrades, companions in these two great women, proletarian, communist summits. In the PCP, Comrade Norah, and in the CPC, Comrade Jiang Qing, are the highest expression in the process of the World Proletarian Revolution. We also pay homage to communists and revolutionaries, a pleiad like Comrade Kruskaya, Comrade Lenin's partner, Comrade Rosa Luxemburg, Comrade Edith Lagos, Comrade Yobanka Pardavé, Comrade Janet Talavera, etc. although they did not reach the stature of the first ones, their role is transcendent.

Comrades, companions in the study, research and understanding of women and their condition, Marxism deals with the feminine problem in relation to property, the family and the State (the triple oppression. Linked to the State is the institution of the Church or religion) since in the historical process, it is intimately linked to these three issues: we reiterate private property, family and State. Already Engels in his masterly work: *The Origin of the Family, Property and the State* establishes this.

José Carlos Mariátegui, our founder starts from the semi-feudal and semi-colonial character of the Contemporary Peruvian Society (SPC) to judge the situation of women, and that the problem is not of gender (man or woman) but the problem is of class. Class character.

Moreover, Chairman Gonzalo, establishes for us the semi-feudal and semi-colonial character of the SPC where a bureaucratic capitalism unfolds, and

tells us:

“through the economic incorporation of women, capitalism set the basis for their economic autonomy; but capitalism by itself is not capable of giving formal legal equality to women; in no way can it emancipate them; this has been proven throughout the history of the bourgeoisie, a class which even in its most advanced revolution, the French Revolution of the 18th century, could not go further than a merely formal declaration of rights.

(...) the later development of the bourgeois revolutionary processes and the 20th century show not only that the bourgeoisie is incapable emancipating the masses of women, but with the development of imperialism the bourgeois concept as regards the feminine condition becomes more reactionary as time goes on and in fact confirms the social, economic, political and ideological oppression of women, even if it disguises and paints it in myriad ways.”¹

This is the objective, real cause of the growing oppression and exploitation of women; from women who work in agro-export or agro-industrial companies as agricultural proletariat, in textile manufacturing, in the mining industry; to the mainly poor peasant women, who many times are forced to plant coca leaves to survive, the women who work in Gamarra, or in factories such as de los Añaños, or telephone and others, for the mere fact of forming unions to defend their rights they are fired, or those of the commercial centers workers who receive miserable salaries, passing through the domestic workers who are overexploited and many times sexually abused, the public employees, those of the class-conscious and combative teachers, the university women; the real courageous mothers who, by pounding the dust and sand of the slums, have generated survival organizations such as the Comedores Populares and the Comités de Vasos de Leche, etc. But mainly we must always mobilize the poorest of the poor women, because oppression and exploitation fall hardest on them.

The three mountains: mainly Yankee imperialism, bureaucratic capitalism and semi-feudalism generate their “female icons”: Nadine Heredia Yankee agent, goddaughter of Hilary Clinton; la Villarán (directly responsible together with Humala for the massacre of the Parada) revisionist, opportunist

¹RedLibrary: *Marxism, Mariátegui, and the Women's Movement.*

pro-imperialist servant, fervent rabid against the Party and the People's War, just as was her midwife (both from the ex-IU²) the SIE agent María Elena Moyano, corrupt with the people's money and directly responsible for the arrest and death of several comrades. And so Keiko, L. Flores, L. Alcorta, all that pack of reactionaries, cover themselves up in their "feminine condition," to hide their class character, to unmask them thoroughly. To fight them. They promote a "bourgeois feminism," that just as in the 1950s oriented the struggles towards suffragism, (the vote for women, was a conquest but it is not a means for the real transformation of women) today they spread the false idea that by getting votes and parliamentary positions their rights are vindicated, that is false; they want together with the ROL R. and C. (Revisionist and Capitulationist) (Movadef), the LOL and other revisionists and opportunists to channel the women's movement towards parliamentary cretinism. ELECTIONS, NO!! PEOPLE'S WAR, YES!!

History teaches us: In the French Revolution we can already see clearly how the advance of women and their retreat are linked to the advances and retreat of the people and the revolution. This is an important lesson: the identity of interests of the women's movement and the popular struggle, as the former is part of the latter.

What do we see? On the one hand: the Party and the People's War in a difficult and complex bend. On the other hand a development of fascism.

What is the situation of women? In addition to the aforementioned economic and social base; the reaction promotes "the deficient condition of women" is "just a commodity," so we are one of the countries with the highest rate of sexual violence in the world against women, the increase of prostitution including child prostitution, trafficking and slavery of women, organ trafficking; the so-called "family violence" (machismo) that also the rates are high "femicide" one of the highest in Latin America, etc..

Thus, women are a social product, and their transformation requires the transformation of society. The true emancipation of women is intimately linked to the emancipation of the proletariat and the Peruvian people, that led by the PCP under the leadership of Chairman Gonzalo, developing the People's War, we conquer power throughout the country and establishing the People's Republic of Peru and through successive cultural revolutions we will arrive at communism.

Communist Party of Peru.

“Any one of us may be absent, but the party will continue and our immolated lives will encourage those who remain and the road will continue, until communism is imposed on earth. This is our conviction.”

“...What the Party demands, needs, demands, must be fulfilled and we are fulfilling it; it is a good method, whatever the circumstances we must fulfill what the Party orders, Party is Party. The reaction aims to destroy the leadership, to destroy the Party in order to suffocate and crush the revolution, as well as to separate the Party from the masses; to annihilate the Party is to postpone a revolution, not to finish it, because as long as there are communists and masses it can never be finished. These are very important things to take into account; to preserve the leadership of the Party.”

Chairman Gonzalo

“Building the conquest of power in the midst of people's war”¹

On this anniversary of the birthday of our beloved and respected Chairman Gonzalo, and the creation of the People's Liberation Army. We begin by expressing our greetings and full, conscious and determined subjection to

¹II Plenum of the Central Committee.

Chairman Gonzalo, our leadership, head of the Party and the revolution, the greatest living Marxist-Leninist-Maoist on the face of the earth, center of Party unification; great political and military strategist; philosopher, teacher of communists. Likewise we express our greetings and conscious and voluntary subjection to our all powerful ideology Marxism-Leninism-Maoism, Gonzalo Thought; principally Maoism as a new, third and superior stage at the universal level; and specifically in our homeland, Gonzalo Thought, concrete and creative application of Maoism. We express our greetings and conscious and voluntary subjection to the Communist Party of Peru, heroic combatant, organized vanguard of the Peruvian proletariat. To the Partisan events: To the I Marxist Congress. Marxist-Leninist-Maoist Congress, Gonzalo Thought. Sanctioning at the highest level and party instance, our Base of Party Unity, foundation that guides all our action, with its triple content: 1.- Marxism-Leninism-Maoism, Gonzalo Thought; 2.- The Program; 3.- The General Political Line with its center the Military Line. To the I, II and mainly to the glorious, historical and transcendental III Plenum of which its masterful synthesis is the victorious, defiant and valid Speech of September 24, 1992 of Chairman Gonzalo.

We salute each and every one of the leaders, cadres and militants of the Communist Party of Peru in the country and abroad, who have been carrying out the pending task of the General Reorganization to overcome the difficult and complex bend. We also salute the fighters of the hard-working and brave People's Liberation Army: Iron Legions of Gonzalo on one more anniversary of its creation, we salute the successful actions developed in the countryside and city; likewise to the masses who work with us and the people in general for the victorious advance in the fulfillment of the political tasks of the Party.

Likewise, we express our dissociation, rejection and struggle against the new revisionism: of the revisionist and capitulationist right opportunist line and its black head, the rat mourner "Miriam," and the left opportunist line whose head acts as caudillo "José," under whose shadows in close relationship they have set up false party apparatuses, and have usurped others, in their black purpose of liquidating the Party and annihilating the People's War. Know that sooner or later they will answer for their crimes before the Party and the People's War.

Finally, we salute the struggles of the international proletariat, oppressed nations and peoples of the world; the International Communist Movement and the struggle for the constitution and reconstitution of militarized Marxist-Leninist-Maoist Communist Parties, and mainly we solidarize and support

the People's Wars of India, Turkey, Philippines, that together with the People's War in Peru we are part of the New Great Wave of the World Proletarian Revolution commanded by Maoism, that in hard and tenacious struggle on all levels is crushing the general counterrevolutionary offensive headed by the Yankee gendarme, and its spawn the new revisionism, that at world level its black heads are Avaquian [*sic*] and Prachanda.

3.1 DEFEND THE LIFE AND HEALTH OF CHAIRMAN GONZALO!

With the coup of April 5, 1992, the old Peruvian State intensified its Genocidal Political Line against the Party and the Peruvian people as part of its task of Annihilating the People's War, developing its Yankee strategy of "Low Intensity Warfare" to "recover positions and maintain its system." From there they have been applying a sinister Fascist Plan of Isolation, Annihilation and Genocide against political prisoners and prisoners of war, the spearhead of which is aimed mainly against the leadership of Chairman Gonzalo.

This sinister Fascist Plan of Isolation, Annihilation and Genocide has the following components: A.- Fascist anti-subversive legislation, in violation of its own constitution of its own demo-bourgeois legal order and of International Human Rights conventions and treaties. Since his arrest, Chairman Gonzalo was arbitrarily and illegally taken to a Military Tribunal and subjected to an infamous summary trial (with faceless military personnel), without any guarantee for his physical and moral integrity, subjected to humiliating and humiliating treatment, without the right to defense, to due process, etc. Condemning him to life imprisonment, the new trials have only formalized "legalizing" the sentence for the "crime" of being Chairman Gonzalo Head of the Party and the Revolution, of leading the People's War against the old Peruvian State subjected to imperialism, mainly Yankee, to establish the People's Republic of Peru on the march towards communism. B.- Fascist Concentration Camp of the Naval Base, also violating its own constitution and international treaties that prohibit the permanence of civilians in military prisons, Chairman Gonzalo continues illegally in a military prison controlled by the Navy and the CIA, subjected to absolute isolation or solitary confinement (separated from the other prisoners) for more than 20 years, to cellular confinement in subhuman conditions constituting a perma-

ment torture regime seriously affecting his health and life. C.- Psychological operations, on the basis of Chairman Gonzalo's absolute isolation, the CIA - SIN mount sinister and crude hoaxes, at the service of the revisionist and capitulationist right opportunist Line, and of the left opportunist Line. All of this serves the vesanic and vile plan to discredit, isolate and assassinate Chairman Gonzalo, a sinister plan that we unmask, reject and will continue to combat with People's War. And we give our firm commitment to defend the health and life of Chairman Gonzalo, with People's War, giving our own lives in it, assuming the cost and the quota demanded by the revolution.

3.2 THE OLD PERUVIAN STATE, THE PERUVIAN SOCIETY AND ITS THREE TASKS ARE A HISTORICAL AND POLITICAL IMPOSSIBILITY.

To **restructure** its State, the fascist, genocidal and pro-Nicaraguan country-selling regime that today is headed by Ollanta H. (Alias "Captain Carlos"), which in its process of greater state reactionarization is concretized in presidential absolutism, fractured and denying its "representative democracy," intensifying the collusion and struggle of the factions and groups of the big bourgeoisie, which is expressed within the Armed Forces (Navy-Army with preeminence of the former) and in turn with its police forces. Where is his military and police reform?

His so-called "reforms" through a set of fascist laws (denying union, fundamental and people's rights) in the education sector (teachers, university), civil service law (state workers), pensions (retirees), military service (against the youth), tax, etc. And now health is nothing more than "reduction of the state for greater privatization" to conform to the dictates of its master, mainly Yankee imperialism, and its hegemonic plans in the region of the "Pacific Alliance" and the infamous "transpacific treaty" that violate and deny our national sovereignty.

Re-impulse: General Crisis of bureaucratic capitalism, third moment. The deepening of bureaucratic capitalism has accentuated semi-feudalism and semi-coloniality, maturing better conditions for the development and triumph of the People's War. After the rebound of its GDP in 2009, it de-

creases year by year, coinciding with the World Recession and entering the second half of this decade in which bureaucratic capitalism worsens to a very complex situation. They focus on mining and agro-exports, the former for greater plunder, aiming to generate regional “development poles,” with the risk of fragmentation and partition of the national territory, the latter with its “investment and rural development”; and, “food security” has served for a greater and new concentration of land, to the detriment of the mainly poor peasantry, destroying the national agriculture. The construction sector is linked to drug trafficking capital. This year they will have a deficit in their trade balance. Contained inflation with deflation (reduction of the purchasing power of the people) plus violent capital gains that generate salaries, wages and pensions of hunger, sickness and death. They will only spill more “blood, pain and tears” to the proletariat and the Peruvian people.

To annihilate the People’s War and liquidate the Party, each time they adjust and develop their “Low Intensity Warfare,” they imprison the masses in the countryside imposing them as mesnadas in the so-called “rondas” as a complementary armed force, cannon fodder for the counter-subversive war and shield of the armed forces; In the cities they are applying the Yankee strategy of “citizen security” to entrench themselves in the cities, corporatize the population (in urban patrols and neighborhood councils), control the population, generating white terror, in the same style as the Rodrigo Franco, Colina and other commandos, they have set up apparatuses with members of intelligence together with criminal leaders to extort, blackmail, even assassinate popular and union leaders, etc. basically in civil construction and the people in general.

Likewise, under the pretext of “Fight against drug trafficking” they carry out their genocidal campaigns of encirclement and annihilation. We also denounce and reject the abject Peru-US military treaty signed in March of this year, which among other things contemplates the installation of a military base in Piura, the use of drones to “combat” the coca growers, the airport in PICHARI-CUSCO, the control of uranium in Puno, etc. Likewise the military treaties with Russia and Israel, and the support of France in logistics and police training to crush the growing popular protest.

Thus demonstrating the greater and growing interference and penetration of imperialism, mainly Yankee, violating our national sovereignty, putting our territory and our homeland at risk.

3.3 THE DEMOCRATIC ROAD BEGINS TO FURTHER DEVELOP AS A POPULAR ROAD OF LIBERATION.

Comrades, fighters, Peruvian people, although we are still going through a difficult and complex bend, we are clear and firm in the course to follow. Reaction and the revisionist and capitulationist right opportunist line have set up Movadef to lead the masses down the black road of parliamentary cretinism. The traitor Artemio “kept up arms” until he fulfilled the objective of destroying everything he could of the Huallaga Regional Committee, so that the Yankees could apply their sinister plans of control of the Amazon. The mercenary José and his gang have usurped the Main Regional Committee, in order to submit to the plans of their Yankee master and fight the People’s War. Abroad the infiltration (agents of CIA mercenary Benedicto Jimenez) has usurped the leadership of the Peru People’s Movement (MPP) and the magazine Sol Rojo, etc. That is the situation.

But the left is maintained and strengthened. The Party has never been paralyzed, and the People’s War has never stopped for a minute. The forging of Chairman Gonzalo, the ideological and political strength clinging to our Base of Party Unity as the foundation that guides our action, the concentric and militarized construction of the Party have guaranteed it. So this profound imbalance is one more proof, welcome! On this date we give our firm commitment to put in tension all our forces for the General Reorganization of the Party in the midst of the People’s War, in struggle to the death against the new revisionism of the revisionist and capitulationist right opportunist line, and of the left opportunist line.

What corresponds? It corresponds: to strengthen and develop the People’s Liberation Army. It corresponds to defend the New Power, to recover what has been lost and to give shape to the Popular Front of Liberation with People’s War. It corresponds to strengthen the Popular Liberation Movement, promoting the growing popular protest, all managed with People’s War, applying the established tactic: “Unite the people, against the fascist, genocidal and pro-Yankee sellout regime of Ollanta Humala, developing the People’s War!” It corresponds: “To promote the campaign to impose Maoism as the new, third and superior stage of Marxism; and, that it be the command and guide of the World Proletarian Revolution; united to the

campaign for the defense of the life and health of our leadership Chairman Gonzalo and his all powerful Gonzalo Thought with People's War!" That corresponds.

Communist Party of Peru.

This work was distributed in the form of pamphlets along with actions of flag placements in Lima, Peru.

“We reaffirm ourselves in the People’s War that the Party is leading, it has not stopped for a minute, the Party has never been paralyzed, because it is clear on the course to follow, because it has unity in Chairman Gonzalo’s leadership, in the Base of Party Unity, in the People’s War, in the Strategic Development Plan. Once again, strategic centralization is expressed, we have plans that shape campaigns and this continues. A Party united by such elements is strong. Let us emphasize strategic centralization and tactical decentralization because it is communist practice, it is our concrete experience... The People’s War cannot be ceased...”

CHAIRMAN GONZALO (Doc. II Plenum of the Central Committee).

On these dates of celebration: 24th Anniversary of the current Speech of Chairman Gonzalo; October 1st, triumph of the Chinese revolution led by Chairman Mao; October 7th, 88th Anniversary of the Foundation of the Communist Party of Peru, which José Carlos Mariátegui founded in the image and likeness of the Peruvian proletariat under solid Marxist-Leninist bases and Chairman Gonzalo in hard struggle retakes the road initiated by our founder towards the Reconstitution of the Party and in hard struggle of two lines expels revisionism and opportunism to initiate the Marxist-Leninist-Maoist People’s War, Gonzalo Thought, on May 17, 1980, in transforming

action the Party fulfills the task of its realization of constitution in the I Congress of the PCP in 1988-1989, from which it continues its march, today it fulfills the pending task of its General Reorganization, forging the present leadership that is forge and workmanship of the Chairman Gonzalo. In this 50th Anniversary of the Great Proletarian Cultural Revolution and that the ICM is organizing it at the international level, its fruits are great. We greet with revolutionary and communist jubilation the leaders, cadres and militants of the PCP, the hardened fighters of the People's Liberation Army and the masses who support us in an organized way. In particular we salute the comrades and comrades of the MPP (CR) who promote the work abroad, unmask and crush revisionism and infiltrators who swarm there and in the networks, serving the General Reorganization of the Party, for imposing Maoism as the command and guide of the WPR (World Proletarian Revolution) together with the campaign for the Defense of the Life and Health of Chairman Gonzalo. We must strive for the purification of our ranks, because revisionism has already lost the game since it abandoned the principles and made the 4 changes (of line, Party, leadership and People's War), this is the course of more than 36 years of People's War. At the same time we express our communist greetings, solidarity and support for the 12th Anniversary of the Founding of the Communist Party of India (Maoist) on September 21 and its fiery People's War that there develops and contributes to the new great wave of the WPR.

In the current context of world crisis of imperialism, which is marching towards a deep depression of indeterminate time, bourgeois analysts and economists say: "we live in an epoch of economic and political uncertainty," all this process within the general and ultimate crisis of imperialism.

The inter-imperialist contradictions, in acute collusion and struggle are fiercely launched against the oppressed nations and peoples of the world, spreading: massacres, massacres, massacres, genocides, destruction, hunger, misery and a whole series of calamities that they leave in their wake, miserably seeking control of markets and the plundering of natural resources. The same contenders of the I and II imperialist war, are generating a III world war; we must oppose the revolutionary world war to the unjust war and unleash People's Wars.

The principal contradiction continues to be imperialism - oppressed nations, headed by Imperialism, mainly Yankee Imperialism, who sinisterly apply a general counterrevolutionary offensive, with the shameless support of its spawn the new revisionism (Bob Avakian, Prachanda, etc.), who in their

eagerness to attenuate the collusion and struggle unleash their “global war against terrorism” which in essence is armed counterrevolution to confront, oppose and annihilate the new great revisionism.), who in their eagerness to attenuate the collusion and struggle unleash their “global war against terrorism” which in essence is the armed counterrevolution to confront, oppose and annihilate the new great wave of the WPR commanded by Maoism. Once again they speak in the world of peace, dialogue and pacification, whose objective is to divert and annihilate the People’s Wars (India, Turkey, Philippines and Peru). This is served by the revisionist FARC in Colombia with its ally and guarantor Castro of Cuba, and in Peru by the revisionist and capitulationist ROL and the LOL.

Thus they have elaborated at regional level (Colombia, Mexico, etc.) and mainly in Peru their strategy of “citizen security,” Yankee strategy within the guidelines of their low intensity warfare (GBI), within which they manage the phenomenon of drug trafficking, mafias that they control through the CIA and Wall Street banks in New York that move huge millions of dollars; corrupting society, the youth in drug addiction and pushing them to be lumpens, etc. And once again our country is the venue for meetings where they agree on plans for expansion and looting, led by U.S. imperialism, for example APEC.

In the national situation, as always, bureaucratic capitalism continues its course of one crisis after another, more and more parasitic, which means that its three counterrevolutionary tasks: to revive, restructure and annihilate the People’s War, continues to be a historical and political impossibility and will be even more so as soon as we concretize the General Reorganization of the Party.

The press at the service of imperialism and reaction constantly campaigns for “the Armed Forces to take to the streets,” as well as the “state of emergency” in Callao, more police, more patrol cars, more snitching, rewards for the most wanted, Sinchis with military uniforms in the streets, etc., imposing a “state of emergency” in various provinces and the VRAEM region, where they apply their policy of the three alls (steal everything, burn everything and kill everyone). See that the criminal gangs are made up of active police, ex-military and intelligence personnel.

The reactionary general elections of 2016, more crucial than yesterday, the contradictions in the very heart of the big bourgeoisie on both sides, there was repudiation and rejection by the broad masses of the people.

In the first round, the figures highlight the very low vote of the first two

candidates, neither PPK nor Keiko reached even 30% of the eligible voters, very far, then, from the 50% plus one vote required by their constitution.

50% plus one vote that their constitution demands to assume the presidency. It is also very clear that absenteeism, the non-concurrence to vote, has increased notably, reaching 4,167,824, which represents 18.20% of the eligible voters; and added to the invalid and blank vote, the total is 7,561,811, which is 33.02%. The highest vote getter only obtained 6,115,073 which is 26.70%. This is the self-declared triumph of their so-called “democracy.” The second round was presented with the same characteristics but the absenteeism was higher, reaching 19.91% or 4,559,058 of the eligible voters.

The Party’s boycott policy served once again to stir up the contradictions of the old system, which is rotten to the core, the boycott of its electoral farce was deployed both in the countryside and in the city, the PLA mobilized and called on all the people not to VOTE! In March actions of agitation and armed propaganda were developed, in April: graffiti, leaflets, flags and ambushes, and in the countryside forceful ambushes with annihilations of the living forces of the enemy (army and navy) that were determined to take the seats and protect the process itself. In Lima the agitation and propaganda against the elections was called “psycho-social.” In May and June forceful actions were carried out in its 4 forms of struggle, among other tasks and the ideological-political and organizational construction was consolidated. The new PCP campaign was carried out in Huacho, Huancavelica, Cuzco, Ayacucho and in Lima within the Metropolitan Committee, a sounding board.

This government of the Yankee P.P. Kuczynski, is part of the fascist, genocidal regime, and the most country-selling that has been going on since 1992 with Fujimori, Toledo, García and Humala, a regime and current government representing the big bourgeoisie (B. comprador), mainly the financial sector or group, that is why they call themselves technocrats; this Yankee Kuczynski said on July 28 “we are no longer for ideological debates,” “social revolution,” to have “a modern country towards the bicentenary,” we need to promote “culture of peace” and “banish violence wherever it comes from,” he shows himself as the standard bearer in the “March not one less” (march organized and promoted by Yankee imperialism and its lackeys organized in NGOs, civil society and bourgeois feminists, etc., etc.) we say to this loyal Yankee that we will crush all their campaigns and reactionary plans.

In this opportunity we unmask and repudiate with deep class hatred the vile new hoax against Chairman Gonzalo our dear and respected Leader, since already from this supposed “marriage” which is nothing more than

to discredit and undermine the morale of our Leadership, moved by the traitorous rat Miriam because the Party is not inherited and much less the Leadership, which has already been denied and crushed by Chairman Gonzalo himself in the I Congress in L2L and in an occasion when he wanted to raise the Leadership to throw it down later; since August 2016 say the traitors and capitulators of the ROL “habeas corpus for his health,” when these wretches bowed their knees, selling their filthy skins they left him abandoned and trafficking with his name of “struggle for a peace agreement” to cover their vile betrayal and confuse the masses that “there were no conditions for the People’s War,” and even more colluding with reaction and reactionary judges for a new summary trial for events that he never accepted and even less participated in, these black characters of the ROL R. and C. (Revisionist and Capitulationist) already want to see him dead. and C. already want to see him dead and buried in that supposed mausoleum, trafficking with the blood of the best sons of the people and fallen heroes, know that the first ones we will bury will be their black and miserable skins because their dreams were to destroy the Party, to stop the People’s War and to serve the evil plan to assassinate Chairman Gonzalo.

In spite of the black imperialist, reactionary and revisionist dreams (ROL and LOL) the People’s War is developing against wind and tide, fulfilling our firm and resolute plans and objectives, the masses make history and it is they who will transform society into a new one, guided by our undefeated ideology Marxism-Leninism-Maoism, Gonzalo Thought, under the leadership of Chairman Gonzalo and organized in the PCP. We call on the people in general to join our struggle to defeat this old system of exploitation and oppression in order to achieve their true emancipation.

Communist Party of Peru.

We hereby inform the national and international public opinion that the MPP (CR) [Peru People's Movement (Reorganization Committee)] has received the following communication from the PCP, which we [MPP(CR)] are sharing with you:

We denounce that on Channel 7 TV Peru, the reactionary state-owned channel, they have aired a piece about the farce of the trial against Chairman Gonzalo, our leader, our beloved and respected Chairman, where he defends himself and requests medical attention for his health. We condemn this new scheme that the enemy is playing with the revisionist and capitulationist ROL (Right Opportunist Line) led by individuals like Miriam, Cox, Pantoja, Morote, etc. This channel will likely repeat the news, and it's likely to be picked up by other channels as well. They defame Chairman Gonzalo and slander the actions that the PLA (People's Liberation Army) has carried out in the capital and others that shook the old Peruvian State and the genocidal hyenas, mainly the Yankees. We call for the continuation of the campaign to defend Chairman Gonzalo and his all-powerful Gonzalo Thought. And we call for a stand in favor of the Defense of Life and Health of the greatest living Marxist-Leninist-Maoist on the face of the Earth, come what may, developing the People's War, with the Communist Party members and the masses rising up with weapons in hand to overthrow the enemy, and all organized to sink the fatally wounded beast, to concretize the General Reorganization of the Party in the country, and to be red soldiers of Gonzalo, giving our lives today, tomorrow, and always for the PCP and the Revolution.

Communist Party of Peru.

“It is necessary that we fully develop a systematic work among these female masses. We must educate the women whom we have succeeded in bringing out of passivity, we must recruit and arm for the struggle not only the proletarian women who work in the factories or toil in the home, but also the peasant women, the women of the various strata of the petty bourgeoisie. They too are victims of capitalism.”

LENIN.

“In order to build a great socialist society, it is of the utmost importance to mobilize the great masses of women to enter into productive activities. In production, men and women must receive equal pay for equal work. Only in the process of the socialist transformation of society as a whole can genuine equality between the sexes be achieved.”¹

CHAIRMAN MAO ZEDONG.

We begin by expressing our greeting and full, voluntary, and determined adherence to our dear and respected Chairman Gonzalo, the leader of the Party and the revolution, our Leadership, the greatest Marxist-Leninist-Maoist living on the face of the earth, the center of party unification, and the guarantee of victory until communism, a great political and military

strategist, philosopher, and teacher of communists. Likewise, we express our greeting and conscious and voluntary adherence to our almighty ideology, Marxism-Leninism-Maoism, Gonzalo Thought, principally Maoism as a new, third, and superior stage at the universal level, and specifically the principal Gonzalo Thought in Peru, the concrete and creative application of Maoism. We express our firm and voluntary greeting and adherence to the Communist Party of Peru, to the current leadership, and to its entire system of leadership, which in practice is forged and made by Chairman Gonzalo, the heroic combatant who leads our cause, the organized vanguard of the Peruvian proletariat. Greetings and adherence to the party events: The First Marxist Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought, sanctioned at the highest level and party instance, our Basis of Party Unity, the foundation that guides our action, with its triple content: 1) M-L-M-PG; 2) The Communist Program; 3) The General Political Line with its center, the Military Line. Greetings to the First, Second, and mainly to the glorious, historic, and transcendental Third Plenum. We salute the masterful and current Speech of Chairman Gonzalo, which shines forth vibrant and victorious before the world on September 24, 1992, the synthesis of the Third Plenum of the Central Committee of the PCP.

This March 8th, the month of commemorating the struggles for women's emancipation worldwide, it is imperative to investigate and understand their condition and their only path to emancipation through the sole means of People's War. Marxism addresses the women's issue in relation to property, family, and the state (*The Origin of the Family, Private Property and the State* by Engels); and Chairman Gonzalo concludes that women are conceived as a situation or condition derived from the structure of the society in which they develop, emphasizing the dynamic, changing nature of the female situation and highlighting the transformative role that work plays in a woman's social position and perception.

Taking stock of the history of women's condition, we find that in primitive communities there was a spontaneous equality between men and women, arising from the natural division of labor based on age and sex. Women participated in social decision-making and even held a privileged position. In slavery, the first class-based society in history, the situation of women changed drastically, as they were subjected to subjugation and devaluation. In feudal society, they were subjugated by both society and religion, seen as wretched beings and subservient to their husbands. In capitalism, despite their massive incorporation into the economic process as workers, their for-

mation and development as part of the advanced class, separated from the exclusive realm of domestic tasks, they were unable to emancipate themselves. However, this period laid the foundation for their mobilization and demands for emancipation.

The revolutionary process of the bourgeoisie and its reactionary nature demonstrate that it will never emancipate women. On the contrary, it promotes the thesis of female liberation, bourgeois feminism, in order to confuse and divert the women's struggle into a vulgar war of the sexes. While it is true that women in this semi-feudal and semi-colonial society are subjected to their husbands and men, this is not their primary chain. As we have already stated, this is a result of the property relations of this system. Therefore, the struggle should not be focused on fighting against men, as the bureaucratic and comprador bourgeoisie in our country would have us believe with their "ni una menos (not one woman less)" movement, where the fascist and Yankee P.P. Kuczynski portrays himself as the champion of that struggle. While they condemn acts of violence against women, women should not lose sight of their true enemy: imperialism, primarily Yankee imperialism, bureaucratic capitalism, and semi-feudalism are the three mountains that oppress them.

Chairman Gonzalo states regarding this, "(...) on this matter, it is enough to say that the analysis of women's condition throughout history presents her as subject to guardianship and in a situation of subordination to men, which makes women beings who, despite belonging to the same class as their spouse or the man they are related to, find themselves in an inferior position, a lowering that laws establish and impose. Consistent with this situation of disability, throughout history, we see how women have had to fight for their rights to achieve formal equality with men under capitalist domination, and how only the triumphant revolutionary struggle under the leadership of the proletariat is capable of establishing and enforcing real legal equality between men and women. However, as we have seen, full equality in life, as Lenin said, will develop as socialist production unfolds. These simple observations demonstrate the certainty of the thesis of women's emancipation, which conceives it as part of the emancipation of the proletariat."² Therefore, as Lenin said, "(...) the emancipation of the workers must be the task of the workers themselves, and in the same way, THE EMANCIPATION OF WOMEN MUST BE THE TASK OF WOMEN THEMSELVES."

Therefore, it is necessary to create and develop organizations that con-

tribute to this, such as women's militias, popular women's movements, incorporating themselves into the three instruments of the revolution: Party, Army, and Front/New State. The objective is to incorporate women into politics, class struggle, and People's War, in Peru through the People's Liberation Army (PLA), Gonzalo's iron legions, and the Popular Women's Movement (MFP), an organization of the PCP created and forged by the great comrade Norah. All of this under the all-powerful leadership of Maoist Communist Parties in and for the fiery People's War, now in the Strategic Offensive of the World Proletarian Revolution. It is what corresponds, it is the authoritative voice and the call that Chairman Gonzalo made to us, and we must decisively assume it until Communism shines on earth and the true realm of harmony and freedom, of real happiness, is realized. That must be our communist conviction and decision.

In our country, the semi-feudal and semi-colonial nature, the condition of women workers, peasants, and traders is reduced to a much more miserable life than that of men. Often, it falls upon their shoulders not only to ensure their own survival but also that of the entire family. Throughout history, this has generated greater conditions of courage and rebellion, leading to their significant involvement in popular struggles and any social change. Their participation has been crucial towards their true emancipation.

On this date, we solemnly pay tribute to the great Comrade Norah, the greatest heroine of the Party and the revolution, a staunch anti-revisionist, an example of persistence, of going against the current, of overcoming difficulties. Along with Chairman Gonzalo, she was a member of the Red Fraction in the 1960s and 1970s. She burst onto the scene in ILA 80 with actions like the one in Chuschi and others. She was a great organizer, an example of merging with the deep masses. She was the creator and forger of the Popular Women's Movement, a member of the 1st Congress of the PCP. Her example is imperishable; she is also the left wing of the Party and always closed ranks around Chairman Gonzalo and the red line. She fought against the 1979 ROL (Right Opportunist Line) that opposed the beginning of the People's War and the rightist elements that opposed advancing the PW and the future plan to Seize Power. Today, these wretched revisionist capitulators trade with her precious blood and prestigious name, while Comrade Norah crushed them in the fierce struggle of two lines and in revolutionary practice, leaving them like chicken dung, hiding their black heads and waiting for the opportune moment to raise their hand against the PCP, as the ROL R and C (Revisionist and Capitulationist) and the LOL ("Left" Opportunist Line)

led by the weeping rat Miriam do today, along with the traitor José, who lead them and act as great leaders, but are actually puppets of the worst scum. The same goes for that politically weak M. Pantoja, repentant like M. Limaco, the capitulator and turncoat O. Morote, the faggot Coz, and the traitor Artemio from Huallaga, as well as the renegade Feliciano, etc.

We also pay tribute to Comrade Jiang Qing, a member of the Red Fraction and a driving force behind the GPCR, alongside Chairman Mao Zedong. She was a steadfast fighter against revisionism and gave her life in prison. When the counter-revolutionary fascist coup led by Deng Xiaoping accused her of being part of the Gang of Four, it was an infamous lie. She was always on the left.

These two great women, proletarian leaders, and communists, Comrade Norah in the PCP and Comrade Jiang Qing in the CPC, represent the highest expression in the process of the PRM. We also pay tribute to other communists and revolutionaries like Comrade Krupskaya (Lenin's partner), Comrade Rosa Luxemburg, Comrade Yovanka Pardavé, Comrade Edith Lagos, Comrade Janet Talavera, and others in Peru. While they may not have reached the stature of the first two, their role is significant and invaluable in the revolution. They call on all women and workers to continue the victorious path of the People's War, to carry out the tasks and fulfill the plans to achieve the goals and conquer the successes that are demanded, even if it means sacrificing our own luminous lives. In our minds, the slogan beats: "Everything except Power is an illusion!"

We also salute all the comrades of the resplendent People's War of India, the Philippines and Turkey, as well as all the comrades of the oppressed peoples who are on the way to the beginning of the People's War in their countries for their liberation and true emancipation.

Today, the revolution is the main historical and political trend, and it will be even more so. It is the trend of the people, the voice of order, and it is at the forefront of the agenda. In other words, People's War is at the forefront of the agenda. It is what summons and unites us, and through it, women's emancipation will be achieved. In this difficult and complex turning point, it demands the General Reorganization of the Party and all its leadership bodies. It is the obligation of all working women, peasants, workers, and students who hold up half the sky to participate in order to accomplish the pending task and thus definitively eliminate our chains and the exploiting class that oppresses us. We will sweep away and bury vile imperialism, global reaction, and fight the new revisionism with blood and

fire until we completely defeat them, leaving no stone unturned.

“This convergence of the new revisionist counterrevolutionary offensive, in collusion with imperialism, dreams of the definitive destruction of Marxism, dreams of sweeping away all that the revolution has done, all its achievements, all its heroic action, they want to enthrone once again the old, the proterious domination of reaction in the most outdated and sinister moment of imperialism. This has repercussions and we see capitulation and monstrous renegades, it occurs in the petty bourgeoisie, in the workers’ crusts, the MRTA for example is the proclamation of capitulation in the country; they spread ”peace“, bourgeois democracy, market economy, human rights, reactionary ideologies, bourgeois culture; they capitulate before imperialism. Capitulation is expressed in two facets: capitulation before the native reaction and capitulation before the world reaction, it is always so; its objective is to sell the revolution; it is prone, then, that it must be razed to the ground with blood and fire and that requires a strategy and a tactic...”

DOC. “PREPARATORY SESSION OF THE SECOND PLENUM OF THE
CENTRAL COMMITTEE - 1992”

CHAIRMAN GONZALO

In this month of Red and Combative May. On May 1st Day of the International Proletariat; May 6, 7, 8 and 9, Day of Heroic Resistance and

May 17, beginning of the Marxist-Leninist-Maoist People's War, Gonzalo Thought, we greet with revolutionary jubilation the international proletariat, the oppressed nations, the Maoist parties and organizations, the militants of the Communist Party of Peru (PCP) in the country and abroad, the fighters of the PLA and the masses, who with their blood water and write the new dawn of the World Proletarian Revolution.

On this 37th Anniversary of the vigorous and victorious People's War, we reaffirm ourselves in our BUP, foundation that guides all our action with its triple content: 1) Marxism - Leninism - Maoism, Gonzalo Thought; 2) The Program of the Democratic Revolution; 3) The General Political Line and its center the Military Line, approved and sanctioned in the First Congress of the PCP, Marxist Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought; first imperishable milestone of victory, son of two great fathers : the Party and the People's War. This reaffirmation is necessary and unavoidable today more than yesterday, because we are facing a general counterrevolutionary offensive, headed by mainly Yankee imperialism, reaction and the new revisionism, not only in Peru but at world level that pretends to conjure up the revolution as the main historical and political tendency and that will be even more so.

On May 17, 1980 red banners with hammers and sickles were unfurled in the wind, with the beginning of the People's War, the Strategic Offensive of the World Proletarian Revolution was entered, proclaiming the "Rebellion is justified," summoning the proletariat, the poor peasantry in particular and the poor peasantry in particular, and the poor peasantry in particular, the poor peasantry in particular and the Peruvian people in general to stand up in struggle organized in the three instruments of the revolution to write the new history in the fields of our tumultuous geography, sealing old times of peace and opening new times of war, with the rifles to storm the skies and open the new dawn.

Internationally, the imperialist economic crisis is being unloaded on the shoulders of the Third World countries, fueling and raising the masses; all this reaffirms that the revolutionary situation in the world is a fact and not a mere lucubration, even if it occurs with unequal development, as stated by Chairman. Mao "the next 50 to 100 years will be a time when imperialism and reaction will be wiped off the face of the earth." Collusion and struggle. It is developing more and more every day, recent events such as Syria, Afghanistan, North Korea prove it. If there is collusion, there is conflict. The contradictions at world level are sharpening, and mainly the

principal contradiction between oppressed nations and imperialism and the third contradiction, inter-imperialism, is sharpening. The fascist and arch-reactionary Donald Trump, head of U.S. imperialism, carries out genocides, looting, bombings and a growing and acute trade war, in order to consolidate his world hegemony. Germany, for its part, has drawn up its plan of action to become the sole superpower, enlisting new contingents and its military capacity in the Middle East and all of Europe. Russia is extending its diplomacy and direct military intervention in West Asia. China, no longer satisfied with its growing commercial interference in Africa and Latin America, is seeking pacts and agreements to strengthen its positions and is constantly increasing its military budget. France, England, Japan, Italy and others are not lagging behind in all these preparations, as Chairman Gonzalo said in his masterful and current Speech "...the same contenders of World War I and II, are generating, are preparing World War III... We cannot allow it! Enough of imperialist exploitation! We must put an end to them!..."

In the revolutionary camp. This year we commemorate the 100th Anniversary of the Triumph of the October Socialist Revolution led by the Great Lenin in Russia, which marks an extraordinary historical milestone in world history, the end of the bourgeois revolution and the beginning of the New Era of the World Proletarian Revolution. The struggle between revolution and counterrevolution in the era of imperialism and the World Proletarian Revolution has bequeathed us the most important experiences of the class struggle. The PCP joins in the celebration and we call to fulfill it with more People's Wars.

In India the revolutionary armed uprising of Naxalbari celebrates this month its 50th Anniversary influenced by the GPCR and today this struggle is led by the CPI (Maoist). The People's War in India, Turkey, the Philippines and Peru is the great red torrent of the World Proletarian Revolution that summons all the oppressed countries to initiate and develop the People's War to oppose the world imperialist war of plunder by building new Maoist Communist Parties to lead.

Nationally, the present context demands us to combat the fascist, genocidal and country-selling regime that since the 90's with Fujimori, Toledo, García Pérez, Ollanta Humala (cap. Carlos) and today the Yankee P.P. Kuczynski, faithful lackey to his master, who dreamed and continue to dream of fulfilling their three counterrevolutionary tasks as an immediate necessity of imperialism, mainly Yankee imperialism and Peruvian reaction: to re-launch bureaucratic capitalism, restructure the old State and annihilate the

People's War and the PCP, we tell you are a historical and political impossibility and will be even more so as soon as the General Reorganization of the Party takes place.

The current situation is characterized by the class struggle in different parts of the country, today, almost a year into the government of the genocidal P.P. Kuczynski, our country continues in a deep economic, political, cultural and social crisis from which it cannot and will not be able to get out, today the four decades have come together confirming what Chairman Gonzalo established that bureaucratic capitalism has entered its third moment of crisis and inexorable destruction since 1980, accelerating its decomposition of the old State by the People's War that operates in our country and which the PCP leads. To this we add the natural disasters (coastal child); in the face of this calamity on April 27 the Congress approved a disastrous law for "National Reconstruction" with changes and 3,500 million dollars of budget, and where will this money come from? From imperialism, as always the beneficiaries will be the big construction and imperialist companies, which will fall on the shoulders of the broad working masses and greater submission to imperialism.

The national industry continues to be in crisis, harming those who produce electric motors, mining machinery, textiles, tires, etc., generating unemployment of 130 thousand jobs for the working class, increasing hunger in poor households. The minimum living wage (RMV) of 850 soles does not even cover the basic family basket and they have destroyed labor rights and free unionization.

Once again we renew our commitment to remove heaven and earth to Defend the Life and Health of Chairman Gonzalo with People's War! Before the attacks of Yankee imperialism, reaction and the traitors of the ROL R. and C. (Revisionist and Capitulationist) and the LOL. Today in the farce of the "new trials" they want to dent his morale and he shows himself defiant and fights them with communist hatred respecting his rights as a Prisoner of War and we salute with revolutionary fervor the campaign carried out by the Maoist parties and organizations in Defense of our beloved Leader.

On this Anniversary we reaffirm ourselves in the conquest of Power throughout the country, through revolutionary violence that is concretized in the People's War, we also reaffirm ourselves in the pending task of the General Reorganization of the PCP in function of resolving the problem of the difficult and complex bend, correcting the problems committed in the past that did much damage, which reaction and the new revisionists have used for their

black ends; our commitment is that the General Reorganization of the Party leads to its culmination.

Finally, the PCP on this special date of historical and political transcendence, makes a call to the Peruvian proletariat, the peasantry and the people in general to organize themselves in the ardent People's War to achieve their real emancipation, which is directed by the PCP.

Note From the People’s Liberation Army (PLA) (May 27, 2017)

People’s Liberation Army.

With immense joy and revolutionary optimism at its peak, we inform you that the task has been accomplished as established for the actions of armed agitation and propaganda, following all the steps from its preparation to its execution and evaluation. The comrades have sent the photos that we publish with the slogan of “Defend the Life and Health of Chairman Gonzalo with People’s War!” There is a photo of an PLA fighter appreciating the leaflet and how he distributes them later. The graffiti on Chairman Gonzalo was made at the height of the Carapongo bridge stop on the central road, behind the gas station, near the high-voltage tower, along with the flag. The location is San Juan, near Pariachi, and they have not given it media coverage. They have only given coverage to the one that appears in the reactionary press. ATV+ has given it more coverage, almost all day, as they always do, just like the newspaper Correo does, which supports the revisionist and capitulationist rats of Movadef and other groups of the ROL (Right Opportunist Line).

To the comrades of the PLA, nothing daunts them, and they are fulfilling the established tasks with great determination and a high revolutionary spirit, elevating their bellicosity. Everything fuels contradictions and will even shake the reactionary media both here and abroad, as it is already doing. This has always been the case because the failure shown by the reactionary forces and imperialism in their task to annihilate the people’s war increases the reactionary struggle and exposes the revisionism and capitulationism of ROL and LOL (Left Opportunist Line).

A big hug to all the comrades who work with you for putting Maoism as the command of the new great wave of the world proletarian revolution, especially those in Latin America and Europe!

Defend the health and life of Chairman Gonzalo and his almighty thought
with people's war!
Long live the Marxist-Leninist-Maoist Gonzalo Thought people's war!

Everything Comes Together, The People Protest and Forcefully Raise Their Struggle (June 2017)

People's Liberation Army.

Regarding the action in HUANTA on June 1st, the digital newspaper La Republica published an extensive report on the ambush. It states that there were 2 highway patrols involved, 2 unhurt individuals, and 2 deaths. In addition, their equipment was confiscated – including short and long-range weapons, vests, numerous projectiles, etc. Pedro Yaranga, the despicable “senderologist,” expresses the opinion that this is an action that will have a lasting impact in the coming days. A few days ago, reports were featured on Cuarto PODER CHANNEL 4 and Panorama channel 5 regarding the transfer and isolation of Chairman Gonzalo. They denounced and campaigned against the dark role of the ROL (Right Opportunist Line) due to their shady dealings and diversionary tactics to deceive the public, all aimed at hindering the **GENERAL REORGANIZATION OF THE PARTY AND THE DEVELOPMENT OF THE PEOPLE'S WAR.**

Chairman Gonzalo, Leader of the Party and the revolution, the greatest Marxist-Leninist-Maoist on the face of the Earth, displays the demeanor of a great Leader of our class, demonstrating that he is a true communist through and through. He is the most important revolutionary prisoner of war in the world, maintaining a warrior's spirit and communist resolve at its peak on the brightest trench of combat of the people's war. The enemy returned him to the Naval Base, where he will continue to be held in absolute confinement and isolation. He was accompanied by revisionist garbage and the CIA agent Montesino, all in an attempt to cover up the violation of the rights of the world's greatest prisoner of war. The Chairman responds with steadfast attitude and utmost optimism to the beats of the hearts of our people's heroes and their finest sons who have sacrificed their lives in these

37 years of invincible people's war. We are celebrating the 31st Anniversary of the Day of Heroism through the actions of the PLA (People's Liberation Army).

Everything comes together. We see protests in the village, and they escalate their struggle with determination, such as the movement against the mining company in las Bambas. The government of the yankee Kuczynski declared a state of emergency for 30 days in the province of Cotabambas, Apurímac region, on February 10, 2017. The newspapers reported: "The National Police will take charge of internal order with the support of the Armed Forces, since a group of community members has been protesting due to government and MMG Las Bambas mining company's non-compliance." But the people do not falter, their courage grows, and they resume their fights. It seems like they might fade, but it's only to ignite even more.

The SUTEP of the Center has called for an indefinite national strike; those aligned with the ROL and MOVADef within the "SUTEP" will organize a gathering on June 24th in Lima. As always, they want to hitch a ride and lead the Classist and Combative SUTEP of the Central Region down the path of revisionism. The ROL aims to counterpose the struggles of the teaching profession with the broader struggle of the people and undermine the revival of the Classist and Combative SUTEP. However, their divisive and anti-classist actions are destined to fail. Denounce how the rats of the revisionist and capitulationist ROL want to undermine and infiltrate in this struggle.

Today in Tuman - Chiclayo, June 13th, 2017, the newspapers reported, "Protests in Tuman do not stop despite the fact that the Executive Branch declared a state of emergency in this district, which is located in the province of Chiclayo, Lambayeque region." Thus, the people increase their protests. The genocidal Armed Forces, experts in defeat, have sent 200 troops to repress and bring order, which implies further reactionary action by the old Peruvian State and a preying on the defenseless and unarmed masses, which we repudiate and condemn.

Today they will also make known the proofs of the crimes committed by Captain Carlos (the fascist, genocidal and country-selling ex-president Ollanta Humala Tasso), the PCP unmasked him in due time, but the reactionaries of the same genocidal underbelly, have only just brought him to light after they themselves had cleansed him and named him president of the old landlord-bureaucratic State at the service of imperialism, mainly Yankee imperialism. Today, they do it not for the sake of justice but because of the

collusion and the struggle that is worsening and corrodes them. After playing this “card” they will make amends, because they are about to cleanse the fascist, genocidal and country-selling Fujimori, along with other military leaders.

Now, the agitation and armed propaganda of the PLA continued in the northern zone of Lima with leafleting on Peru Avenue and University Avenue in San Martin de Porres and the surrounding area, where there is a large presence of lumpens that rob the masses, but the main thing is that there are factories where there are workers and other laborers, the action was carried out at 11:30 P.M., approximately on the night of the 9th of this month, the displacement of the contingent was large and forceful, an entire Detachment participated in the action, as planned.

The people’s war is the only road and the PLA and its fighters, increasingly raising their militancy, led by the PCP, will sweep away all these reactionaries, fascists, genocidaires and sellouts who commit so many evils and crimes against the masses daily, until they leave no stone unturned, always led by the PCP and firmly subject to Chairman Gonzalo and the all-powerful Gonzalo Thought.

Defend the Life and Health of Chairman Gonzalo, developing the People’s War!

Long live the 31st Anniversary of the Day of Heroism!

Success in your work, greetings to all the comrades, companions, and fighters in Europe and especially to those in Latin America and THE OPPRESSED PEOPLE, to the Communist Parties, Maoist Organizations, and revolutionaries, a heartfelt embrace, we say: **PEOPLE’S WAR UNTIL COMMUNISM! YANKEES GO HOME!!! OUT OF THE MIDDLE EAST, NORTH KOREA AND VENEZUELA!!**

Greetings from the PCP for the clear message of the Anti-imperialist Alliance in the resistance against G20 (July 2017)

Communist Party of Peru.

We have seen the message in the publication of the Anti-imperialist Alliance that has carried out such a magnificent resistance against the meeting of the imperialists and their lackeys of the G20, this cohesion, strengthens and at the same time impels the work and the masses are ready, waiting for the PCP to ADVANCE AND OVERCOME THE BEND, to concrete the RGP (General Reorganization of the Party) AND WE HAVE LAID THOSE FOUNDATIONS FOR THAT PURPOSE.

We ask you to send our recognition to the members of the Anti-imperialist Alliance for their clear message and, likewise, to all the masses who have fought together with them and have given us this great triumph for the international proletariat and the peoples of the world, dealing a resounding blow to the imperialists and their lackeys. Their message has reached the proletariat and the people of Peru, we have felt very close their encouragement in struggle and with your shouts of combat: REBELLION IS JUSTIFIED! We ask to publish this short, but significant, greeting from our part attaching the message itself and the photos that follow.

As part of the resistance to the G-20 meeting in Hamburg, the Anti-Imperialist Alliance of different organizations was formed. The declared aim of the Alliance was: "In the midst of the various forms of resistance we will fight to send a clear internationalist and revolutionary message to the fighters worldwide against imperialism: We are together with you, your struggle is ours! we send this message, among others to the poor peasants in Brazil who give their lives to deploy a great revolution; we send this message to all those who fight in Kurdistan, Syria and Iraq against imperialist aggression; we send

this message to the comrades who give their lives in the people's war in Peru, Turkey, India and the Philippines to carry the revolution to the end; we send this message to all those who against the genocide and draconian repression of the Erdogan regime in Turkey hold high the banner of resistance; we send this message to all those who everywhere in the dungeons of reaction hold the flags of rebellion; we send this message to the communists and revolutionaries who despite their differences fight together in the imperialist countries in spite of everything to smash the imperialist beast."

Message of the PCP Against The Parties of the Sellouts and Genocides Headed by the Yankee Kuczynski (July 28, 2017)

Communist Party of Peru.

We sent photos against Yankee imperialism and see that last week the PCP beat reaction in the VRAEM. They said that it was to rescue a lumpen and that they were narco-terrorists, all to cover up the class struggle and the role of the PCP and the people's war that it is developing. Put a note or press report of reaction in the daily Correo, that their parties of country-sellers and genocides headed by the government of the Yankee Kuczynski, genocide-fascist and country-seller, be beaten by the incessant people's war and accompanied by the increase and empowerment of the people's struggle as our Chairman Gonzalo announced and traced that victorious road. Fighting the government of hunger, misery, corruption, the greatest sale of Peru to the imperialists, the greatest suppression of rights and conquests of the class and the people, fascist government of repression and genocide, which like the old landlord-bureaucratic State at the service of Yankee imperialism, mainly, is only maintained by force of arms and inertia. The struggles of the masses such as those of the miners, teachers, peasants, neighborhood and slum dwellers reject this government and crush it. The actions of the people's war and the struggles of the people signify the rejection of this Yankee Pedro Pablo Kuczynski, his speech for the 28th. **THE PROTESTS AND THE STRUGGLE CRUSH HIM AND THE PEOPLE'S REJECTION OF HIS STARVATION, FASCIST AND COUNTRY-SELLING POLICIES AND HIS GENOCIDAL AND FASCIST PLAN:**

This year, also unmask the hoax that the reaction continues to stage with the farce of the "new trial" against Chairman Gonzalo, Tarata case and others for the death of the mesnadas and black heads. Previously, the weekly

newspaper Sucesos has brought out those of the ROL, echoing these traitors and capitulators with the mind of amphorae, who have betrayed Chairman Gonzalo and the PCP, and who pretend to pass themselves off as his defenders. Thus, also, these traitors today move in the SUTEP trafficking with the name of the PCP, but the class-conscious masses of teachers reject these poisonous rats and puerile reptiles in their black plan to divert the masses along the road of the reactionary elections and we say to them: Elections, NO! People's War, YES! Defend the life and health of Chairman Gonzalo with People's War until communism! Long live Chairman Gonzalo and his almighty Gonzalo Thought! Long live People's War in Peru!

We Denounce the Black and Crude Counter-revolutionary Campaign of the Media Against Our Beloved and Respected Leader, Chairman Gonzalo (September 2017)

Communist Party of Peru.

We denounce, condemn and brand with fire the black and crude counter-revolutionary campaign of the media on television, radio, newspapers such as El Comercio and weeklies such as Sucesos, etc. against our beloved and respected Chairman Gonzalo, head of the Party and the revolution, the greatest living Marxist-Leninist-Maoist on Earth, center of Party unification and guarantee of triumph that leads us to communism. Chairman Gonzalo's leadership based on his almighty thought. We tell them that no matter how much they throw all the mud and all their reactionary power they will not be able to dent his image of great Communist Leader and his all-powerful Gonzalo thought, all-powerful because it is true.

Constantly, the Peruvian reaction through its Low Intensity Warfare, carries out these counterrevolutionary campaigns, within the Yankee plans to defame, discredit and the foul plan to annihilate our Leadership and disappear the PCP and the People's War, which it leads for its General Reorganization and to get out of the difficult and complex Bend.

We denounce, condemn and will crush their black plans and infamies against our Leader, Chairman Gonzalo, the eagle of our party, developing the People's War and serving the World Proletarian Revolution.

Fighting side by side with our people, the PLA is destroying the living forces of the enemy, fulfilling its role and the three revolutionary tasks of Combat, Mobilize and Produce, demonstrating to the world that we are not afraid of the dangers and that we face the difficulties collectively, em-

bodying and applying the ideology of the proletariat, the unfading Marxism-Leninism-Maoism, Gonzalo Thought, led by the new leadership of the PCP, demonstrating in the facts that it is forged and made by Chairman Gonzalo. Gonzalo, shrewdly applying the five necessities and the thousand eyes and thousand ears of the Party, today near the XXV Anniversary of the current and masterful Speech of Chairman Gonzalo, we reaffirm ourselves in this one, which constitutes the synthesis of the III Plenum, a historical and transcendental Plenum and in: Defend the Health and Life of the PCP and the PCP:

Defend the Health and Life of Chairman Gonzalo by developing the People's War!

Communist Greetings for the Dates and the Month of Red October (October 2017)

Communist Party of Peru.

As has already been seen in the reactionary media, their agents have been ambushed in joint operations of the henchmen of the DINCOTE, ARMED FORCES AND REPRESSIVE FORCES of the PNP OF THE ZONE against the fighters of the PLA and the PCP, comes to light of an agent killed and was a member of the elite forces of the PNP of the DINOES in Huanta in the VRAEM area, on Sunday, October 8 and, on October 9, of another who allegedly had a heart attack, as part of their joint operations, which is hidden by the newspaper Correo, Exitosa, La República and the facebook page tiempo 26. com, affirms and recognizes such actions of the combatants in the VRAEM and even La República mentions the escalation of actions of the PLA from June to September, but does not recognize the last one, only the casualty of a policeman in an operation in search of Shining Pathists (senderistas) due to the events of blows in Huancavelica, They affirm and deny at the same time, but as they are paid and oriented by intelligence, they say what they are told or what suits their interests, imputing the armed actions of the PCP, as subversive remnants or narcoterrorists who move to protect and take out drugs, etc.

They cannot silence or hide the blatant actions of the PLA throughout the Main Regional and part of the VRAEM, which are part of the plans of the PCP and the General Reorganization of the Party, also as part of one of the Campaign for the Defense of the Life and Health of Chairman Gonzalo and his Almighty Thought, of the different party celebrations and as the recognition of the 100 YEARS OF THE TRIUMPH OF THE GREAT OCTOBER SOCIALIST REVOLUTION IN RUSSIA LEAD BY THE GREAT LENIN.

All the aforementioned, today that the leadership of the PCP is under attack, its prestige of the GREAT TEACHER OF COMMUNISTS and the guarantee of triumph towards the Communism of Chairman Gonzalo, which is based on his Thought and the 1st CONGRESS of the PCP has established and sanctioned it and nobody can stain or throw mud on the steel as the traitors and capitulators of the ROL and LOL have been doing, which our own Leader has been crushing in the trials before the enemy and defending his Thought, the People's War and the PCP.

GREET ALL THE COMMUNIST PARTIES AND MAOIST ORGANIZATIONS FOR SUCH A GREAT PROPAGANDA WORK FOR THE 25TH ANNIVERSARY OF THE SPEECH OF CHAIRMAN GONZALO. AND VERY ESPECIALLY TO THE MPP(CR), THE ORGANISM GENERATED FOR THE PARTY WORK ABROAD, AND TO THE PCB(FR) FOR THEIR CONTRIBUTIONS AND SUPPORT TO THE PEOPLE'S WAR IN PERU AND TO RECOGNIZE THE CONTRIBUTIONS OF CHAIRMAN GONZALO TO THE WORLD PROLETARIAN REVOLUTION AND TO MAOISM:

PEOPLE'S WAR UNTIL COMMUNISM AND NOTHING AND NO ONE CAN STOP US!

CRUSHING REVISIONISM.**

1917, triumph of the October Revolution in Russia, the class establishes the dictatorship of the proletariat and opens a new era.

The triumph of the October Revolution marks an extraordinary milestone in world history, the end of the bourgeois revolution and the beginning of the world proletarian revolution. This new era marked by the empowerment of violence expresses the expiration of the bourgeoisie to lead the revolution and the maturity of the proletariat to take, lead and maintain the power of the dictatorship of the proletariat; within which are also framed the revolutions

of the oppressed nations. Revolutionary violence to conquer and maintain the new power is today people's war.

Lenin develops Marxism and elevates it to a second stage, Marxism-Leninism. Stalin will continue Lenin's work and in the process of building socialism in the USSR he will fight against the deviations of Trotsky, Zinoviev and Kamenev which concluded in 1937; it took a 13 year struggle and it is false that he solved things in an administrative way. We assume Chairman Mao's position on Comrade Stalin's role that 70% is positive, a great comrade.

Just as no class in the world could take power all at once, but through a process of restorations and counter-restorations, when the proletariat takes power and establishes its dictatorship, the eagerness of the bourgeoisie to restore capitalism is strengthened and a historical process of struggle opens up between the proletariat to maintain and defend its dictatorship and prevent capitalist restoration and the bourgeoisie that wants to regain power. This struggle between restoration and counter-restoration is an undeniable historical law until the dictatorship of the proletariat is finally established. In the case of a revolution in which the proletariat definitively establishes itself in power, the struggle between restoration and counter-restoration is extremely acute and bitter and will take approximately 200 years, beginning with the Paris Commune in 1871.

The experiences of the restoration in the USSR and China leave us great lessons, both positive and negative; especially, to highlight the giant steps forward in the realization of the new State and how the Great Proletarian Cultural Revolution is the solution to prevent the restoration.

Chairman Mao said: In a short time the world has been transformed as never before; what took England 250 years will take China 50 years, there we see the potential of production relations. The old tsarist Russia, backward with centuries of ballast, with a crippling feudal system that stained the rotten system from its deepest roots to the most vile; with a brutal autocratic dictatorship, was called the gendarme of Europe but the revolution overthrew centuries of oppression were swept away and in a few decades reached great heights of production and gave bases to what later the revisionists used as a power and superpower economy.

On this Anniversary, which marks One Century of the Triumph of the Great Socialist Revolution in Russia led by the Great LENIN and his continuator Comrade Stalin; we must reaffirm what progress was made in the New Socialist State and the five-year plans that the CPSU implemented, that even

the reactionaries and counterrevolutionaries are forced to recognize. That is the merit of Stalin in the construction of Socialism and the defense of the dictatorship of the proletariat, that is why he is so hated by reaction and world revisionism.

Seeing the five year plans according to non Marxist authors like Bernald and Colin... (III Plenum of the Central Committee, 1992) Five five year plans, twenty five years, with world war in the USSR, 25 million dead and they had to apply scorched earth. Chairman Mao says, Stalin did not know how to manage the production system, he did not put it on the two feet, Agriculture and Industry. Notwithstanding the mistakes made, the strength of the power of these new social relations created a complete revolution and certain bases of economic development that satisfied the needs of millions... The World Bank in a book analyzes 30 years of development of the backward countries..., concludes that the one that made the greatest leap in the shortest time was China, it is not Deng's laws, it is the development of China's economy from what was done in the Democratic Revolution of the Supporting Bases to what was done after the liberation of 49.

The USSR, under the leadership of Stalin and the CP, with the Red Army and the sacrifice of more than 25 million lives of Soviet citizens and millions of lives of the peoples of Asia, defeated the fascist state of Germany in the Second Imperialist War, a world war of plunder, defeated HILTNER and left him no choice but to commit suicide. Stalin led the world anti-fascist front in the war, which saved the USSR, served the liberation of Europe and contributed to the revolution in Asia and the whole world.

All that was left by the October Revolution and all the comrades and comrades who immolated themselves at the moment of opening the New Era, no one of the enemy, that is no oppressor will forgive them and the proletariat and the peoples of the world thanked them and dreamed of equality, justice and peace for all; Today, tomorrow and always what was established by the titans of thought and action is fulfilled, with the triumph of the Chinese Revolution (1949), the beginning of the People's War in Peru (May 17, 1980), the one led by the PCP, the People's War, led by the CPI-Maoist, and those that are about to begin, is a reality not mere lucubration.

In this process of the world proletarian revolution, Chairman Mao Zedong developing Marxism-Leninism raises Marxism to its highest peak, turning the theory of the proletariat into Marxism-Leninism-Maoism. And in Peru, Chairman Gonzalo, applying it to the present situation, has given us Marxism-Leninism-Maoism, Gonzalo Thought.

In the present situation and in perspective we have entered the strategic offensive of the world revolution within the “50 to 100 years” in which imperialism and world reaction will collapse and we will enter to the proletariat definitively establishing itself in power and establishing its dictatorship, from then on the contradiction will be between socialism and capitalism on the march towards communism.

The fact that there have been restorations in the USSR and China does not deny the process of vigorous development of the international proletariat, but it shows how the struggle between restoration and counter-restoration takes place from which we communists draw lessons to prevent the restoration and definitively establish the dictatorship of the proletariat.

As was to be expected the Maoist Communist Parties and revolutionary organizations have pronounced themselves with the appeal made at the V Meeting of Maoist Parties and Organizations of Latin America, signed by the organism generated by the PCP for work abroad, the MPP(CR), to celebrate the 100 years of the Triumph of the October Revolution and that they are 100 years of the Development of the World Proletarian Revolution, and then it is concretized with the call of the I Meeting of Maoist Parties and Organizations of Europe, to a great celebration. This act is its concretization.

This is the call of the class, of the international proletariat and the peoples of the world, to this clamor of the class and the people we join together embodying the scientific ideology of the proletariat, the resplendent and indestructible Marxism-Leninism-Maoism, Gonzalo Thought, which is the creative and concrete application of Maoism today and always, that we carry it in our veins and in our mind palpitates, **Except Power, All is Illusion!**

After celebrating the 25th Anniversary of the First Congress of the PCP and carrying out the campaigns of Ideological and Political Construction (CIPO), ambushes, constant actions of agitation and armed propaganda, ... and various calls at all party levels, we have broken through and pushing forward the General Reorganization of the Party (RGP), advancing in making us strong in politics and squandering courage and much communist initiative. The PLA embodies, more and more, that our strength lies in the CIPO, research and training plans and a planned displacement; managing discipline, constant political and military vigilance and raising the party needs. Today we know how to conduct ourselves and deliver hard blows to the enemy, and we are advancing in this.

The rest is pure foolish chatter and black opposition to make the leap in the organizational construction, of leadership and in the struggle of two

lines, of those who cling to the old and the black; The old resists to die, they question, criticize and make a question of state for unimportant things and sink in the rotten individualism and liberalism hoping that everything comes from the center of direction and they fight for a position and believe they are predestined to lead when they do not move a finger and less break with the old; they beat their breasts; but, of plans, of ideology and of CIPO, nothing! They waste their time and some of them leave before the end of the GSR. Deep down they capitulate because of problems of fiefdom, of “partner” and they tinkle the ideas of their universities or of their old contacts of the revisionist and capitulationist ROL and the LOL, they fall into pessimism and say, better I was here or there; but they do not even know what the camp is, nor what the People’s War is, because this one is and will be even more bloody and that stretch of blood and victory we have not yet passed, they want to advance without a flinch and without wearing out their shoes, foolish poses that, in theory and in practice, Chairman Gonzalo, previously already crushed the old revisionists and traitors to the People’s War, who today furiously attack and deny his thinking; the PCP has experience in the management of the two-line struggle and we will crush individuals, who for their eagerness for protagonism and liberalism flee from the struggle and allow themselves to be carried away by groups of traitors and renegades, who never did anything but destruction and de-cohesion.

The struggle is at the level of ideas, it is concretized in the People’s War and the struggle takes place wherever it comes from. It is an armed struggle between revolution and counterrevolution, if in it we immolate our lives to impose the line and the left of the Party, then we surrender it with dignity and resolution. That is what we have been taught by Marx, Lenin, Chairman Mao and we have learned from the leadership of Chairman Gonzalo, that is what we do and will continue to do until communism is imposed on the earth and there is harmony and happiness for the people.

This old Peruvian State, rotten to the marrow, is sinking irremediably, represented by fascists, genocidaires and traitors, more and more lackeys and vile servants of their master, mainly Yankee imperialism. The Yankee who acts as president of the old landlord-bureaucratic State, PP Kuczynki, in his pretended eagerness and outcry tries to hide his essence and is submitting more and more to the imperialist and reactionary dictates.

After having carried out, on Sunday, October 22, a National Census 2017; this was in evidence. As always, in order to impose their counter-subversive plans as part of their so-called “Low Intensity Warfare” (LWI), population

control and for the dispossession, “expropriation,” of the lands and properties of the people; When the order of immobility and repression of the population was already being questioned, the Minister of the Interior, the FUHRER apprentice -and former sympathizer of the armed revisionism of the MRTA-Basombrío, denied that there would be no arrests and that “the citizen could leave for a health emergency”; falling into the ridicule and shamelessness of those who engendered these Yankee plans.

It was noticed that in many places there was no census and even less reached the remote places of our national geography. There was a high percentage of rejection, expressed in the fact that many people started drinking, going for a walk and meeting or reuniting with friends and family; it was revealed that the regional and presidential candidates were preparing to disseminate propaganda on polo shirts, caps and pens that INEI itself was aware of, and even the resignation of the head of INEI, Anibal Sánchez, took place due to the waves of complaints of theft and rape of women who were taking the census; They have paralyzed their economy and the production of many factories and private and state-owned companies, even transportation, paralyzing and restricting the Electric Train, etc., and causing more insecurity and insecurity in the country. and causing more insecurity and taking advantage of the delinquency to commit their misdeeds to the order of the day.

This “Census” shows their real reactionary nature, these authorities of the old State, at all levels, are out for loot. This corrodes them even more and increases their quarrel among themselves. With this “Census,” after having used it for their purposes and shameless systematic theft and deceived the young people; these days, the same young people who took the census have protested and have despised the system and the entire state apparatus of INEI, with total class hatred, for their payments and have thrown away and spoiled all the material and incomplete logistics that they gave to justify these drivers of the great disaster and scam of the National Census 2017.

In the recent National Strike of the Bases of SUTEP they have mobilized in a great majority of Lima and Regions of the country, if they did not attend and did not abide by some teachers is because of the dirty and black work done by those of Movadef and Patria roja, all the “left” opportunism that swarm in Lima and Huancayo, mainly for not working disciplined as a Front, but act outside the bases and masses of teachers in the countryside and parents and students, only want related and traffickers of the teaching profession, giving rise to infiltration in the Regional SUTE and that the Movadef

adheres or touts the leadership of the HNI of 2017 and try to traffic with the advances in the struggle and the platform of struggle of teachers, young people and parents. These are the conditions that are presented and, also, the workers of the Judiciary about to go on Strike, so Durbeli Rodriguez has come out to defend his management and stifle the struggle of the workers of the judiciary, the national and international situation demands bold advance, in the next reactionary elections to push for the Boycott, even more to go incorporating the masses in and for the People's War.

The Yankee PPK has recently met with the representative of the UN to discuss foreign policy matters and plans for his "human rights" (HR), which is nothing more than the rights of the bourgeoisie and to endorse crimes of the old Peruvian State, saying that the UN has told him to submit the genocidal Fujimori to examination by international doctors; for what? To grant him a pardon. Endorsing the genocides of the bureaucratic path and wanting to fulfill his main counterrevolutionary task of annihilating the GP and the PCP.

But they are failing in their three reactionary tasks. Thus the old society and the old State that represents and defends it, its democracy, its Executive and Parliament, its armed and police forces, its judicial and prison system are sinking and, however hard it may be for them, the PCP is advancing in its GP, even more so in the current context of the XXV Anniversary of the current and victorious Speech of Chairman Gonzalo, of the 89th Anniversary of the glorious and heroic fighter, the PCP, and in this 100th Anniversary of the Triumph of the Great October Socialist Revolution in Russia, led and under the leadership of the Great Lenin.

We salute the Maoist parties and organizations of Latin America and the World for the impulse to the campaign in defense of our Leadership, Chairman Gonzalo, and very especially the Communist Party of Brazil (Red Fraction), Communist Party of Ecuador (Red Sun), the Maoist Communist Party of France and the Maoist magazines of Germany (Class Position¹) and Austria (Red Front Collective), etc. for their pronouncements on the 25th Anniversary of the Speech of our Leadership.

These pronouncements have a great significance in defense of Maoism. Because, with their sinister and black attacks on the greatest living Marxist-Leninist-Maoist on the face of the earth, on the master of communists and guarantee of triumph, Chairman Gonzalo; that is where the reactionaries and

¹RedLibrary: The name of this magazine in German is Klassenstandpunkt.

bone-suckers, the hyenas of the rotten system have attacked, the living soul, our heart and the center of Party unification, they have wanted to savage the PCP Leadership in the farce of the new Trial. But, that is when our dear Leader and Eagle of the Party has thwarted and crushed their plans, the traitors and revisionists of the ROL and LOL, those who never show their faces and cover themselves with the cloak of political prisoners and social fighters; today, openly, in the party and fronts of Movadef, Fuddep, etc, with the old cantaleta that “there are no conditions,” “the leadership cannot and there is no one to assume”; but, if they take the name of Chairman Gonzalo and the PCP for their black and puerile skins, the People’s War will sweep them away and they will have to swallow all their black vomit and the PCP will leave the Recodo with the GPR.

We must raise the proletariat and peoples of the world especially here in Latin America, which is the center of revolutionary storm, where the spark of the People’s War in Peru is setting fire to the fields of oppression and exploitation and which will become the future bases of support of the world proletarian revolution...

We reaffirm ourselves in developing as a fraction within the International Communist Movement so that Marxism-Leninism-Maoism, principally Maoism, be the command and guide of the world revolution and we call to raise, defend and apply Marxism-Leninism-Maoism, principally Maoism! since, only in this way the international proletariat through its reconstituted Communist Parties will be able to lead the conquest of power and emancipate the oppressed in order to emancipate itself as a class.

The history of the international communist movement is a glorious process of struggle through which communists throughout the world have struggled and struggle to unite in the service of achieving their unalterable goal, communist society. In this heroic struggle three Internationals have been realized.

We are for the reconstitution of the Communist International and we consider that the agreements taken in the Meetings of Maoist Parties and Organizations of Latin America and Europe to march towards a Unified International Conference of Maoist Parties and Organizations is an important step in this direction to which we are giving impulse with our participation through our generated organism and with the joint pronouncements.

Brief Note from the PCP to the MPP (CR) (November 2017)

Communist Party of Peru.

We are filled with revolutionary optimism and overflowing joy at the great triumph that the activities and the celebration event held in Europe by the Marxist-Leninist-Maoist Parties and Organizations of that Continent have meant, how good that all in such a grandiose event have taken an international political leap forward in uniting revolutionary forces around Marxism-Leninism-Maoism, principally Maoism with the universal contributions of Chairman Gonzalo, Gonzalo thought, around the position of the left and the red line, that is a great leap and will have a positive repercussion in Peru and abroad. Thus, we see how the Maoists of Europe together with those of Latin America and serving with international support to the people's war in India, relying on its victorious development, are advancing in uniting revolutionary and Maoist forces, which we consider a triumph for Chairman Gonzalo and the PCP.

We greet and are filled with optimism by the very good deeds and celebration from November 7 to 13 in India convened by the CPI(M). And to the comrades from Ecuador the greeting of the Party from here and to all those who fight in the world to put Maoism as the command and guide of the world proletarian revolution and to you, comrades of the MPP (CR), we send you warm communist greetings and continue the SUCCESSES IN YOUR WORK and to all the participants and to those who expressed solidarity with such an event, it is a great advance in these moments of attacks by the new revisionism and the general counterrevolutionary offensive from imperialism, mainly Yankee and from all that group of idiots who defend this rotten system and which is sinking and falling apart, where we will be its gravediggers towards our final goal, the always golden Communism, greetings

comrades.

Long Live the 38th Anniversary of the People's War (2018)

Communist Party of Peru.

Learn from Chairman Gonzalo, Embodying and Applying Gonzalo Thought!

“Thus, on that black economic perspective, outdated and reactionary institutions are rising up, surviving only by the force of inertia and the weapons that sustain them, spilling more and more and bathing in the incendiary blood of the unarmed, vilely oppressed people, who have already begun to say Enough is enough, and who every day believe less in the old State and expect less from the government. In conclusion, discredit, disorder, chaos in addition to corruption and the most shameless cynicism corrode the landlord-bureaucratic State for whose government a few demagogues of poorly concealed interests and unbridled ambitions are again frivolously and happily competing, with verbal skirmishes and perhaps some clashes...” - Chairman Gonzalo

The Communist Party of Peru, under our undefeated and all-powerful ideology, Marxism-Leninism-Maoism, GONZALO THOUGHT, we reaffirm once again, in defending the life and health of Chairman Gonzalo, closing ranks for the left of the party that tirelessly struggles for the general reorganization of the party.

We salute the international proletariat and peoples of the world, the proletariat and people of Peru, especially the poor peasantry, mainly.

We salute the popular masses, because the masses make history, the masses make the people's war, masses that, from the steely force of their

fighting blood, luminous inextinguishable light, have generated the people's war, have generated the leaders, cadres and militants of the party, combatants of the people's army of liberation, thousands and thousands of sons and daughters of the people, who fight and will fight to transform this old and outdated Peruvian society from its foundations, sons and daughters of the people who with their demolishing language of arms will build, sooner rather than later, overcoming the bend, the new society for the oppressed and exploited.

We salute the proletariat, the people and the masses that with their hunger and their blood, in the heat of the people's war, are exalted until they are transfigured into a burning flame of the unfading light of Marxism-Leninism-Maoism, principally Maoism, true and all-powerful ideology of the international proletariat, because, with its action, it sustains and drives the struggle against the general counterrevolutionary offensive and also allows to confront the unbridled and sinister campaign in collusion and struggle with the revisionists, which imperialism develops against Marxism.

Synthesis:

The validity of the people's war, military theory of the proletariat, serves to fight against imperialism, revisionism and world reaction, to develop the world proletarian revolution, to put Marxism-Leninism-Maoism, as command and guide of the proletariat and the peoples of the world.

We salute the proletariat and the people, the masses, because from their indefatigable and strong hands, the three instruments of the revolution have arisen, because their rebellious, unbending spirit and their inexhaustible wisdom nourish the Communist Party of Peru, the organized vanguard of the proletariat, under the leadership of Chairman Gonzalo, leadership and guarantee of the Peruvian revolution, axis of all revolutionary construction, sustained in Marxism-Leninism-Maoism, Gonzalo thought, because his will, daily endorsed and of his irreducible heroism, beats in the People's Liberation Army, beats in the People's Liberation Army, army of a new type, combatant, opposed in its essence and form to the reactionary and genocidal armed forces, army that, under the leadership of the party, fulfills the political tasks of the revolution, backbone of the new State and serves the people, because its great transforming capacity and its powerful construction force, generates, sustains and develops the new Power, the joint dictatorship, based on the worker-peasant alliance, led by the proletariat through the party. The new State that for years flourishing more thriving the popular committees, bases of support with great defiant brightness in the very heart of the peo-

ple. Beacon that illuminates our only and just road, the people's war that very soon, will raise in its highest summit, the red flag with the hammer and sickle.

We salute the proletariat, the people, the masses on the 38th ANNIVERSARY OF THE PEOPLE'S WAR. That without their immeasurable support there would be no validity endorsed of the invincible people's war, that without their shared bread, without their unfaltering costly effort, without their own precious blood, the people's war would not be as it is, without its sustenance, it would not be as it is, irrefutable testimony of the invincibility of the people's war, irrefutable proof of the unfading truth of Marxism-Leninism-Maoism, principally Maoism, that without its growing support, the people's war in Peru would not be as it is, a bonfire of hope that extends beyond our borders, in perspective, a key victory for the world proletarian revolution, it drives the constitution and reconstitution of communist parties in the world, that without the proletariat, the people and the mainly poor peasantry, without creatively shaping the great leap and incorporation of the masses to the people's war, power will not be conquered in the whole country.

For all of the above:

Always starting from the fact that the masses make history, that the masses make the people's war, the main historical and political perspective and tendency is the revolution, party of the oppressed, optimism of the class, our beautiful sentence, today as yesterday, continuation of the class struggle with weapons in hand.

The Communist Party of Peru, salutes the proletariat, the people and the masses, and CALLS on them to serve with commitment to, with their own hands, through the people's war and led by the party, build the conquest of power throughout the country and forge the People's Republic of Peru. CALLS UPON the cadres and militants, combatants and masses to be part, hinge of the general reorganization of the party.

The sinister sentence of life imprisonment, against our leadership, Chairman Gonzalo, continuator of Marx, Lenin and Chairman Mao Zedong, will not stop or stifle the revolution, they are hyena dreams of this old and outdated order, We tell you:

Long live Marxism - Leninism - Maoism, principally Maoism!

Long live the 38th anniversary of the People's War!

Long live the Communist Party of Peru, Marxist-Leninist-Maoist, Gonzalo Thought!

Long live Chairman Gonzalo, head of the party and the revolution!

Honor and glory to the proletariat and people of Peru!

“...The worst fear, in the end, is not to trust the masses, is to believe oneself indispensable, center of the world, I think that is it, and if one trained by the Party with the ideology of the proletariat, with Maoism principally, understands that the masses make history, that the Party makes the revolution, that the march of history is defined, that the revolution is the main tendency, the fear vanishes and only the satisfaction of being mortar and, together with other mortars, serve to lay foundations so that one day communism shines and illuminates the whole Earth.”

- INTERVIEW WITH CHAIRMAN GONZALO, CENTRAL COMMITTEE, COMMUNIST PARTY OF PERU, JULY 1988

GONZALO THOUGHT IS PEOPLE'S WAR UNTIL COMMUNISM! (January 2018)

Communist Party of Peru.

Revolutionary greetings and some clarifying points:

As we can see, the statement from FDLP-ECUADOR, on the 124th Anniversary of Chairman Mao's Birth: very precise, resounding, and relevant, we adhere to and reaffirm the universal validity of Marxism-Leninism-Maoism and, primarily, the application of Gonzalo Thought to concrete conditions, which contributes universal validity and serves the World Proletarian Revolution. Today, more than ever, shines the indomitable Marxism-Leninism-Maoism, Gonzalo Thought; because it is Chairman Gonzalo who contributes to a decisive leap in the three constituent sources of Marxism-Leninism-Maoism, imposing Maoism as a new, third, and superior stage of Marxism, uncovering laws of BUREAUCRATIC CAPITALISM, crushing old and contemporary revisionism with people's war, developing it to Strategic Equilibrium, solving the problem of Power, and gradually constructing the new State while dismantling the old Peruvian State, generating a power vacuum and destroying the living forces of the enemy through the PLA and the masses of the new power. We reaffirm that Gonzalo Thought is: People's War Until Communism! Except for Power, everything is an illusion! Today more than ever, we will give our lives and the necessary quota in defense of the Life and Health of Chairman Gonzalo, advancing People's War, serving the General Reorganization of the Party and its victorious triumph that has been postponed and undermined by the new revisionism for years, and by those who fall into that game due to ignorance and rightism, without centralizing but wandering around as spies or infiltrators of the revisionist ROL and LOL; we already know the first ones, even if new and young people are sent, and the latter ones are just talk and rage against People's War and contempt for

Chairman Gonzalo and those who are currently driving the General Reorganization of the Party, but both are two sides of the same coin, as taught by the Great Lenin; we know how they move and what they are up to, just bluster and threats that they make where they reach the masses, who don't even receive them because they never did anything, just hatred towards People's War and the current leadership of the PCP, which stands firm against wind and tide. These traitors and capitulators are sniffing around like the reactionaries, and on the way, we will crush them and begin to sweep them away.

We unmask and unmask with the page of "Luminous Future of Quibian Gaytan" that many times takes out notes and leaflets OF THE NEW REVISIONISM of the LOL and lately of the revisionist and capitulationist ROL, where those rats and traitors today sentenced sign and cover up for Miriam to handle the hoax at their whim and convenience in their struggles and counter struggles of groups and factions, because they defend nothing but their own skins and raise our Leadership of Chairman Gonzalo to hide their crimes and thus the reaction and imperialism attack and scheme against our beloved and respected Leader, because we condemn and combat those puerile positions of trafficking and deceit to the masses and the people, today they seek again to run for the regional municipal and local elections, MOVE until the next general elections, and we say to them: Elections, NO! People's War, YES!

Before all this, there is the arrival of the genocidal "Argentine" Pope, who will be received with great fanfare by reaction and all the revisionist ayayaeros, but the fury of the people is preparing and organizing itself to reject him and fight him at all possible levels, today that they speak of Reconciliation and that is nothing more than preparing his road of repression, hatred and genocide against the combative people, the enemy is preparing through its "low intensity warfare" and all its psychological operatives against the People's War, Chairman Gonzalo and mainly to FIGHT the plans for the General Reorganization of the Party, the PCP. BUT ALL OF THEM ARE ONLY DREAMS, HEAVY DREAMS FROM WHICH THEY CANNOT GET AWAY and the PEOPLE'S WAR will inevitably win; because it is the road of all the people, of the deep and profound masses, always towards the immediate goal of the conquest of power in the whole country and the final goal, THE ALWAYS GOLDEN COMMUNISM.

A strong embrace and greetings to all comrades from all over the world and especially from Latin America.

The PLA, Under the Absolute Direction of the PCP, Pledges to Continue Fighting Together and United With The People (February 2018)

People's Liberation Army.

Revolutionary greetings, as has been witnessed, the struggle of the Peruvian people has increased in quantity and quality, becoming more intense and forceful, a lesson in the very heat of the class struggle, the increase is gradual, the People's War and the PCP have stamped in these 38 years of combative experience and experience as the vanguard of the World Proletarian Revolution, today the need and demand in Peru is greater, it commits us to the peasantry and the broad masses of the neighborhoods and slums, to the deep and profound masses, who are the arena of struggle against the old Peruvian State, a paper tiger rotten to the core, its genocidal armed forces, who are experts in defeat, and its repressive police forces, which are the support of its old order of exploitation and oppression.

GENOCIDAL ARMED FORCES THAT HAVE NEVER DEFEATED ANYONE: "Brave to kill and cowards to die," they revel in the bloodshed of the finest sons of the people and unarmed populace, a fighting and combative people who strive to defend their rights and achieve victories, taking victories from death, in response to the outcry, demand, and necessitate the PLA.

The PLA, under the absolute direction of the PCP, joins and expresses solidarity with these struggles of the Peruvian people. It commits to continue fighting together and united with the people, defeating the class enemy, becoming a true and new people's army, always organized and led by the PCP, which is today in the task of the General Reorganization of the Party, guided by the all-powerful Marxism-Leninism-Maoism, Gonzalo Thought, and under the Great Leadership of Chairman Gonzalo.

A resounding and impactful agrarian strike lasting over 72 hours: the

peasants are defending their potato production and demanding a declaration of agricultural emergency, forgiveness of bank debts from loans, and a halt to the import of pre-cooked potatoes from other countries, etc. Since January 30th, the struggle began first in Huánuco and Huancavelica; on the 31st, in Junin, Apurimac, Ayacucho, Pasco, and Arequipa. As stated by other reactionary press spokespersons and the reactionary Congress, “more than 9 regions are affected, impacting all Peruvians, etc.” We must denounce the 3 deaths and various arrests of farmers. The fruit farmers have also joined the struggle.

To denounce that this rotten system, in its desperation, resorts to what it does best: blackmail, “dialogue” and repression and genocide to try to suffocate and extinguish the intense and incessant struggle of the peasantry, A sector of pacifist farmers and followers of the outdated system have dialogued but the majority did not comply, like those of the Carrera Central in the center of the country, Junin, Pasco, Huánuco, Huancavelica, Ayacucho and Andahuylas, on the contrary, they took and blocked the roads to the airport from the beginning of the Agrarian Strike, where they have stopped the free transit of trucks, where they have stopped the free transit of land and air transport, they had confrontations with the genocidal hordes of the police, the masses have burned vehicles, front tractors and took police station, a great development of the struggle and a better organization, now they want to achieve their platform and not to fall into dialogue and crude pacifism, it is the people in struggle that leave great lessons and crush the black positions of “peace agreements” and regional and general elections like those of Movadef, Fuddep, LOL (Left Opportunist Line), Fenatep, and Broad Front (Frente Amplio), and so on. CLASS SALUTATIONS, COMRADES AND COMPANIONS.

Message From the PCP Addressed to the MPP (CR) on the Occasion of May 1st, International Day of the Proletariat (May 2018)

Communist Party of Peru.

We greet the international proletariat, which is armed with our almighty ideology, because it is true, Marxism-Leninism-Maoism, principally Maoism, and the peoples of the world on the occasion of this May Day.

We do it full of joy and revolutionary optimism to note that our class throughout the world fulfills its historical role fighting to embody what was established 170 years ago in the Manifesto of the Communist Party, in the midst of the celebration of the 200th anniversary of the birth of our founder Karl Marx, and does so through the evolutionary violence that today is people's war. We salute the people's wars that are developing in Peru, in India and in other countries, people's wars led by their Communist Parties, to culminate the democratic revolution, then continue with the socialist revolution and with successive cultural revolutions, always with people's war to enter all together to communism.

We salute the new people's wars to come: The class all over the world is struggling to constitute or reconstitute its Communist Parties to initiate the people's war or, as the case may be, to transform the armed struggles developed by the oppressed peoples against the imperialist war of aggression into people's wars led by their Communist Parties.

We salute the new great wave of the world revolution and the oppressed nations, base of the world revolution, where the main historical and political contradiction is expressed today in the world, that is, that existing between the oppressed nations of the Third World, on the one hand, and the imperialist superpowers and powers, on the other. Being U.S. imperialism in its condition of sole hegemonic superpower (the fat dog) the main enemy of the

peoples of the world, which in collusion and struggle with the Russian atomic superpower (the skinny dog) and the other powers such as France, England, Germany, Japan, China, etc., develops its wars of aggression against the oppressed nations.

The whole process of the international proletariat, in the stage of the strategic offensive of the world revolution and the sweeping away of imperialism from the face of the earth in its struggle to put an end to all existing exploitation and oppression, currently leads the Maoist Parties and Organizations of the World to strive to unite in a new international organization, which is a step forward in the march for the new communist international, under our slogan: “Workers of all countries, unite!” to respond to the needs of the world revolution and march all together towards our common goal: the ever golden communism.

Class greetings to all those who work for Maoism to impose itself as the only command and guide of the world revolution and that this time brings us together and fortifies us for the date of the Red and Combative May Day, even more, in the coming dates and the main one of them next May 17 (ILA 80) and the great international celebration of the 200th Anniversary of the Great Karl Marx.

We reaffirm ourselves in the Defense of Chairman Gonzalo and his almighty thought with people’s war, in the indestructible and undefeated atomic bomb, our almighty weapon, Marxism-Leninism-Maoism, Gonzalo Thought and in the heroic combatant who leads our cause, the war machine, the PCP. WE ASSUME WITH CHALLENGE TO DEATH and delivering in arduous struggle what we have learned in these years of rich experience of more than 38 years of positive and negative lessons, great lessons of the proletariat, the ruling class. We have learned with blood to give our lives for the Party and the Revolution and we will continue to give it, now more than ever, to overcome the bend and its brilliant culmination of the General Reorganization of the Party. Greetings to all of you in this struggle and in temperance, which is where the soul is tested as Chairman Gonzalo teaches, greetings to the comrades of Europe and mainly to those of Latin America.

LONG LIVE THE RED AND MILITANT MAYDAY! LONG LIVE MAYDAY, INTERNATIONAL DAY OF THE PROLETARIAT!

Long Live March 8th, International Women's Day! (March 2018)

Communist Party of Peru.

The Party is engaged in a hard struggle to steer the fight within the people, among workers, peasants, intellectuals, as well as in the public sector, healthcare, and the national teaching profession, to make a leap in their struggle for rights and defend the interests of the beloved Peruvian people. This deep-rooted population, the poorest of the poor, for whom we dedicate our lives and persist in the fervent struggle of the people's war, today within the General Reorganization of the Party. The classist teachers must push for the resumption of the National Strike in 2018. TO STRIKE A BLOW AGAINST THE ENEMY AND RECLAIM THEIR TRAMPLED AND LOST RIGHTS DUE TO THE VILE REVISIONISM, TODAY OF THE TRAITORS AND RENEGADES OF THE ROL R. and C.¹ and the LOL,² WHO MASK THEMSELVES AS LEFTISTS, whose only left aspect is their connections and alliances with the rotten and old revisionist lackeys, where Chairman Gonzalo already UNMASKED THEM IN A Meeting in 1988-1989 at the 1st Congress of the PCP "On Revolution," they sought to deny the democratic revolution, which meant denying the conditions and the path of protracted people's war, and Chairman Gonzalo said,

“now that the elections are coming, are they tinkering with the ideas of capitulation? They will come with denying conditions, uniting with united left, laying down their arms, etc., etc.”

Clear and precise, Chairman Gonzalo crushed them before their ideas could take root, and only four years passed before they denied the conditions, laid

down their arms, and are currently united with many old revisionists and traitors to the people's war. This is what they want to do in the teaching profession with the classist line, using tricks and new names in the popular struggle to divert them from the path and lead them into elections and backroom negotiations, in order not to fight but to continue maneuvering and trafficking the sacred interests of the masses, just like they do with FUDDEP, Movadef, Fenatep, Fenasutep, Filas proletarias, Primero de Mayo, etc. Just lies and deceit that they don't even believe themselves, using young people, new masses, and rotten capitulators of the people's war.

REVOLUTIONARY GREETINGS COMRADES, COMPANIONS, AND FIGHTERS FROM Europe, and especially to those in Latin America who embrace and apply GONZALO THOUGHT, WHICH IS PEOPLE'S WAR UNTIL COMMUNISM.

SUCCESS TO ALL, LONG LIVE MARCH 8TH, INTERNATIONAL WOMEN'S DAY! HONOR AND GLORY TO COMRADE NORAH, THE GREATEST HEROINE OF THE PARTY AND THE REVOLUTION!

In Memory of Norman Bethune (February 2018)

Communist Party of Peru.

Note from RedLibrary: This is a preface written by the Communist Party of Peru before their presentation of the 1939 work “In Memory of Norman Bethune” by Mao Zedong.

Now we are spreading, both within the country and abroad, Chairman Mao Zedong’s document from Volume II, *In Memory of Norman Bethune*, as part of CIPO,¹ and (...) the study order. It is important to understand that these teachings from the Chinese Revolution, which Chairman Gonzalo applied here in our country, were also applied by the PCP in the Health Departments and during the III Plenum. Chairman Gonzalo emphasized the role of healthcare, and within the PCP, many doctors of a new kind have sacrificed their lives, dedicating their work to the revolution and the true transformation of the world. In tribute to them and to Comrade Norman Bethune, we reaffirm our commitment to provide support when the People’s War requires it, knowing that blood does not drown the revolution, it waters it. Their dedicated lives serve as standards that illuminate the victorious path of the triumphant revolution. Today, in the General Reorganization of the Party, we continue with a high level of communist commitment and sacrifice.

**LONG LIVE THE 90TH ANNIVERSARY OF
THE COMMUNIST PARTY OF PERU! (Oc-
tober 7, 2018)**

Communist Party of Peru.

“The Congress serves the World Revolution, the people’s war serves it, the Congress serves the people’s war which is the main form of struggle to change the world... the Congress has sanctioned Maoism as the third, new and superior stage, what party poses like this? It is ours, in this way it is the light of the world, the only torch that can unite all the communists of the world... it is a milestone, it serves to put Marxism-Leninism-Maoism as the command and guide of the World Revolution... The Congress has given us great fruits, wonderful perspectives, with time it will do before the Congress and after the Congress, the Congress has decided our course defining the general political line; even if they throw themselves against the line, they throw themselves against the Congress, they have already jumped but who believes in renegades or hirelings of imperialism... the Congress is a milestone of victory that will deeply mark us for decades for the whole party, for the People’s War and for the World Revolution”. - Chairman Gonzalo.¹

On this 90th anniversary of our glorious heroic fighter, the Communist Party of Peru, we express with fist raised, our salute and strict and complete subjection to our leadership, Chairman Gonzalo, Leader of the Party and the Revolution, the greatest living Marxist-Leninist-Maoist on earth, our firm commitment to defend health and life, pledging our own lives in it. We reject, reject and combat the sinister “farce of trial and life sentences” orchestrated by the Yankee gendarme as part of his general counterrevolutionary offensive, what are they aiming at with this sentence? Black pretensions to discredit him and isolate him more in the fascist concentration camp of the naval base controlled by the CIA - SIN in order to concretize their obscene plan to assassinate him. But in contrast to his black dreams, Chairman Gonzalo is recognized as the Leader of the Proletarian Revolution, since it is he who has defined Maoism as the third, new and superior stage of Marxism, with his heroic forge, example and struggle as a communist commanding the New Great Wave of the World Proletarian Revolution.

Throughout the world, the Communist Parties and Maoist Organizations, the international proletariat and peoples of the world, develop and develop the successful campaign of strategic character Defend the health and life

¹Unite Around the Congress.

of Chairman Gonzalo! Indesligable to Put Maoism as command and guide of the World Proletarian Revolution! Long live Chairman Gonzalo, Head of the Party and the Revolution! Moreover, taking Chairman Gonzalo's decisive contributions to the development of Marxism, wield the almighty Gonzalo THOUGHT, in that framework the successful, warlike and resounding celebrations for the 50th Anniversary of the Great Proletarian Cultural Revolution took place, and the celebrations for the 200th anniversary of the birth of our founder Karl Marx and the celebrations for the 100th anniversary of the October Socialist Revolution, and under his guidance, they have been tirelessly striving to initiate and develop people's wars, constituting and reconstituting, or as in our case, advancing steadily in the general reorganization of militarized Marxist-Leninist-Maoist communist parties.

Chairman Gonzalo has transformed the fascist dungeon of the Naval Base into the highest and brightest trench of combat, heroic example of a communist who day by day enlightens us, strengthens us, summons us to persist in giving our lives for the party and the revolution, his heroic example demands us to develop the People's War at the service of the World Proletarian Revolution, that is what we do, that is what we will do, because we are firmly convinced that, Chairman Gonzalo, it is people's war until communism.

There, the damned revisionists and opportunists who dreamed in the "dialogue" of imperialism and reaction, both, of the revisionist and capitulationist right opportunist line (ROL R&C) and of the left opportunist line (LOL), their present path is, the unbridled enlistment and therefore the just sanction of the party will come to them sooner rather than later.

Likewise, we reaffirm ourselves in our all-powerful ideology of the international proletariat, Marxism-Leninism-Maoism, principally Maoism as universal truth and its concrete and creative application for the Peruvian revolution, Gonzalo Thought, an all-powerful proletarian thought, it is with Gonzalo Thought that we have been resolving the complex and difficult problems that our revolution is going through, we draw near to the soul, certain and convinced that the ideological and political line decides everything, we persist and we will persist in its creative application, with communist loyalty.

On this very special date, we greet with optimism the Marxist-Leninist-Maoist Communist Party of Peru, Gonzalo Thought, heroic combatant, war machine, organized vanguard of the Peruvian proletariat, its entire system of party leadership which, in hard struggle and combat against the sinister onslaught of the enemy, has been forging itself in the image and likeness of Chairman Gonzalo. We salute the leaders, cadres, militants and masses

who, wielding our Base of Party Unity (BUP), persist in the pending task of general reorganization.

Chairman Gonzalo forged communists with the strength of the party itself and in this commitment, we confront the two principles of the reactionaries, to annihilate the leadership and to separate the guerrillas from the masses. And, both have been failing miserably.

Likewise, we reaffirm ourselves in the party events mainly in our 1st Party Congress, Marxist Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought which has sanctioned at its highest level, our Base of Party Unity with its triple content: our scientific ideology Marxism-Leninism-Maoism, Gonzalo Thought, the Communist Program and the General Political Line with its center the Military Line. We reaffirm ourselves in the I, II and in the glorious, historic and transcendental III Plenum, whose masterly synthesis is Chairman Gonzalo's reaffirmation of September 24, 1992. We reaffirm our conviction that the events, work sessions and agreements emanating from the leadership are fulfilled in ardent struggle, in the midst of the difficulties, bends and inflections that our revolution demands.

We express our reaffirmation in the People's War, undefeated torch of hope that persists and flames against the wind for more than 38 years. Chairman Gonzalo taught us that to maintain it is a success, but if it permeates the masses, it is a complete success. We salute the People's Liberation Army (PLA), red soldiers of Chairman Gonzalo, fighters who give their precious blood, assuming the cost and the quota with defiance to death, the PLA, backbone of the new Power that is sustained mainly by the poor peasantry that under the leadership of the party faces repression and imperialist and reactionary genocide, we salute the masses that support us and the political prisoners and prisoners of war that in hard fights against the genocides committed by this old reactionary State, and the sinister complicity of the ROL R&C, resist until today, in the trenches of combat.

Our party was founded in 1928 by José Carlos Mariátegui on clear Marxist-Leninist bases, constitution, but upon his death, the line was abandoned and the leadership was assaulted, the life of the party has been winding, suffering usurpation of opportunists and revisionists to generalize, sinking the party in the swamp of parliamentary cretinism, decades of sinister desires and electoral and personal appetites. It was Chairman Gonzalo who in the mid 60's, assumed the titanic and historic task of reconstituting the party, 15 years of intense, tenacious and persistent struggle, sweeping away the ballast of revisionism entrenched in the party for thus, imposing a party to conquer

power for the proletariat and the people with People's War.

In 1980 ILA 80 grandiose epic of the People's War began, justly and correctly defining the political moment, at international level around the Strategic Offensive of the World Proletarian Revolution (SOWPR) and at national level, in the midst of the general crisis of the Contemporary Peruvian Society and destruction of bureaucratic capitalism. Chairman Gonzalo taught us: "the People's War gave us a more complete idea of Maoism" thus, the party and the People's War gave us historical milestone for the revolution in Peru and for the World Revolution, our I Marxist Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought, clearly established that this would mark us for decades, revolutionary practice clearly proves it, next year is the 30th anniversary of our glorious and transcendental I Congress and it corresponds to commemorate it.

The international, national and party situation make historic the moments we are living, and summons us to put all our forces in tension to fulfill the political tasks that the class, the international proletariat, the peoples of the world and the Peruvian people demand, the masses demand from us, they clamor for more and more People's War and we cannot be blind, deaf to that clamor, otherwise, we would not be communists, only of letterhead and for that qualification, the damned revisionists and renegades.

The party is going through a process of General Reorganization How much progress have we made? Wielding our BUP and the defense of the leadership with People's War, we have been advancing steadily, the left in a process of regroupment and consolidation has been facing the general counterrevolutionary offensive headed by the genocidal Yankee gendarme who suckle their cronies of the new revisionism of the ROL R&C and the LOL in Peru and in the International Communist Movement (ICM) its sinister expressions were Avakian and Prachanda.

The unmasking, combat and sweeping has been at all levels, at the beginning of the second decade of this century they had mounted a series of pseudo-organisms generated or partisan in the countryside, the city and abroad managed by the CIA - SIN through its agents, seeking to traffic and generate confusion in the masses, in turn, simultaneously the struggle of two lines was promoted against the ROL R. and C. and LOL outside and within the ranks of the party, convergences and covert isolated positions were expressed that in fact opposed the general reorganization: "puestism," "personal feuds," "fiefdoms" etc, they unwrapped entrism with the risk of blowing up the apparatuses. All their plans have failed and will fail, the others have flown

away like pigeons, cowards to develop the internal struggle, and their sinister actions have even led to cases of surrendering and murdering comrades and combatants.

The general reorganization is about to culminate in its phase of laying solid foundations and it is being combined with the celebration of the 30th anniversary of the I Congress of the party: "TO UNITE AROUND THE CONGRESS, TO DEVELOP THE GENERAL REORGANIZATION OF THE PARTY, IN THE MIDST OF THE PEOPLE'S WAR". To unite around the congress is to unite and consolidate the militancy, the combatants and the organized masses in the light of our BUP, the foundation that guides all our revolutionary action, to culminate and lay the foundations for developing the people's war subject to the defense of the life and health of our leadership, Chairman Gonzalo, and in the service of the World Revolution.

Comrades, fighters, Peruvian people, the incontrovertible reality is one, the objective conditions have matured, the semi-feudal and semi-colonial character has accentuated, bureaucratic capitalism has deepened. The revolutionary situation in development is strengthened. The Communist Party of Peru has never paralyzed its march, the People's War has not ceased, the left remains firm, resolute, developing with effort and battle in this process, we are conscious of our responsibility, the necessity and historical tendency and the communist principles, demand to merge every day more with the just popular struggles that face the criminalization and militarization of their struggles, mainly of the poor peasantry that demands land for those who work it! Against the new latifundist concentration of land! Against the dispossession of the peasant and native communities, mainly by the imperialist mining, hydrocarbon and forestry companies, among others, together with their lackeys, the big bourgeoisie and landowners! Against the importation of agricultural products to the detriment of national agricultural production!

We dissociate and reject the sinister positions of the ROL R&C (Revisionist and Capitulationist), that the land problem has been solved, denying the semi-feudalism in the country, they deny the thesis of Chairman Mao Zedong, which was developed by Chairman Gonzalo on bureaucratic capitalism, that "there is no longer room for democratic revolution but for socialist revolution". A complete disavowal of Gonzalo thought, which only seeks to cover up his capitulation and rotten rampage of his path of parliamentary cretinism for further enlistment.

We call to unite with the proletariat and the masses of neighborhoods and barrios, teachers, university students, agricultural proletarians, farmers,

peasant, native, indigenous communities that fight and resist against the reactionary anti-union, anti-people offensive, criminalizing their struggles, the right to strike, unionization, of expression and opinion against exploitation and arbitrary dismissals, etc., denying collective bargaining, the right to land, to work, denial of the right to strike, conquests and benefits that extend to all state workers in general, against the privatization of health, education and social security, let us reject it combatively.

That is to say, dispossession, privatization (concession), exorbitant surplus value for them, and salaries, starvation pensions, over exploitation, layoffs, misery, anemia, tuberculosis together with greater pauperization for our people. It is proven, and it must be emphasized, because the ROL and the LOL deny it, that within the cyclical evolutionary process it is true that bureaucratic capitalism in the second half of each decade enters into greater crisis, enters into decline and the main thing is its political derivation which matures the conditions until the people's war and the development of the revolution in our country, the old and new revisionists and opportunists of all stripes, instead of developing the democratic road, place themselves at the tail of the bureaucratic road and offer to "restructure their old State" via an outdated and amorphous "Constituent Assembly" and their participation in the reactionary elections that are managed by their Yankee master to adjust them to their plans.

Chairman Gonzalo said: "What has the People's War demonstrated? That the old Peruvian state is rotten to the marrow, is it not a reality that blows up in the face of those revisionists, opportunists and renegades day by day, there they submit with their amphora head and tongue of votes, their offer and enlistment has no limits. We reaffirm what Chairman Gonzalo told us: "to annihilate the People's War will lead them to unleash an unjust war" that is to say, the development of their counter-subversive war, the Yankee strategy of developing their Low Intensity War and that obliges absolute centralization (to trample on their bourgeois democracy, their laws and their institutions specified in presidential absolutism, everything concentrated in the executive, in a fascist pro-Yankee clique headed today by the pawn Vizcarra.

Mainly Yankee imperialism needs a fascist clique that heads the fascist, genocidal and country-selling regime under the hegemony and leadership of the big bourgeoisie in its comprador faction (covert dictatorships) to exercise its greater domination and interference and intervention over the old State, managed and monitored through the Yankee embassy in Peru.

These cliques develop in a process of centralization, strife and purification, as was the case with de Bari Hermosa, Montesinos and Fujimori himself, passing through Giampetri during the aprista government, etc. and now Kuczynski.

The current political crisis of the fascist, genocidal and country-selling regime, the conflict between the executive and the parliament and the corruption scandals in the executive, the judiciary, the public ministry and other public and private institutions have been uncovered, through the Yankee agent Gorriti and the leaks of audios made by the DEA - DIRANDRO and its listening system "Constellation" aims to lead to presidential absolutism legitimizing Vizcarra as head of the fascist regime, genocidal and country-selling, and bring the "reforms in the administration of justice" perhaps via referendum, so that the Yankee justice department has control and can manage it according to their interests, case Brazil, Argentina, etc..

What do we see? the bankruptcy of all the parties of the big bourgeoisie and landowners engaged in disputes and mutual denunciations of cases of corruption, links with drug trafficking, organized crime and sucking, among others.

And, as part of their task to restructure their old State, there are the regional and municipal elections that have reflected the replacement of "gamonalillos" as a political manifestation of their semi-feudalism, bosses and lackeys linked to drug trafficking, land trafficking, civil construction mafias, etc. They are part of the dispossession and a clear expression of feudalism in our country. What should we do? To persist in the policy of boycott: No Elections, Yes People's War! The results at national level of absenteeism, flawed votes, blank votes have left a clear rejection to this old and outdated system of elections, parties, replacements and populisms.

It is a party necessity to make the leap so that the democratic path is embodied that we have entered to develop as the People's Liberation Path, this obliges us to see the two hills, the growing intervention and interference of imperialism, mainly Yankee, at a time that enhances its hegemonic plans in Latin America as an area of dominance in its struggle with the Russian superpower and the Chinese power and others.

We must raise the political consciousness of the class, the people and the masses with a clearly anti-imperialist character. Chairman Gonzalo warned us that the territory, the nation, the homeland was and is at risk by those who rule. We cannot allow this!

On the other hand, at the international level, the historical period estab-

lished by Chairman Mao Zedong of struggle against the two superpowers, American and Russian, is still fully in force, it is the voice of general order for the peoples of the world. We reject revisionist and reactionary positions of “bipolarity” “multilateralism” or “three superpowers” absurd, “Maoists” who deny Maoism? The imperialist system is experiencing one of the greatest crises in its history, this is part of its general economic and financial crisis since 2008 in decline, bourgeois economists say that it has entered a depression and a new crisis is coming.

Yankee imperialism in its condition of unique hegemonic superpower in its struggle with the other Russian superpower, needs to reach “strategic superiority” as Chairman Mao Zedong rightly established in order to unleash a World War III, the Yankees, aggressively and desperately launch themselves into it and dream of a “new world order” but fail, on the contrary, they are on its heels. Thus they seek the domination of the intermediate zone, basically the Third World aimed at consolidating their area of domination, as in the case of Latin America, and strengthening their areas of influence, as in the case of Asia and mainly the Expanded Middle East, and with it to advance in the encirclement against Russia and to prevent the development of China. Thus we see an area of domination, area of influence, collusion and struggle and new distribution, thus stoking inter-imperialist contradictions.

In this context and within its doctrine of “national security,” imperialism applies, alone or in coalition since 2001 under its “global and total strategy of the fight against terrorism,” revealing itself to the oppressed nations and peoples of the world as the greatest genocide of the 21st century. In this framework, the principal contradiction in the world is clearly shown, oppressed nations - imperialism, developing an abject aggressive and merciless genocide against the Arab people under their ragged pirate banners of “human rights” and “humanitarian aid”: “human rights” “humanitarian aid,” “defense of democracy” carrying out repression and extermination of children, women and the elderly, widespread torture, destruction of cultural heritage, war without prisoners, and as always, stealing, everything, burning everything, killing everything, legitimize concentration camps, selective assassination, via drones, formation of mercenary and terrorist groups and troops, (Al Qaeda, coups d’etat, etc.) thus against Iraq, Afghanistan, Palestine, Libya, Egypt, Syria, targeting Iran, etc. **Yankees Out of the Expanded Middle East! Long live the Arab people!** Simultaneously in Latin America comes a further escalation of the development of their counter-subversive strategy of Low Intensity Warfare, they unleash their general

counter-revolutionary offensive in their eagerness to consolidate their area of domination and eradicate Russian and Chinese invasion.

Increasing militarization under the pretext of the fight against “drug trafficking” and “fight against organized crime” see Mexico, Colombia, Peru, Brazil, Chile, etc. Since Colombia has become its counterrevolutionary platform from Plan Colombia to its entry into NATO, where after the farce of the “peace agreement,” “ceasefire,” “round of talks” to which the armed revisionism of the FARC was subjected, now paramilitarism, impunity and the murder and persecution of political and social leaders are enhanced. They also seek to reverse the processes where the regimes are being led by the big bourgeoisie in its bureaucratic faction in the case of Venezuela, Nicaragua, Bolivia, etc., using their CIA - NSA - USAID agencies and the sinister role of the Catholic Church prepares conditions for military intervention, alone or in coalition with the Latin American reactionary armies: **Yankees out of Latin America, long live the people of Venezuela and Nicaragua!**

Thus in this context they unload the imperialist crisis on the proletariat and peoples of Latin America, deepening bureaucratic capitalism, restructuring the old landlord-bureaucratic states, seeking to annihilate the people’s war in Peru and to prevent the constitution and reconstitution of the militarized Marxist-Leninist-Maoist communist parties who in a hard, tenacious and ardent struggle are fighting for the reconstitution of the communist parties, tenacious and ardent struggle are marching towards the unification of the communists in the world, of which the V Latin American Meeting and the I European Meeting of Communist Parties and Maoist Organizations are decisive milestones in the steps towards the conformation of the future Communist International (CI) commanded by Maoism, even more so assuming the contributions of universal validity of Chairman Gonzalo,

We salute from here the people’s wars that strenuously fight and destroy the three mountains of oppression and exploitation and generate new power. **Long live the people’s war in India, Turkey and the Philippines!** We call on the left in Nepal to take up the only path of true emancipation.

As an unfading invincible light shines defiantly Maoism commanding the New Great Wave of the World Proletarian Revolution, crushing the general counterrevolutionary offensive headed by the Yankee gendarme and unmasking and sweeping away the old and new revisionism that in the most outdated, most sinister moment, of greater genocide and world militarization, sprouts as pus in defense of the imperialist system and reactionary regimes, **Death to revisionism, main danger of the revolution in cahoots with im-**

perialism!

Long live Chairman Gonzalo, Head of the Party and the Revolution!

Uphold, defend and apply Marxism-Leninism-Maoism, Gonzalo Thought!

Long live the Communist Party of Peru!

Long live the 90th Anniversary of the Communist Party of Peru!

Long live the invincible People's War!

Unite around the 1st Congress, General Reorganization of the Party in the midst of the People's War!

Down with the fascist, genocidal and pro-Yankee country-selling regime headed today by the most servile pawn Vizcarra!

Long live the People's Wars in India, Turkey and the Philippines!

Long live the International Communist Movement and the Constitution and Reconstitution of the militarized Marxist-Leninist-Maoist Communist Parties!

Long live Maoism, down with revisionism!

Honor and Glory to the Peruvian Proletariat and People!

LONG LIVE THE 84TH ANNIVERSARY OF THE BIRTH OF CHAIRMAN GONZALO AND THE DAY OF THE PEOPLE'S LIBERATION ARMY! (December 2018)

Communist Party of Peru (Reorganization Committee).

DECLARATION

We express on this new anniversary our greetings and unconditional support to Chairman Gonzalo, Leader of the Party and the revolution, the greatest living Marxist-Leninist-Maoist on the face of the Earth, teacher of communists, continuator of Marx, Lenin and Chairman Mao Zedong, center of Party unification and guarantor of triumph until communism.

Chairman Gonzalo is the one who has reconstituted the Party, founded the PLA, initiated and developed the people's war, defined Maoism as the new, third and higher stage of the ideology of the international proletariat, leads the Marxist-Leninist-Maoist revolutionary counter-offensive, Gonzalo Thought against the general counterrevolutionary offensive of U.S. imperialism as the sole hegemonic superpower in collusion and struggle with the Russian imperialist superpower (skinny dog) and other imperialist powers, world reaction and its servants of the old and new revisionism.

Chairman Gonzalo and the PCP have initiated, at the beginning of the 80s of the last century, the campaign to put Maoism as the only command and guide of the world revolution, which is developing in its stage of the strategic offensive and the sweeping away of imperialism and reaction from the face of the Earth, at present a new great wave of the world proletarian

revolution is unfolding.

Maoism is imposing itself in the world generating Communist Parties reconstituted as Marxist-Leninist-Maoist parties of a new militarized type to initiate and develop new people's wars that together with those already underway lead us to the world people's war to sweep imperialism and reaction from the entire terrestrial globe.

Chairman Gonzalo and the PCP put into practice the military theory of the proletariat, the people's war and defends its universality, that is to say the need to apply it in all countries and in all types of revolution according to their particularities.

The campaign for Maoism and the campaign for the defense of Chairman Gonzalo and his thought are strategically united and are carried out inseparably by the PCP and the Communist Parties and Maoist Organizations of the world.

The Maoists of the world, raising, defending and applying Marxism-Leninism-Maoism with the universally valid contributions of Gonzalo thought, are reconstituting their communist parties and advancing in the task of re-unifying the international communist movement, advancing in this task they are striving for the realization of the Unified Maoist International Conference of the Maoist Parties and Organizations and for giving life to a New International Organization of the Proletariat, crushing the new revisionism that blew up the RIM (Revolutionary Internationalist Movement).

Full of revolutionary optimism and with morale at its peak for the successful development of the task of the General Reorganization of the Party (GPR), in the midst of the people's war and in the struggle to the death against the new revisionism, both at home and abroad we celebrate this new anniversary of the birthday of Chairman Gonzalo and the founding day of the People's Liberation Army (PLA).

We do it by carrying out the boycott campaign against the reactionary farce of the "Referendum" with which they seek to legitimize the fascist government, genocidal and country-selling government headed by the pawn of Yankee imperialism Vizcarra and to centralize more power in the executive and the electoral farce of the second round for the replacement of reactionary authorities in the Regions (part of the corporate restructuring that in the midst of failures of all kinds they seek to carry out), all this as part of the reactionary plan of long-term government beyond 2021.

We are fully convinced that the people's war and the struggle of our people led by the PCP, with the PLA and New Power, under the leadership

of Chairman Gonzalo and his all-powerful Gonzalo Thought, will crush this reactionary plan. Reaction and its imperialist master are doomed to failure, the proletariat and the Peruvian people led by the PCP are condemned to victory. We are condemned to triumph! Beautiful condemnation!

Finally we salute the leaders of the PCP who in the country have been assuming the task of the GPR and leading the heroic fighters, the PLA and the new Power are striving to complete the task and firmly maintain the course of the revolution.

We are part of this task and we express our greetings and free and unconditional support and the commitment to give our lives to defend the life of Chairman Gonzalo and the commitment to pay the cost that the Party and the revolution demand.

Long live December 3rd, birthday of Chairman Gonzalo and day of the PLA!

The Spark that Ignited The Prairie on May 17th, Comrades, Never Went Out (May 2019)

Communist Party of Peru (Reorganization Committee).

“Provoke riots, fail, provoke riots again, fail again, and so on to ruin: this is the logic of the imperialists and of all the reactionaries of the world in the face of the cause of the people, and they will never march against this logic. This is a Marxist law. When we say that ‘imperialism is fierce’, we mean that its nature will never change, that the imperialists will never abandon their butcher’s blades nor will they ever become Buddhas, and so on to their ruin.

Fight, fail, fight again, fail again, fail again, fight again, and so on until victory: this is the logic of the people, and they will never march against it either. This is another Marxist law. The revolution of the Russian people followed this law, and the revolution of the Chinese people has also followed it.”

(Chairman Mao, “Discard Illusions, Prepare for Struggle”).

The spark that ignited the prairie on May 17.

They wanted and want to extinguish it, and not only that, to scatter ashes to the wind, they, those who were comrades on the road and the peacemakers.

Visceral hatred of yesterday’s outdated and once again, bankrupt.

The flame of intense fire, comrades, has never been extinguished.

The incandescent sun its example still shines, unfading light that also imposes with great roar in the ears of the people. It is a constant hammering of voices and raised fists.

Foolish who does not want to listen to it, do they not see that the drums of war are beating everywhere? It is no longer only here, and even worse for those who listen to it and are diverted to another path.

The spark that ignited on May 17, beats very fast in the field, in the potato, in the fruits, in the undermines, in the rivers, beats with more force in all the corners of the countryside, replicates as a resonance box in the city, it is palpitations in its children so, more for the new and superior ascent.

And to the class that demands its vanguard, guide, and in the role of its best sons who transit with their light raising banners of Maoism and Gonzalo thought, contributions of universal validity before the eyes of the world (...),

Comrades, the masses demand, demand, want, need, clamor for people's war until communism and we cannot be deaf and blind to it.

For those who left and for those who will come.

It is a crime to extinguish the light and the fire.

It is our duty to fuel it.

Let the sparks become bonfires and the fire purify us.

Let us raise the sickle with defiant stealth and with restless hammers let us wave our undefeated red flag once again.

Long live the 39th Anniversary of the People's War!

Long live Chairman Gonzalo, head of the party and the revolution!

Glory to Marxism-Leninism-Maoism, Gonzalo Thought!

Honor and glory to the Peruvian proletariat and people!

From now on, comrades, the Unified Maoist International Conference (UMIC) that has been convened by the Maoist Parties and Organizations is a resounding success, because of the preparation, the process that is being followed and the undeniable development that it has in the reunification of the communists, it is the highest celebratory tribute to the First Centenary of the Foundation of the Third Communist International by Lenin and to the role played by Comrade Stalin. It demands us to follow his example and raise it higher in the spread of communism in the world and the forging of communist parties throughout the world. Now, with militarized Marxist-Leninist-Maoist communist parties.

Long live the First Centenary of the Third Communist International!

We are guided by our undefeated banners of Marx, Lenin and Chairman Mao Zedong. With our fist raised high and our chest heaving we say honor

and glory to Marxism-Leninism-Maoism and we recognize the firm disposition of the Maoist parties and organizations to apply the contributions of universal character of the Gonzalo thought.

We say:

We are communists, forged with the purest steel in the image and likeness of Chairman Gonzalo.

Happy 39th Anniversary and let us celebrate the 30th Anniversary of our Imperishable Milestone of Victory, the 1st Congress, Marxist Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought.

Long Live Chairman Gonzalo and His Almighty Thought, Shining Light and Maoist Roar (September 2019)

Communist Party of Peru.

“After the defeat of the revolution in 1927, the subjective forces

of the revolution have indeed been considerably weakened. There is very little left of them, it is natural that those comrades who judge things only by appearances have pessimistic ideas. But if one examines the essence of things, one sees a completely different picture. Here an old Chinese proverb comes to mind: 'A single spark can set prairie on fire.' In other words, our forces, though very small now, will develop very rapidly. Under China's conditions, their development is not only possible, but practically inevitable."

Selected Works, Chairman Mao Zedong, Vol. II page 127.

The Communist Party of Peru, expresses its full and complete subjection to our invincible and almighty ideology, Marxism-Leninism-Maoism, Gonzalo Thought, we reaffirm once again in Chairman Gonzalo as the leader of the party and the revolution, continuator of Marx, Lenin and Chairman Mao Zedong, it was our leadership who confirmed the invincibility and universality of the People's War as the military theory of the international proletariat and the peoples of the world, we uphold, defend and apply Gonzalo Thought as the creative application of Marxism-Leninism-Maoism to our concrete reality because he founded that Maoism is the third, new and superior stage of Marxism and we will not cease in the ardent struggle to impose Maoism as the command and guide of the world proletarian revolution. The party once again calls upon the communist parties and organizations to constitute or reconstitute themselves, as the case may be, around and subject to our all-powerful ideology Marxism-Leninism-Maoism, principally Maoism, to initiate and develop people's wars against the imperialist pretensions of world wars for their infamous interests. It is correct to state that there are contributions of universal validity of Chairman Gonzalo to the world proletarian revolution.

27 years have passed
It remains unscathed, steadfast and shining bright.
What has been done is never lost
It taught us to take up again, to re-energize and re-organize
Let the spark spread like bonfires
Fire is inevitable
We have our source
Let us empower the flow of the river.
Attacks and denials there will be every day

They sound even ridiculous and immature
The complicit silence
Visceral hatreds
Will never be able to silence the roar
It is thought made transforming action
He is chairman Gonzalo

The Party, on the occasion of the 27th anniversary of Chairman Gonzalo's public appearance on September 24th, once again sends greetings to the international proletariat and the peoples of the world. They should know that we are guided by what Chairman Mao Zedong established: "...Rebellion is justified. For thousands of years, it was said that it was just to oppress, it was just to exploit, and it was wrong to rebel. This verdict was only reversed with the emergence of Marxism. This is a great contribution. It was through struggle that the proletariat learned this truth, and Marx drew the conclusion. And from this truth, the resistance, struggle, and fight for socialism continue." It says that it is just to rebel against the oppressor and exploiter, centuries of infamies and evils that are raised against oppressed nations and peoples of the world. On May 17, 1980, a new great wave emerged to bury vile imperialism, worldwide and native reaction, and the putrefied vestiges of old and new revisionism. It is a new historical period. One possibility was the restoration of capitalism, but as a counterpoint to this restoration, the revolution is also proclaimed because it is inevitable. Maoism is clear and distinct.

Likewise, we greet each of the leaders, cadres, and militants of the heroic combatant, and the fighters of the People's Liberation Army, as well as the masses who closely embrace with optimism the just and correct process of the party's general reorganization. To the proletariat and heroic Peruvian people, both from the countryside and the city, masses that daily show us heroic examples of unwavering dedication, valuable lives offered together with their courageous blood in the roar of the class struggle, it is fierce, they are sickles in the field where the roar sounds like war drums, together with the proletariat and the people, we must strike like a hammer, the struggle in the cities. No one can tie their hands to justify capitulation, there will be problems when you dare, the masses clamor, demand from the party, and we cannot be deaf and blind to such responsibility.

Chairman Gonzalo clearly warned us that, the deeper the general crisis of Peruvian society, mainly under bureaucratic capitalism, the greater the

reactionary and repressive response of the old State against the just struggles of agricultural laborers, miners, mainly impoverished peasants, teachers, healthcare workers, university students, transport workers, laborers, workers, people, and native and indigenous communities, etc. An unequivocal expression of the sharpening of class struggle and the collusion and strife between the two factions of the great bourgeoisie, there is an absolute concentration of power that this fascist government of Vizcarra has been developing. This centralization is aimed at guaranteeing the sinister, genocidal, and predatory ambitions of imperialism, mainly the Yankee imperialism, against the Peruvian people. They criminalize the struggles in defense of their freedoms, rights, and achievements. The class and the masses, in general, respond with a growing wave of protest against these reactionary ambitions. The Defender's Office, until July 2019, has reported over 184 mass struggles, with 120 having a national scope, 40 regional, and 17 local. These struggles revolve around issues such as mining, pollution, education, labor rights, the right to strike, wages, working conditions, increasing overexploitation, etc. The people's war, which began in 1980, is stirring and will continue to intensify its vigorous flame so that the heroic Peruvian people can build their popular republic based on the principles of the new democracy. This can only be achieved under the leadership of the party, the Communist Party of Peru, Marxist-Leninist-Maoist, Gonzalo Thought. Generating expectations through "early elections," "new congress," "new constitution," or "constituent assembly" only serves the rearrangement and the dark interests of this old reactionary state. It does not serve, nor will it ever serve, the Peruvian proletariat and people.

It is important to point out that the people's war that began on May 17, 1980, was preceded by two decades of fervent struggle against revisionists and opportunists who opposed the reconstitution of the party, resisted being guided by Marxism-Leninism, Mao Zedong thought, and specifically opposed the initiation of armed struggle. The people's war developed in our country demonstrated the correctness of these ideas that guided its inception; they were decisions and strategic development plans that forged us in the inexorable march of revolution. We are optimistic and combat pessimism. We fight against the right opportunist line of surrender and enlistment, the black flag that structured its "new line" in prisons, as they themselves called it, "a new definition, decision, etc., etc." Clearly, it is a line contrary to that of the PCP, followed by a left opportunist line headed by the anti-Maoists, anti-party, and anti-Gonzalo thought "José" and his comrades, a feud that

sinks in negotiations and betrayals of the reactionary wage earners. To crush these denials against Maoism, our leadership, Gonzalo thought, the party, the people's war, the new power, and the uninterrupted democratic revolution until communism has been and continues to be our task, always putting politics in command, as Maoism states. Because if we do not put politics in command, then we put another politics in command, one that is bourgeois or petit-bourgeois or any other but not proletarian. It is very clear, and this irrefutable truth, ratified in the I Congress, is necessary and forceful, despite others wanting to deny and erase it.

The public presentation of our leadership was never a circus, much less a prelude to surrender. Perhaps that's true for the enemies of the revolution, but not for the party. For us, it is and will continue to be an all-powerful light that illuminates the just and correct path of the people's war. Pessimism? How could we be pessimistic about the triumph of the revolution in our country when our people have an inexorably certain and valid law. September 24th has always illuminated us, and today more than ever, we declare that it is and will be a weapon of combat to confront and resolve the new and complex problems that the turning point presented. That is what we continue to do in the process of the party's general reorganization. Let us not forget that Chairman Gonzalo declared that the Peruvian revolution is part of the world revolution, and by developing the people's war, we serve the New Great Wave of the World Proletarian Revolution. Initiating and developing people's wars around the world serves to crush the sinister general counterrevolutionary offensive led by Yankee imperialism colluding with imperialist powers. Pessimism? Not under any circumstances.

"Today, reality is one; the same contenders from World Wars I and II are generating, are preparing the new Third World War. We must know this, and we, as children of an oppressed country, are part of the booty. We cannot consent to it! Enough of imperialist exploitation! We must put an end to them! We are from the third world, and the third world is the base of the world proletarian revolution, with one condition: that the Communist Parties raise and lead it. That's what needs to be done!";¹ to highlight the importance of oppressed nations, which will serve as the foundation for the world proletarian revolution, and the immediate need to generate Maoist Communist Parties that carry out People's War in order to properly advance the new great wave of world revolution and establish Maoism as the leader-

ship and guide... Let imperialists, reactionaries, and revisionists know that Maoism is being embodied by communist parties and organizations around the world. It is part of the pending task of the International Communist Movement (ICM) in continuous development, and there are concrete facts of contribution and universally valid contributions by Chairman Gonzalo.

Today, we are about to commemorate the 30th anniversary of the everlasting milestone of victory represented by the I Marxist Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought, child of the party and the people's war, and it must be a cause for celebration for Maoist communists and revolutionaries around the world because it is a milestone, a precise foundation, and defense of Maoism. It was defined as the third, new, and superior stage of Marxism, aiming to apply Maoism for the conquest of power. But power for whom? For the proletariat, for the dictatorship of the proletariat, based on an armed force led by the Communist Party. The I Congress had and still has great prospects for the development of socialism's construction and the uninterrupted continuation of the revolution under the dictatorship of the proletariat as a great proletarian cultural revolution.

WE DECLARE:

SEPTEMBER 24 IS THE VOICE OF ORDER AND ALMIGHTY LIGHT THAT ILLUMINATES THE GENERAL REORGANIZATION OF THE PARTY.

PARTY OF PERU! (October 7, 2019)**

Communist Party of Peru.

The Communist Party of Peru, armed with the all-powerful ideology of the international proletariat and peoples of the world, Marxism-Leninism-Maoism, principally Maoism, and steely with the creative, scientific and true application of Gonzalo Thought, expresses its full, complete and conscientious submission to Chairman Gonzalo, recognizing his condition of leader of the Party and the revolution, continuator of Marx, Lenin and Chairman Mao Zedong, proven leader of proletarian leadership. We salute the international proletariat, the peoples and the oppressed nations of the world and likewise we fervently salute the Peruvian proletariat and people, heroic people that from its inexhaustible creative force drives on the terrain of the class struggle its fierce combat against the sinister plans that this outdated landlord-bureaucratic state that is falling to pieces has been developing. We salute the communist parties and revolutionary organizations that, against wind and tide, have been fulfilling the historic task of reunification of the communists in the International Communist Movement (ICM) and of establishing the only, just and correct basis of unity together with the general policy of the ICM. In short, this pending task of reunification of communists, today it is exalting to assume it because it is the work of Maoism,

of Chairman Gonzalo and as such it is the work of the highest summit as the third, new and superior stage of Marxism and consequently, the current command and guide of the world proletarian revolution.

Comrades and Maoist revolutionaries of the world, our undefeated and red flag flies defiantly before the black plans and infamous objectives of imperialism, reaction and revisionism, they are undefeated flags that are waved in unison by Marxism-Leninism-Maoism and is today for today the basis of ideological and political unity, an indestructible weapon to fight and crush imperialism, reaction and revisionism from the face of the Earth.

The Communist Party of Peru, organized vanguard of the Peruvian proletariat finds, in its process of constitution, reconstitution and beginning and development of the people's war, its objective manifestation of ideological and political leaps having as its source Marxism-Leninism-Maoism, principally Maoism, the all-powerful weapon that applied to our reality gave us the Gonzalo Thought in which our firm reaffirmation to continue to raise it, defend it and mainly apply it to solve the problems that occurred in the bend and inflection of the people's war. This process has been immersed in the history of contemporary Peruvian society and of the world revolution. José Carlos Mariátegui on October 7, 1928 founded the Communist Party of Peru and did so on solid Marxist-Leninist foundations as he himself declared; a convicted and confessed Marxist-Leninist. As a communist, Mariátegui has had ideological and political transcendence giving him a weight in history throughout Latin America, he was the one who established the general political line that served for the constitution of the Party and the path for the communists, as we can see in his work *History of the World Crisis*; "Power is taken with violence and defended with dictatorship," so clear and forceful was Mariátegui, we reiterate, of great strategic content because he outlined the path of the democratic revolution.

The character of Peruvian society was defined by him as semi-feudal and semi-colonial with an incipient capitalism that emerged tied to the agonizing and outdated character of imperialism and feudalism, he also determined the problem of land as the main problem and the nation as fundamental. He consecrated the affiliation of the Party to the Communist International raising the communist principles as a banner of struggle against the infamous attacks of opportunism and revisionism and who now call themselves "Mariateguistas". Mariátegui died a few years later, leaving pending tasks that should have been continued but they abandoned the path traced by him, rotten revisionism jumped in and assaulted the leadership of the party

raising sinister revisionist theses of the “peaceful way” and the “electoral front as a way to take power,” nothing could be more false. These rotten revisionists structured their black line against the general political line and the communist program of the party, they dressed up as “leftists” to place the party at the tail end of the plans and interests of the Peruvian state of exploitation, hunger and misery. There were several decades of riding and selling constitutional illusions of “legality,” pure “parliamentary cretinism,” but communists and revolutionaries put up fierce resistance defending the path traced by Mariátegui as well as the very existence of the revolutionary party and its constitution which they wanted to dynamite, Once again it is proven that clinging to our ideological and political source, Marxist-Leninist in the 50’s, the communists, raising up to unite and reimpulse the great work of our founder, we initiated the development of this just and correct path. Reconstitute it to initiate and develop the people’s war.

How did the Chinese Revolution influence the party? Let us look at the decade of the 60’s, the new wave of the world revolution was rising defiantly, the Chinese Revolution also had a great socialist weight, the international proletarian movement with the national liberation movement expressed its inexhaustible revolutionary forces that would scourge the world. The struggle against contemporary revisionism is sharpened and the shameless Khrushchevists pushed for “the three peaceful” and “the two alls” were expelled in an intense two-line struggle against their trafficking and black vomit of capitulation and betrayal. The struggle against these revisionists raised the need to raise the struggle for Mao Zedong Thought, today Maoism. Chairman Gonzalo in this decade with great management promoted the Red Faction to defend the principles of Marxism-Leninism, Mao Zedong Thought, to develop the path outlined by Mariátegui, so it corresponded to develop it to reconstitute the party, it was a just and correct strategy. Up to this point we can summarize; the decade of the 60’s was of ardent struggle of the Fraction to retake the luminous path of Mariátegui and to reconstitute the heroic combatant, the party (Central Committee, 1969 defined and approved it). It had a National Construction Plan and together with the masses and the Peruvian people we fused to serve their sacred interests wholeheartedly. Key and transcendental.

Reconstituted the party, we began the armed struggle on May 17, 1980, developing the people’s war as a military theory of the international proletariat and peoples of the world, the people’s war proved to be invincible, Chairman Gonzalo has proved with the language of bullets, with the Maoist

rumble and the new Power, that the true milestones of victory and imperishable and that only the people's war could give us was possible to our full and complete subjection to our only ideological and political source, Marxism-Leninism-Mao Zedong Thought, it was correct to define it as the first guiding idea and move on to a second one; the reconstitution of the party and the historical beginning of the armed struggle (ILA), to build the new by destroying the foundations of this old Peruvian State, outdated and rotten to its marrow, we learned that construction is and will always be the main thing and it will be given in the midst of difficulties because it is the new that emerges from the crucible of Marxism-Leninism-Maoism.

In what context did the People's War begin and develop? In 1949 there was the triumph of the Chinese Revolution led by the Communist Party under the leadership of Chairman Mao Zedong, Asia and all over the world there were thunderous and vibrant agitations with red banners under the slogan "rebellion is justified," U.S. imperialism suffers defeat after defeat, thus demonstrating that socialism had a great weight in the history of the world revolution and also demonstrating that we were living in new times of revolutionary forces and favorable to the proletarian revolution, a new great wave of the world proletarian revolution. There was the restoration in the USSR in 1956 by the sinister Khrushchev and his gang, but the international proletariat did not stop fighting, it learned from its defeats, it placed its iron resistance and raised the Great Proletarian Cultural Revolution in 1966 led by Chairman Mao Zedong, until he died and revisionism as in Russia assaulted the leadership of the party and the revolution, there was restoration but again the ghost continued to travel the world, the revolution as the main political trend.

Four great plans and VI military plans we have developed, it has been Chairman Gonzalo drinking from Marx, Lenin and Chairman Mao Zedong who through the Communist Party of Peru, the red soldiers of the People's Guerrilla Army today People's Liberation Army and the Front - New State, has shaped it from spark to inextinguishable bonfire, has taught us to fight and resist, has shown us the way to reimpulse and build the conquest of Power. The arrest suffered by our leadership and the central leadership is an objective fact, just as objective was later the artful and sinister capitulation of that right opportunist line that structures in prisons, policy of revision and erasure of our general political line, the basis of party unity, the program and all the events, plenums, and agreements that emanated from the I Marxist Congress, Marxist-Leninist-Maoist, Gonzalo Thought Congress. It is just

as revisionist as the renegade of some leaders and the filthy mercenary of José and company. What ideological and political foundations have they developed? None, they have only raised a ragged flag of left opportunist line (LOL), anti-Maoist, anti-Party and anti-Gonzalo thought.

The Communist Party of Peru, expresses its greetings to the leaders, cadres, militants, fighters and heroic masses close to the party and proposes not only to be the spark but to join the burning flame, growing clamor of our people and in the task of; ***GENERAL REORGANIZATION OF THE PARTY IN AND FOR THE PEOPLE'S WAR IN PERU!***

Regarding the current political situation and facts that demonstrate the grave crisis of imperialism, mainly U.S. imperialism and the expiration of bureaucratic capitalism, we establish the following:

Comrade Stalin masterfully established that the contradictions in the ruling classes are a reflection of the inter-imperialist contradictions and the main thing are reserve forces of the revolution. Imperialism and all the reactionaries are paper tigers, strategically we despise them, but tactically we take them into account, that is how we have been taught, that is why re-launching the people's war is to re-launch the democratic road of the people through the people's war to build the conquest of power in function of a true People's Republic of Peru.

The general counterrevolutionary offensive led by imperialism, mainly Yankee, at the beginning of 1990, in the light of the facts, and once again is being defeated by the Marxist-Leninist-Maoist revolutionary counter-offensive and it is in the terrain of the people's wars initiated and developed with struggles of national liberation and of the proletariat, oppressed people and nations of the world. India, Turkey and the Philippines, armed liberation struggles in Palestine, Iraq, Afghanistan, Syria, Libya among other nations of the intermediate zones and inter-imperialist strife.

The sharp struggles of the big bourgeoisie that are expressed in the bosom of the fascist, genocidal and country-selling regime of the pro-Yanqui that today is headed by the peon and servile Vizcarra, Comrade Stalin tells us; is a reflection of the inter-imperialist struggles, basically of Yankee imperialism (which is in a frank process of decline) and that seeks at all costs to consolidate its "base" in Latin America as part of its hegemonic plans in the region, what worries them? The growing penetration of the Russian superpower and the Chinese social-imperialist power is causing them headaches, mainly Yankee imperialism persists and will not cease with its voracious desires and

appetites to consolidate its condition of sole hegemonist “for centuries,” but this black Yankee dream is turning into a very serious nightmare, no matter how fierce and rapacious it shows itself to be, it has not and will not achieve strategic superiority over the Russian atomic superpower, moreover, if it is going through sharp struggles within its imperialist entrails, the so-called “democrats” are trying to block its way by permanently worsening its political crisis under its administration. He is using his well-known “coup d’état” for the official investigation that the US House of Representatives has opened against him for his interference in withholding financial aid to Ukraine, to Kiev and to exert pressure on his closest political contender in the next elections in 2020.

We reaffirm that imperialism, mainly Yankee imperialism, has entered its phase of decline and has in front of it imperialist contenders that are right on its heels. In immediate perspective, a catastrophic financial and economic crisis as never seen before is being experienced by the fascist Trump and it will have its highest point in 2020, election year for his reelection, Vizcarra’s in Peru is not casual, they have “hope” in this reelection and soon we will see the implementation of a new plan of hegemony until 2036.

Chairman Gonzalo has argued that in the second half of each decade, the crisis of bureaucratic capitalism deepens in Peru, he says; “acute economic crisis on which the current political crisis rises...”. Clear and clear, and how is it expressed? We see a process of growing struggle between groups of the comprador bourgeoisie faction (Fuerza Popular and Apra) with great support from the mining, hydrocarbons, agro-export sector and Confiep with those who have raised the “coup d’état” as a battle horse against the representatives of the fascist tendency (PPK and Vizcarra) more linked to the world financial sector, international economic organizations, WB, IMF, OECD, faithful representatives of the demo-liberal tendency, is a contest and struggle between these groups of the comprador faction for the leadership of the fascist, genocidal and country-selling regime of this old bureaucratic landlord State. These sharp contradictions must also be framed in the plans and the continuation of the application of the three counterrevolutionary tasks that they need to develop and that in essence has not changed (to re-impulse bureaucratic capitalism, restructure its state apparatus and definitively annihilate the people’s war) once again we say; keep dreaming.

In the electoral process of 2016 in Peru and under direct intervention of its master Yankee imperialism the administration of the genocidal Obama imposed its “winning horse” the agent and faithful servant of Kuczynski

(currently vacated by this spurious and parasitic congress, This election took place in a sharp contest against the sinister character of Keiko Fujimori, as sinister as was the fascist, genocidal and country-selling Alberto Fujimori (currently imprisoned on remand), Both characters along with their cronies always pursued the control of the strata of this old reactionary State, aimed at the executive, parliament in the first order, to go copando not only electoral institutions, judicial, the Public Ministry, the judiciary, Sunat, Central Reserve Bank, ministries and even the constitutional court as an entity of contention to flatten the interests of these two factions of the big bourgeoisie, etc.. For example, Pedro Olaechea, owner of Tacama vineyard, former director of mining companies, of Confiep, Adex, National Society of Industries, business solutions against poverty, and together with an American company and the Banco de Crédito (BCP) were about to collect a bond for agrarian reform for several billions of soles, and it was the constitutional court that would resolve it. Other pearls of this contest for the constitutional court are the denunciations against the 200 thousand sterilizations against women carried out by the genocidal Fujimori and several ministers, as well as the issue of the “pardon, lawsuits against the abuse committed by the Armed Forces and the National Police in areas declared in emergency (growing protests against mining companies, environmentalists, farmers, etc.), agreements between the mining companies and the reactionary National Police to protect their interests, among other facts. These institutions are nowadays, sunk to the marrow in shameless and flagrant corruption, demonstrating once again that the entire state bureaucracy is in evident decomposition, they are forgiving a debt of 4,610 million of tax debt to more than 07 mining, financial, telecommunications, department stores, gas companies, etc. It is an accelerated agony together with the bankruptcy of the “traditional” political parties and organizations, independent” and representatives of the big bourgeoisie and bureaucratic landowners, servants of their master, mainly Yankee imperialism, which are sinking and falling apart. Permanent political crisis and serious delegitimization of a regime that traps its plans and objectives against the people. Heroic Peruvian people..

The faction of the bureaucratic bourgeoisie is not far behind, pretending to gain positions (Frente Amplio - Nuevo Perú and allies) by proposing “new forms for the new times,” promoting the restructuring of the old bureaucratic landlord State to “overcome the generalized crisis,” saviors of the collapse of the State through their vaunted “constituent assembly” and “new constitution,” how would it benefit the people and the nation? Obviously nothing,

or have the proletariat, the mainly poor peasantry and the people in general ever benefited from the application of these “famous democratic proposals”? are not the opportunists and revisionists of all stripe joining in this request by sowing rotten constitutional illusions? The capitulators of the right-wing opportunist line (revisionist and capitulationist ROL) with their movadef and fudepp spawn and in the Vrae those of the “left” opportunist line (LOL) of the mercenary “José” and company have also placed themselves in single file with these heads of amphorae and tongue of crawling votes, the latter are seeking their enlistment through negotiations with spokesmen called “reservists,” agents of the army and the Dircote (sacha) for the sake of a supposed “national reconciliation”. These “democratic proposals” of “new constitution with the people and for the people” and “constituent assembly” place the masses on the tail of the bureaucratic faction for their eagerness to gain positions in the management and control of this old reactionary State, but and mainly, these “proposals” serve the infamous pretensions of the comprador faction in its demo-liberal wing linked to the world financial system, because they will raise; The “end of a stage or of a regime that has been dragging on since 1992 with a 1993 constitution that does not serve the development of Peruvian society”. Such bloodthirsty hyenas thirsty for blood and power will dress themselves in sheep’s clothing, mainly Yankee imperialism does not want that, it will not allow them, or will a new constitution that “serves the people” solve their inter-imperialist struggles? In the next congressional elections of 2020, this wing of the comprador faction, with Vizcarra at the head, will be able to accommodate and take better control, they will have greater control and their “new constitutional court” will resolve legal disputes of political substance, in better conditions of “reliability” for their bureaucratic path, then the struggle for 2021 will become more acute.

The current dissolution of the Congress is one more step in the process of absolute centralization specified in presidential absolutism as an imperious necessity for the conduction of the fascist, genocidal and country-selling regime, making it more of a Yankee servant and, the call for congressional elections for January 26, 2020 is, as we say, an urgent necessity to give it the airs and graces it needs, an urgent necessity to give an air of legitimacy to the regime for the pursuit of its plans and objectives, mainly counterrevolutionary, anti-people, and growing reactionary as we see in the legal and penal aggravations of criminalizing the right to strike, to protest, to expressions, rights, benefits and conquests, etc. , etc.

Presidential absolutism forces a greater domination on the part of im-

perialism, mainly Yankee (intervention, interference and advice, etc.).) its spearhead is ultimately the control of the executive and they do it through the Yankee “ambassadors” in Peru and the counterrevolutionary roles played by their various intelligence and control agencies in the various strata of the old bureaucratic landlord State (CIA, FBI, DEA, NSA, USAID etc.) there is their eavesdropping and intelligence operations in “white collars of the Judiciary and Public Ministry,” “criminal organizations of officials, businessmen and political parties,” etc., they dismount “old, tired and discredited horses” to ride “new horses” according to their measure, what corresponds? To unmask them and fight them by re-launching the people’s war and empowering the popular liberation movement so that the People’s Liberation Path can be clearly expressed, we persist in empowering anti-imperialism. How to do it? General Reorganization of the Party in and for the People’s War in Peru.

Imperialism, mainly Yankee, is aiming at a new plan (2021 - 2036) and through the pawn of Vizcarra, genocidal fascist and pro-Yankee country-seller, will use the “bicentennial” moving patriotism, “national reconciliation,” “all bloods” and even “new constitution,” among others, “Therefore, for this old bureaucratic landlord State, it is very important to give legitimacy to the regime and ”legitimacy“ is an essential component of its counter-subversive strategy of low intensity warfare (LWI). We should not entertain ourselves in another scenario while they continue to apply their GBI and with it try to divert the democratic course of the people, heroic Peruvian people, let us open our eyes because there is open militarization, criminalization and over-criminalization, together with “amphoras and votes,” ”referendum“, ” consultations,” pure electoral circus. Struggles of the masses against mining, for wages, rights, working and labor conditions, struggle against decrees of layoffs, dispossession, over exploitation in the various public and private sectors with laws of productivity, flexibility and competitiveness etc. Increasing overexploitation will bring more hunger and misery.

Chairman Gonzalo has taught us that fascism has never curdled and in the country the objectives and plans that were intended to continue applying are trapped, his famous green plan (1990 - 2010) ended in disaster and failure, forcing to extend it (2010 - 2021) and we are already seeing how it is ending, it will always generate greater unrest and will fail because it is the inexorable law of total destruction. We say, therefore, fascist, genocidal and country-selling, pro-Yankee with the pawn of Vizcarra at the head, although some question and deny the fascist character of the regime, Chairman Gonzalo in the II Plenum made us understand how fascism unfolds and under

what new conditions they act in addition to their particularities; with the comprador bourgeoisie it is expressed as “presidential absolutism” and with the bureaucratic bourgeoisie it is expressed as “corporativism”. The need of imperialism, mainly Yankee imperialism and Peruvian reaction is to continue in the faithful fulfillment of its three counterrevolutionary tasks (united and inseparable, of relaunching, restructuring and definitively annihilating the people’s war) and it is imperative to continue with the fascist, genocidal and country-selling regime of the pro-Yankee Vizcarra and to give legitimacy to this regime in the development of its GBI, applying more and more, greater repression of the just and growing popular protest.

Chairman Gonzalo, when he developed the General Program of the Democratic Revolution in the I Congress of the Party in 1998-1989, in the first point he framed that, what corresponds is to demolish the Peruvian State, for being the dictatorship of the exploiters and oppressors led by the big bourgeoisie (in its two factions, comprador and bureaucratic, it does not say that one is better and the other is worse or that one can be dealt with and the other cannot), of the Armed and repressive Forces that sustain it and of all its bureaucratic apparatus. Where does Chairman Gonzalo point out that we are the lifeguards of this old reactionary State? Did he not say to place the masses at the back of the plans of imperialism and Peruvian reaction by promoting a “new constitution with and for the people”? There are those who said in 1993 and still continue to maintain it; “we are in new times” and came out with “new general political line” or even worse, “II congress for II reconstitution”. The new revisionism not only denies Marxism, it echoes the imperialists and reactionaries about the “expiration of Marxism” to openly oppose the constitution or reconstitution of Maoist communist parties, they are against socialism and against the dictatorship of the proletariat, they deny the leap of the Great Proletarian Cultural Revolution to prevent restoration, this revisionism today, directs its fierce attack against the people’s war and against, principally Maoism, those of the ROL, and the LOL in Peru and the avakianists or prachandists in the world are part of this group of revisionists,

The great Lenin teaches us that we must educate the masses in revolutionary violence, uniting, mobilizing and fighting together with these heroic masses, developing the implacable combat against opportunism and revisionism as the main danger, the rotten scab of the colossal heap of garbage that is mounted in the just struggles. Let us apply the tactic established by the Party; **UNITE THE PEOPLE AGAINST THE FASCIST,**

GENOCIDAL AND COUNTRY-SELLING REGIME REIMPULSATING THE PEOPLE'S WAR.

LONG LIVE THE 30TH ANNIVERSARY OF THE FIRST PARTY CONGRESS,

MARXIST CONGRESS, MARXIST-LENINIST-MAOIST CONGRESS, GONZALO THOUGHT!

“The Congress is a product of the people’s war, a great milestone and already expressed its law, its contradiction: proletarian line main aspect, counterpart: revisionism main danger.

Moment of that law: development of that great milestone which is the Congress specifies a great leap and every leap is given in intense struggle.

Content: balance and sanction of what has been done. Sanction of the Base of Party Unity and bases for the conquest of power throughout the country in order to serve the world revolution. Now, if we consider the great leap, the great milestone, the sanction of what has been done and the laying of solid foundations for the conquest of Power in the whole country, then the mud gathers, the conchos jump and unite to oppose this leap, convergence is their rule and they unite to contain the leap. But as the Congress is going to be fulfilled in the agreed way and if you see all the poisonous weeds, the weeds that have been generated by the concrete fact of the jump and as a consequence of that deep removal these poisonous weeds can generate a revisionist ROL, they can I repeat, we do not say that it will necessarily happen because Chairman Mao Zedong says to transform the necessity. Until today we are waging a two-line struggle against the main danger of rightism, even with points of antagonism, but for this we require two conditions: 1° that the left fulfills its role and 2° that the right fulfills its role of transforming necessity, if they persist in rightism and enter into revisionism they fall into factional logic and lose their heads and there Lenin said, even the best men are lost. The left must be conscientious and carefully fulfill its role. If a ROL is formed, first we are against it and secondly we are not afraid of it, the right must also fulfill its role, nobody is lost, if it has the will and a solid class spirit it can prevent it from

being structured”. - **Chairman Gonzalo: I Congress, Marxist congress, Marxist-Leninist-Maoist congress, Gonzalo Thought 1988 - 1989**

On this 30th anniversary of the imperishable milestone of victory, Chairman Gonzalo has endowed us with the most indestructible weapon, Marxism-Leninism-Maoism and with its highest peak, Maoism, and has brought us not only closer to the soul, but also to the spirit of unbending communism with Gonzalo Thought.

The Communist Party of Peru, holding firmly to our base of party unity, solid as the purest steel, inexhaustible source of wisdom and indestructible weapon to face the general reorganization of the party and to reimpulse the people’s war, assumes the firm commitment to hold our First Congress reaffirming what Chairman Gonzalo said in the preparatory session of the same: **“...this Congress sets our souls more on fire, raises them, catapults them and the enthusiasm cannot but be red flag raised to the sky, a trembling flag, a flag full of light that has to sign for decades the process of the Peruvian revolution and thus serve the world revolution and thus put at the top the unfading flags of Marx, Lenin and Chairman Mao, three flags of victory that, will always remain firmly in the hands of the international proletariat of which we are part”**.

The heroic fighter, the Party, from the inextinguishable bonfire of the people’s war, from the spark and flame of May 17, 1980, from the celebration of the 30th anniversary of our First Congress; calls the communist parties and revolutionary Marxist-Leninist-Maoist organizations, to constitute and reconstitute Maoist communist parties to initiate and develop people’s wars, to do so decisively serves the triumph of the democratic revolution with uninterrupted leap to socialism and with great proletarian cultural revolution to reach the longed for and golden communism. The events that embody the people’s wars initiated and developed and the struggles of national liberation and of the proletariat, people and oppressed nations of the world as in India, Turkey and the Philippines, armed liberation struggles in Palestine, Iraq, Afghanistan, Syria, Libya among other nations of inter-imperialist strife, confirm that Maoism is being embodied more and more and that the contributions of universal validity of Chairman Gonzalo serve the world revolution. We live in the New Great Wave of the World Proletarian Revolution

“Finally, listen to this. As we see in the world, Maoism is marching relentlessly forward to lead the new wave of the world proletarian revolution. Listen well and understand. Those who have ears, use them. Those who have understanding — and we all have it — use it! Enough nonsense! Enough confusion! Understand this! What is unfolding in the world? What do we need! We need Maoism to be a living force, and this is happening. We need Maoism to generate Communist Parties to lead this new great wave of the world proletarian revolution that is coming.”¹

When, thirty years ago, Chairman Gonzalo delivered his masterly speech on September 24th, 1992, his enemies dreamed that this would be the sunset of his work, but this fearless rallying cry was more a ray of dawning sunshine. Today, thirty years after his speech, his stature and importance in history has not stopped growing.

We are living through an extraordinary period in world history, the result of this confrontation between revolution and counter-revolution, the product of the hard struggle of the international proletariat, past and present, which we are fighting to impose Maoism as the sole command and guide of the world revolution. Chairman Gonzalo pointed out that we are in the stage of the Strategic Offensive of the World Proletarian Revolution, and within it,

¹Chairman Gonzalo. *Speech*. 1992.

we are in its defensive phase and that, therefore, it is up to us to advance to the strategic balance, within the Stage of the Strategic Offensive. We stress that the development of the contradiction between revolution and counter-revolution takes place on the basis of the general crisis of imperialism, because imperialism, being the last stage of capitalism, also has phases and we are in the last of them.

This is a context in which, as at few other moments in history, the objective situation and the subjective conditions, which are prone to development by leaps and bounds, converge. In the objective situation of the unprecedented crisis of imperialism that formidably aggravates the crisis of bureaucratic capitalism in the countries of the Third World, it launches millions of masses in explosive revolts, characterised by an uneven development of the revolutionary situation all over the world. Three decades earlier, Chairman Gonzalo, analysing the world situation of the general crisis of imperialism, said that a counter-revolutionary offensive of a general character would be unleashed and saw, as an eagle of the mountains, that imperialism needed such an offensive to extend the exploitation and oppression of the proletariat and the nations and peoples of the world to avert its collapse and the revolution, and that this, as can already be seen, would generate the explosiveness of the masses, in a new situation, and that the communists of the world should strive to impose Maoism as the sole command and guide of the world proletarian revolution, through reconstituting/constituting militarised communist parties, arming the international proletariat with the strategy of unleashing more and more people's wars until they are transformed into world people's war.

If we look at the international situation as a whole, the decomposition of imperialism is increasing with each passing day, confirming that it is in its final collapse and is only to be swept away by the world revolution through people's war, when revolution has become the principal historical and political trend in the world today and the world revolution has entered the phase of its strategic offensive.

Imperialism, principally yankee imperialism, as the sole hegemonic superpower, in collusion and struggle with its imperialist rivals, extends and deepens more and more its war of aggression and plunder for the spoils of the oppressed nations and to conquer positions in order to secure its world hegemony. But imperialism only marches from failure to failure in the face of the resistance of the oppressed peoples and nations in struggle for revolution, liberation and sovereignty, as was demonstrated by the expulsion of

its invading troops and allies with iron and fire from Afghan territory by the forces of national resistance and by the increased explosiveness of the masses. Additionally, the persistence of the resistance wars in the occupied countries of the Middle East, Asia and Africa and the people's wars in India, Peru, the Philippines and Turkey.

Analysing the crisis of imperialism in the early 2020s as symptoms of an unprecedented leap in its decomposition and the confluence of all these factors, we conceive that world history has entered a particular situation in which a new period of revolutions has opened, a new moment of the World Proletarian Revolution, which falls within the "50 to 100 years" foreseen by Chairman Mao and highlighted by Chairman Gonzalo.

In this situation and at the juncture of the coming years and decades, Maoism will advance to lead the New Great Wave of the World Proletarian Revolution, confronting the world counter-revolution, preparing and unleashing more and more people's wars, carrying this new great wave to the heights to avert a new world war and in case it breaks out, fighting to transform the people's wars into a World People's War to smash it, in what we already preach as a powerful slogan of combat. Starting from the law of the unequal development of matter and applying it to the process of the world proletarian revolution, we understand that in the process of the world revolution there is always the successive transfer of the center of the world revolution, where problems and their solutions accumulate, where the leaders are produced in accordance with the historical demands of each moment.

The center of the World Revolution is constituted as the principal contradiction, where the qualitative leap takes place; This does not mean that there are not other points of tension and ruptures, minor and secondary, but important, which are part of and can assume the principality, according to the development of the class struggle, as was presented at the time, the relation between the German Revolution and the Great October Socialist Revolution in Russia, between the defence of the USSR during the Great Patriotic War and the Chinese Revolution and as part of them, the anti-fascist wars in the Balkans, Spain, France, Italy, etc. Throughout the last two decades, principally Latin America, which being one of the revolutionary storm zones of the globe, is becoming the weakest link in the chain of imperialist domination and expressing in a concentrated form the world explosiveness of the masses and the powerful center of the world revolutionary storm.

Given the depth and complexity of the crisis of bureaucratic capitalism in Latin America and the fact that Latin America is the "*backyard*" of the

single hegemonic superpower USA, the situation is aggravated with all the implications that these objective and subjective conditions represent.

In Peru, the People's War has become the center of the World Proletarian Revolution, the center of the ideological struggle between Marxism and revisionism, as the struggle to impose Maoism as the new, third and higher stage of Marxism, fully valid throughout the world, brilliantly established and led by Chairman Gonzalo. Concretely in Peru, the most advanced ideology and the one that most threatens imperialism, which is Gonzalo Thought, and its universally valid contributions, emerged and took shape.

The ideological question, that is, the struggle between Marxism and revisionism, has become more than ever the fundamental question in the struggle in the ICM and it is for the raising of the understanding, assimilation and embodiment of Marxism-Leninism-Maoism, principally Maoism, with the universally valid contributions of Chairman Gonzalo as a preparation for the greatest ideological and political storms of the World Proletarian Revolution.

Was this not also the case with the ideological struggle in the ICM over the role of the great comrade Stalin after his death and over the capitalist restoration unleashed by the coup of the Khrushchevite clique and the 20th Congress of the C.P.S.U.? In order to attack Marxism-Leninism the Soviet revisionists will impute to comrade Stalin the most infamous crimes, accusing his firm leadership of "personality cult," "followership," "sectarianism," etc. With this, the Soviet revisionists will throw sand in the eyes of the communists in order to revise Marxism-Leninism and replace the Communist Programme with the bourgeois slogans of *liberty, equality and fraternity*, hoisting their rotten "Two Alls" and the "Three Peacefuls" and try to impose the rotten revisionist, bourgeois and social-imperialist line on the ICM.

All these treacherous attacks were exposed and smashed by Chairman Mao in the midst of the death struggle against the right-wing capitalist roaders in the CPC led by the Chinese Khrushchev Liu Shaoqi. Chairman Mao has firmly defended comrade Stalin and Marxism-Leninism and formulated the General Political Line for the ICM, rejecting any appeasement of the revisionist right wing. In this fight against revisionism it has stressed that the slogan "against the cult of personality" is opposed to Lenin's comprehensive theory of the "interrelationship between leaders, party, class and masses" and undermines the "principle of the democratic-centralism of the

Party.”² In this struggle, not a few parties opportunistically maintained a certain defence of Stalin in order to conceal the denial of the basic principles of Marxism-Leninism, which they themselves soon revealed and then went on to attack Chairman Mao’s positions. In chorus with the Soviet revisionists, such as the treacherous revisionist Hoxha, whom these parties will pass over to their worshipers.

Imperialism, reaction and revisionism had to concentrate their most furious attacks against Comrade Stalin, because he stood as the principal theoretical and practical leader of the ICM and the World Proletarian Revolution. It was Comrade Stalin who in a hard two-line struggle against revisionism and all the rightist positions in the Communist Party of the USSR and in the Communist International, against the rightist and revisionist positions which sought to subtract Leninism from a Russian particularism, masterfully defined, defended and applied Marxism-Leninism. Were there not others who dared to postulate a position contrary to Comrade Stalin by postulating their own definition of “Leninism”? Yes, like the infamous acrobat Trotsky or the rat Zinoviev, when the great Comrade Stalin defined that *“Leninism is Marxism of the era of imperialism and the proletarian revolution. To be more exact, Leninism is the theory and tactics of the proletarian revolution in general, the theory and tactics of the dictatorship of the proletariat in particular.”* This was an ideological leap, a product of the class struggle for the construction of socialism in the USSR and the two-line struggle in the C.P.S.U.(B.) against Trotsky, Bukharin, Zinoviev, Kamenev and others, as well as in the development of the International Communist Movement and the development of the World Proletarian Revolution.

This definition, among so many other universally valid contributions of the great Stalin, has represented his principal contribution to the development of the ideology of the international proletariat. Only through this masterly theoretical and practical work could the international proletariat recognise and assimilate the universal truths of Leninism. Therefore, from this great leap it is only possible to be a Marxist-Leninist (today, Marxism-Leninist-Maoist) by assuming the theoretical and practical definition made by comrade Stalin and recognizing his great role in history.

We ask, is it possible for any communist in the world to separate Leninism from Comrade Stalin’s definition of Leninism? No true communist can deny the role that Comrade Stalin played in the theoretical and practical defence

² *On The Question of Stalin* – 1963.

of Leninism, that is, Marxism-Leninism, today Marxism-Leninism-Maoism.

In relation to Maoism, the problem is the same. However, its establishment as a new, third and higher stage does not take place within the CPC itself. The highest point that this definition has reached in China was with the glorious Ninth Congress, when it was established that the ideology of the CPC was Marxism-Leninism-Mao Zedong Thought. The Ninth Congress in 1969, in the midst of the Great Proletarian Cultural Revolution, corrected the rightist deviation of the CPC at its Eighth Congress in October 1956, when the definition established by the Seventh Congress in 1945, which defined the ideology of the CPC as Marxism-Leninism, ideas of Mao Zedong Thought, was abolished. Already the Tenth Congress, held in 1973, represented a composition of proletarian revolutionary positions with a certain recovery of revisionist positions, a decline of the GPCR, and a return of Deng Xiaoping's power to the Central Committee. The Ninth Congress, therefore, was the high point of the CPC's own formulation of the development that the ideology of the proletariat had produced.

Through the influence of the GCR, many parties and organisations in the world were those who have assumed themselves to be "Mao Zedong Thought" or even "Maoist." Although the left line in the CPC has played an important role in defending Maoism, especially comrade Jiang Qing and comrade Zhang Chunqiao, both arrested and killed in prison by the social-fascist Deng dictatorship, they could not, in the midst of the class struggle in socialism and the two-line struggle in the CPC, establish Maoism as a new stage of the ideology of the international proletariat.

Maoism, the work of Chairman Mao and the CPC, forged in the course of the glorious Chinese Revolution as part of and in the service of the world proletarian revolution and its stages, in the course of twenty-five years of armed struggle in the class struggle in the construction of socialism, of the unmasking of Khrushchev's revisionism in the ICM and of the Great Proletarian Cultural Revolution, the highest milestone already reached by the proletariat in the course of luminous communism. Meanwhile its definition and establishment, as a great leap in the three constituent parts of Marxism as a unity, was a historical necessity, which was formulated by Chairman Gonzalo, the great leader of the PCP, in the midst of the Protracted People's War in Peru.

The definition of Maoism as the new, third and higher stage of the ideology of the international proletariat was Chairman Gonzalo's principal contribution of universal validity. It fell to Chairman Gonzalo, in a hard strug-

gle against revisionism, inside and outside Peru, combating the emerging avakianist positions, to unravel the essence of Maoism, demonstrating that the essence of Maoism is Power: *“Power is fundamental in Maoism. Power for the proletariat, power for the dictatorship of the proletariat, power based on an armed force led by the Communist Party. More explicitly: 1) Power under the leadership of the proletariat in the democratic revolution; 2) Power for the dictatorship of the proletariat in the socialist and cultural revolutions; 3) Power based on an armed force led by the Communist Party, conquered and defended through people’s war.”*

We start from Marxism-Leninism-Maoism, principally Maoism, with the universally valid contributions of Chairman Gonzalo, why principally Maoism? Because Maoism is the highest stage of the development of Marxism, it is Marxism-Leninism-Maoism, without Marxism-Leninism there would be no Maoism. Maoism is the Marxism of today, defined by Chairman Gonzalo as the “elevation of Marxism-Leninism to a third, new and higher stage in the struggle for proletarian leadership in the democratic revolution, the development of the construction of socialism and the continuation of the revolution under the dictatorship of the proletariat as a proletarian cultural revolution; when imperialism is deepening its decomposition and revolution has become the principal trend of history, in the midst of the most complex and great wars ever seen and the relentless struggle against contemporary revisionism.

Meanwhile, some claim that Gonzalo Thought is only the creative application of Marxism-Leninism-Maoism to the concrete conditions of Peru. This assertion is only part of the truth. Gonzalo Thought is the creative application of these universal truths to the concrete reality of Peru and its integration with the practice of the Peruvian revolution, which in eight years of people’s war could be sanctioned in the historic First Congress, the child of the PCP and the people’s war it leads. That is, Chairman Gonzalo creatively applied Marxism-Leninism, Mao Zedong Thought to the particularity of Peru, **defined Maoism and developed it, therefore Gonzalo Thought is part of and development of Maoism. This development is the universally valid contributions of Chairman Gonzalo.**

Therefore, Marxism-Leninism-Maoism, principally Maoism, with the universally valid contributions of Chairman Gonzalo is the Marxism of the epoch of the most advanced decomposition of imperialism and people’s wars, of the most stormy epoch of world history, of the strategic offensive of the world proletarian revolution, of the most implacable and relentless struggle against all forms of revisionism and opportunism and of the most desperate and vio-

lent struggle of imperialism, in which it will be swept away with all reaction from the face of the earth by the world people's war.

In synthesis it is the Marxism of the epoch of the people's wars and the world people's war. It is part of and a development of Maoism in the struggle for proletarian leadership in the restoration/counter-restoration confrontation specifically where the proletariat had established its dictatorship and joint dictatorship and in the revolutions of new democracy and in the socialist revolutions and successive cultural revolutions, when the decomposition of imperialism has reached an unprecedented degree and as such the degradation of the natural environment, when it is confirmed that revolution has become the principal historical and political trend, in the midst of the most complex wars of all kinds, when the world proletarian revolution has entered the moment of its strategic offensive and the deepening of the relentless struggle against revisionism of all kinds, within the period foretold by Chairman Mao of the "50-100 years" when imperialism and all reaction will be wiped off the face of the earth by the world proletarian revolution, as a world people's war.

Therefore it was against Chairman Gonzalo and the Communist Party of Peru, like no other, that imperialism and reaction aimed and threw their fiercest weapons, counting on the sinister help of revisionism all over the world and principally the revisionist and capitulationist ROL, to attack Maoism and the World Revolution.

Those who want to ignore this fact, Chairman Gonzalo's decisive role in defining Maoism, are inevitably being pushed to reduce Maoism to the Chinese particularity, just as all those who opposed Comrade Stalin's definition of Leninism did, and therefore will not be able to understand and correctly apply Marxism-Leninism-Maoism.

Comrades,

One year ago, the indomitable and generous heart of the great titan of the international proletariat of the present epoch, the continuator of Marx, Lenin and Chairman Mao Zedong, the greatest Marxist-Leninist-Maoist of our times, our respected, dear and forever beloved Chairman Gonzalo, Great Leader of the PCP and of the Peruvian Revolution, Leader of the international proletariat, of the Red Faction of the International Communist Movement and of the World Revolution, stopped beating. On this day, the proletariat and oppressed peoples of the whole world mourn, their hearts are beating with grief, their eyes full of tears, we, communists of the whole world, once again bow our red flags and our heads in solemn reverence of

proletarian and revolutionary salute to our beloved great Leader.

On this day the henchmen of imperialism and reaction, hand in glove with the revisionists and capitulationists of the ROL, dreamed that they had defeated him, they were too late! When the terrible news of his death was heard all over the world, a fierce storm was unleashed, and the international proletariat, through its vanguard, raised a mighty war cry raising the red banner of Chairman Gonzalo against imperialism, all reaction and all revisionism, writing his name forever in the pantheon of the great titans of the international proletariat.

The twenty-nine years of absolute isolation at the hands of reaction and revisionism, the iron claws and atomic teeth of the yankee imperialist monster, added to all the terrorist bloodshed of fascism and all reaction, were not able to break this invincible giant of the international proletariat.

Chairman Gonzalo in his glorious course as a communist, for more than half a century, smashed all the plans of imperialism, reaction and revisionism. Chairman Gonzalo is still alive, invincible, his heart beats in the hearts of the communists of the whole world, of the international proletariat and the oppressed masses of the earth. His great mind continues to guide the international proletariat, absolute and incontestable, because he has forged his continuators, to the measure of his great tasks of the Revolution in the days of today. Chairman Gonzalo is invincible!

Eternal glory to Chairman Gonzalo!
Long live the all-powerful Gonzalo Thought!
Long live the Communist Party of Peru!
Long live the People's War in Peru!
Down with Revisionism!
Long live Marxism-Leninism-Maoism, principally Maoism, with
the universally valid contributions of Chairman Gonzalo!
Long live the Unified Maoist International Conference!
Give birth to the New International Organization of the
Proletariat!
Death to imperialism! Long live the invincible People's War!

UNMASK THE YANKEE IMPERIALIST PLAN AGAINST PERU AND OTHER LATIN AMERICAN COUNTRIES (January 2023)

Communist Party of Peru - Lima Base Committee

[We are] In a context of general crisis of imperialism, mainly due to an acute and deep economic crisis. This crisis once again stirs up the fundamental contradictions and the principal contradiction (imperialism-oppressed nations).

Unbeatable, objective conditions to strengthen the national liberation movements and the development of the new great wave commanded by Maoism and people's wars has given as a great and strategic triumph the formation and forthcoming reunification of the International Communist League, a decisive and transcendental step in the future communist international commanded by Maoism.

We express our fervent communist greetings to the international proletariat, to the communist parties, movements and organizations that make it up and we reaffirm our all-powerful scientific and universal ideology, Marxism-Leninism-Maoism, principally Maoism, and the decisive and universal contribution of Chairman Gonzalo our leadership for having defined it as the third, new and superior stage of Marxism and applying it masterfully to the Peruvian revolution, contributing decisively to the new development of Marxism.

At the international level the inter-imperialist contradictions are sharpening, on the one hand Yankee imperialism as the only hegemonic superpower, in decline, its financial oligarchy commanded by the comprador bourgeoisie, its so-called "neo-liberal globalization" is in deep crisis and growing inflation with a black perspective with a tremendous recession, their strategic plans to maintain their unique hegemonic condition go from one crisis to another,

from one crisis to another and are increasingly based on war and atomic blackmail to intimidate or generate fear in the oppressed nations; wars of aggression and plunder (NATO in the Middle East and now in Eastern Europe) sponsor and promote “terrorism” for their own interests.

On the other hand, the Russian atomic superpower has been recovering positions and together with Chinese social imperialism are developing strategic plans to undermine, impede and oppose the hegemonic Yankee plans, consolidating in their areas of domination and expanding their areas of influence in Asia, Africa and Latin America (consider that Russia and China maintain influence and collude in regimes commanded by the bureaucratic bourgeoisie but strive to cover with greater amplitude based on their own interests).

In Latin America, the base of Yankee imperialism, its hegemonic plans in the region are being undermined, the penetration of the Russian superpower influencing and supporting politically and militarily regimes where the bureaucratic faction commands the bureaucratic landlord states, as in the cases of Cuba, Venezuela, Nicaragua, Bolivia, etc. Simultaneously, Chinese social-imperialism (who dreams of becoming a world superpower in the present century) and its global hegemonic plans have been executing a series of plans and projects in that sense, for example “the so-called new silk road” and hence the voracity with which it throws itself on the energy resources in the region (hydrocarbons, mining, lithium, great fishing, water reserves, etc.) under the cloak of economic and trade relations. Let us look at the case of our country: 64% of Peruvian exports come from mining, contributing 10% of the GDP, Peru is the second world producer of copper and zinc and the third producer of silver and tin in Latin America, we are also the first producer of zinc, tin, lead and selenium despite the fact that only 1.07% of Peruvian territory is under mining exploitation and 0.28% is in exploration, that is to say, more than 98% is considered as a virgin area in exploitation, we add to this that the production of copper and silver that the country has are necessary for the energy transition process (the national society of mining, oil and energy assumes that 16% of private investment is in mining). What a cake that the Yankees and their allies want for themselves, but there the Russian superpower and Chinese social-imperialism are on their heels! We are part of the spoils and we cannot allow it. Let us defend the homeland with People’s War!

Sharp and intense inter-imperialist contradictions in the region have repercussions within the exploiting classes, mainly the big bourgeoisie between its

two factions (comprador bourgeoisie and bureaucratic bourgeoisie) we see also the cases of Argentina, Bolivia, Chile, Brazil, etc.) which far from diminishing are increasing and will continue to worsen.

THE DEMOCRATIC PATH DEVELOPS AS A POPULAR PATH OF LIBERATION

Chairman Gonzalo in his masterful and victorious speech of September 24, 1992 established for us the political period into which the democratic revolution entered, in the face of the growing and greater intervention of imperialism, mainly Yankee imperialism, with the objective of realizing its anti-historical three counterrevolutionary tasks: Re-launching bureaucratic capitalism, restructuring the old Peruvian State but mainly its dream of annihilating the People's War.

Chairman Gonzalo, with great political vision, a clear Maoist vision that cleans out the cobwebs, demanded us to think with great historical sense looking at the history of Peru, let us look at the last three centuries and establish a clear definition. XVIII Century: Dominion of Spain, it led us to a deep crisis, consequently Peru was divided.

19th century: Dominion of England in its conflict with France? War with Chile. It led us to a deep crisis. We lost territory and our country suffered a schism.

20th Century: We have a dominator, mainly Yankee imperialism, where has it brought us? To the worst crisis in the history of the Peruvian people.

Since 1980 with the beginning and development of the People's War contemporary Peruvian society has entered its third moment of general crisis and mainly has entered its destruction and sweeping away of the three great mountains that exploit and oppress the people; imperialism, bureaucratic capitalism and semi-feudalism.

Faced with the development of the people's war and having reached the strategic balance as the second political and military stage of the people's war, in 1991 imperialism, mainly Yankee imperialism and reaction "to maintain its system and recover positions" in defense and safeguard of the bureaucratic landlord state carried out the self-coup of April 5, 1992 (development of the Yankee counter-subversive strategy: development of the low intensity war) to impose a fascist, genocidal and pro-Yankee sell-out regime for decades

to come with long-term plans.

In 1993 as part of their fourth restructuring they elaborated (in the midst of genocide) and approved a political constitution made to their measure and according to the interests of imperialism, mainly Yankee.

Being this pro-U.S. constitution and the backbone of this fascist, genocidal and country-selling regime, they raised this ragged and bloody constitution of plunder to structure the reimpulse of bureaucratic capitalism even though it literally declared itself as a “social market economy” when in fact they applied a “free market” economy, sweeping away national production and granting on a platter the entry of imperialist industry, This so-called “neoliberalism” in favor of greater penetration and imperialist domination mainly (art 62 or contract law as an example), this reimpulse did not come alone, it was together with the restructuring of its state apparatus characterized by presidential absolutism (fascist clique) dictated by the Yankee embassy. Reimpulse and restructuring was not possible if they did not enter to annihilate the people’s war, so this constitution of 1993 promoted and legalized the greatest surrender and greater power with faculties to the fascist and genocidal Armed Forces and PNP to apply the counter-subversive strategy of low intensity warfare.

Chairman Gonzalo in the document “Comments on the coup d’état” taught us to differentiate what a State system is and told us clearly that this is a class dictatorship of big bourgeoisie and landowners at the service of imperialism, mainly Yankee imperialism, and as a system of government (under its form of representative democracy) these were differentiated into open and covert dictatorships.

With the fall of the fascist and genocidal clique of Fujimori and Montesinos in the year 2000, mainly Yankee imperialism set up its transitional government (Paniagua) under the auspices of the CIA-OAS (Organization of American States), and in spite of the fact that it formally proposed to change its ragged constitution and that sectors of the big bourgeoisie and opportunism applauded it wildly, the economic chapter was never called into question.

The fascist regime, genocidal and sell-out under the hegemony and leadership of the comprador bourgeoisie in these decades of the present XXI century deepened and accentuated the semi-feudal character (megalatinfundios at the expense of the dispossession of the land of the peasantry, mainly poor and semi-colonial (greater interference, intervention and imperialist domination, mainly Yankee), intervention and imperialist domination, mainly Yankee)

where a rotten bureaucratic capitalism is developed as it was with the signing of the FTA with the USA by Toledo and its implementation in blood and fire with more than 120 legislative decrees with the genocidal Alan Garcia and then Captain Carlos or Ollanta Humala.

This Yankee imperialist domination over the old and outdated Peruvian State is being undermined by the growing penetration of Russian imperialism and particularly by Chinese social-imperialism, which has strong repercussions within the big bourgeoisie (comprador and bureaucratic factions); groups and demoliberal and fascist tendencies) but mainly it has repercussions and obliges us to forge with people's war the only road that the people have, the democratic road of the people as the popular road of liberation, that is the circumstance that we are going through today and it is clear that the organized vanguard of the proletariat, our Communist Party of Peru leads and will lead until we achieve the conquest of power for the proletariat and the Peruvian people, is there any other road? That is why we say People's War until communism!

Since 2016 the struggle within the comprador faction between the fascist tendency (Keiko Fujimori) and the demoliberal tendency (PPK) for the control of the executive of the fascist, genocidal and pro-Yankee country-selling regime became more acute, Fujimorism with the control of the bourgeois parliament was undermining the executive, questioning the essence in the leadership of the regime: Presidential absolutism, simultaneously taking over the other powers and institutions of the old State, as has been demonstrated by the control they have over the judiciary, the Public Prosecutor's Office, the Constitutional Court, etc. Clearly following their reactionary path because that is the true reactionary and counterrevolutionary path they have to follow, do they have another path? Well, they do not, it is their only way out, to continue with a fascist, genocidal and pro-Nicaraguan country-selling regime and we are seeing it in this present century clearly and clearly confirming once again what Chairman Gonzalo pointed out to us.

At present they are leading the fascist, genocidal and country-selling regime to a permanent political crisis (5 presidents in 5 years), which has been exacerbated by the international economic and financial crisis (2018 and 2019) and by the deep crisis of bureaucratic capitalism, which they have tried to cover up and postpone through their "states of emergency and health militarization" supposedly to fight the pandemic (COVID-19) and in the midst of an insulting shameless corruption of big business at the expense of the death and life of the people. The executive together with the cliques

of the Armed Forces and genocidal police, the pharmaceutical monopoly and private clinics amassed huge fortunes demonstrating that the collapsed public health system did not serve the population, an abandonment of centuries to the detriment of health and life, hunger, misery and malnutrition among others, caused the death of more than 200,000 people. The highest rate in the world. Destruction of the productive forces (elimination of the population surplus) genocidal and sinister plan of this fascist regime and the hegemonic plans of imperialism, mainly Yankee.

It is in this context of crisis and decadence of the fascist, genocidal and country-selling regime (within the third moment of general crisis and destruction of contemporary Peruvian society) that the general elections of 2021 are called, crucial elections for imperialism and reaction in order to continue the fulfillment of its three counterrevolutionary tasks, but particularly for the fascist tendency (Fujimorism) of the comprador faction that at all costs needed total control of the State, mainly of the executive.

In 2021 the rondero and anti-communist Pedro Castillo is elected, an opportunist through and through and faithful representative and defender of the interests of the bureaucratic bourgeoisie (pro-Castro Free Peru, feudillo of the Cerrón family) with the support of a bunch of revisionists and opportunists, particularly of the Movadef and those of the Vraem, that opportunist leftist line of rancor and alienation, whose shameless dreams of amnesty, capitulation and enlistment have not prevented them from coming out in defense of those who by mandate of Yankee imperialism became the executioners (Castillo Terrones-Anibal Torres and others with the approval of the CIA) of the blatant and treacherous plan to assassinate Chairman Gonzalo. Honor and Glory to Chairman Gonzalo, the greatest Marxist-Leninist-Maoist that the earth has given!

Since the opportunist rondero Castillo assumed the presidency, a period of intense struggle between both factions opened up; imperialism, mainly Yankee imperialism gave its formal endorsement to this rondero Castillo while plotting his overthrow by the action of the comprador bourgeoisie (fascist tendency represented by Fujimorism) under the control of the sewer called parliament and with the consent of the fascist, genocidal Armed Forces and the PNP and more pro-Nazi sellouts blessed by the bloodthirsty church.

The tendency to question presidential absolutism in favor of parliamentary absolutism worsened at the end of 2022. The restructuring of the old Peruvian State is on the table again and the bureaucratic bourgeoisie is the one promoting the constitutional illusions of a constituent assembly for a new

constitution, there are even those who add “for the people” this proposal of the bureaucratic faction and its cronies serves mainly to regain positions and go on to command the leadership of the old and rotten Peruvian State, sell itself to the highest bidder and change masters (they promote sinister imperialist positions or “plurinational” “multiethnic” “ethnicity” “ethnocacerism,” “nationalism,” etc.).

On the other hand, the comprador bourgeoisie has gone on to carry out a closed defense (with blood and fire) of the pro-U.S. constitution of 1993, formally they could change it but not in essence, the readjustments that they are carrying out in this bourgeois parliamentary sewer aim at having greater power and control: bicameralism, reelection of congressmen and all kinds of difficulties to the detriment of the executive, thus sharpening their contradiction and struggles.

Peruvian people, Intense struggle of these pro-imperialist bourgeoisie and reactionaries is framed within a growing wave of protest at the national level, mainly of the poor peasantry. Long live the struggles of the heroic Peruvian people!

Being the necessity of Yankee imperialism and reaction, the defense and continuity of their regime on December 7, 2022, they propitiated and executed the coup d'état in favor of a greater intervention of Yankee imperialism, the CIA and the development of their low intensity war, which is being executed by the fascist, genocidal and traitorous armed forces and police forces as a clique and pro-U.S. agents: Dina Boluarte, Otarola, Williams Zapata, Gómez de la Torre among others responsible who apply the fascist and genocidal Yankee plan against Peru and the Peruvian people, they dream of dismembering, splitting Peru and to contain and divert the revolutionary rise of the mainly poor peasantry, the proletariat and the masses, they dream of crushing the proletariat and its vanguard, the PCP and they dream that the complicity of revisionism of all types and the opportunists of always will save their outdated system of hunger and misery. We say; keep dreaming.

Open dictatorship: a fascist, genocidal and pro-Yankee regime that in its eagerness to maintain itself, perpetuate itself and carry out to the letter the mandates of its Yankee master has been strengthening the genocidal political line of the Peruvian State against the just and growing popular movement, has been developing its Yankee anti-subversive strategy of low intensity warfare: militarization of the country through states of emergency, curfews, criminalization of the struggles and popular demands, massive operations of mobilization of their forces, violent entry into the universities,

infiltration left and right in the social and popular organizations, in their marches to identify and arrest their leaders or representatives, psychological actions against the people through the big reactionary and monopolized propaganda and mass communication media. The Armed Forces and the Armed Forces that tried to legitimize themselves before public opinion by showing themselves as “respectful of human rights” and who with the complicity of the “truth and reconciliation commission” said ad nauseam “the main violator of human rights was Sendero,” etc. Today it is clearly evident that the essence of the armed forces and police is the backbone and defender of the old and outdated bureaucratic landlord Peruvian State that is falling apart; Fascists, genocidal, pro-Yankee traitors who sooner or later will receive the just sanction of the party and the people and today, as in the past, the arbitrary and illegal detentions, tortures, disappearances, murders in the police stations and barracks are intensifying, the sabotages to state and private institutions carried out by themselves through their agents and lumpens hired as black heads and shock forces and the false flags and graffiti on walls and even murders of their own personnel (case of the policeman burned in his patrol car in Puno) to impute them to the population, these Armed Forces and police, brave to kill but cowards to die, they execute murders of children and mothers by their snipers with the total endorsement and complicity of this caste of hierarchical leaders of the church like the one in Puno, including the death of several newborns before the merciless shrapnel of these genocidal against an unarmed civilian population, not content with that, they have been carrying out blackouts in towns and cities so that, under the cover of darkness, they could kill the population, under the cover of darkness, they break doors and kidnap popular and social leaders as in the case of Ayacucho, they continue to fire shots at random from helicopter gunships and continue to use their old tactic of pitting masses against masses and use lumpens as bait to attract fighters or identify leaders to later assassinate or arrest them (Venezuelan lumpens who will soon be fleeing the country); their “marches for peace” of police, military and intelligence agents (together with fascist groups, the resistance and others) promote it, the resistance and others) are shamelessly promoted by the police themselves, represented by the genocidal former PNP director of Dircote, a specialist in torture and rape, while with the other hand they raid and plant evidence against locals like the peasant confederation of Peru or New Peru (keep in mind that when the denunciation of the leeks came out, it was known about the military and police monitoring of all opposition to the fascist regime and its pro-Nicaraguan constitution of

1993, accusing them of being “terrorists”). There is not a single place in the country where they do not show their essence of repression and genocide, what they began in the south of the country today is spreading throughout the national territory. The blood spilled will never be forgotten! More blood, more repression, more genocide, more revolution! Only the people judge and punish the genocidaires! Against repression and genocide, for the rights of the people and the people’s war!

They aim at destroying all opposition of the social, popular, trade union and party organizations, etc, but mainly they dream of impeding the advance of the party, which today is advancing (in laying solid foundations) in its general reorganization and the reorganization of its now People’s Liberation Army.

Their counterrevolutionary campaign to accuse the people of being “terrorists” is falling apart, they seek with a vain attempt to separate the guerillas from the masses, they dream that the people do not have a just and correct proletarian leadership, promotes revisionists and opportunists of all stripes to ride on this just struggle of the heroic people to later “negotiate” at “dialogue tables” and sell the blood shed for handouts or posts in this outdated system, they are aiming to arrest, kidnap, assassinate and disappear the true leaders of the people who in fact assume this worthy political and social responsibility.

It should be known that the Peruvian people have a very rich experience in new power and people’s war because it is people’s war guided by Marxism-Leninism-Maoism Gonzalo thought and it is rooted in the class, in the people, and that is what frightens and frightens reaction and revisionism.

What Chairman Gonzalo established is peremptory: “the class, the people, the masses demand, need, clamor to develop the people’s war” and we communists and revolutionaries have a great responsibility to fulfill it.

We are living through historic moments, everyone should be clear that this is so, our homeland has been turned into part of the imperialist booty, plunging the Peruvian people into the worst crisis of all its history, and we will not allow this!

Chairman Gonzalo warned us: “once again the nation is at risk, once again the republic is at risk, once again the territory is at risk, it can be easily lost and for interests. That is the situation to which we have been brought (...).

Let us think about the danger: that the nation, the country, can be divided, that the nation is at risk, they want to tear it apart, they want to

divide it, who wants to do that? The imperialists, those who exploit, those who rule.”

THE PEOPLE’S WAR HAS SHOWN THAT THE PERUVIAN STATE IS A PAPER TIGER THAT IS ROTTEN TO THE CORE

The protracted people’s war led by the party since 1980 has clearly shown and demonstrated before the eyes of the world and mainly before the Peruvian people that the old Peruvian State is a paper tiger that is rotten to the core and that only its total, complete and thorough demolition is possible, leaving no stone unturned.

We live in a revolutionary situation in growing development. Lenin defined as revolutionary situation (objective conditions of the revolution) and synthesized them in two: 1) that those below do not want to continue living as before 2) those above cannot continue to administer and govern as before: these two conditions are those that generate mass mobilizations.

And Chairman Mao Zedong teaches us that the revolutionary situation affects the very foundations of the old and outdated State and therefore a “reformist way out of the situation” is not feasible, only a revolutionary way out is possible.

Chairman Gonzalo clearly teaches us that the old Peruvian State has : “...a wide failed base, a fracture of the foundations of the State on which the big bourgeoisie and feudal landowners exercise their joint dictatorship but on this fragile structure imperialism operates with its struggles and contradictions, especially Yankee imperialism that dominates us,” strong struggles with Russian imperialism and Chinese social-imperialism that undermine this Yankee domination, Chairman Gonzalo also adds: “inter-imperialist struggles that aggravate the fragility of the State system in general and especially that of the government system itself (fascist, genocidal, pro-Yankee sell-out regime and greater crisis of its so-called “representative democracy”) this fragility of the old State and the development of these contradictions between the classes that exercise dictatorship and between their various factions through which the imperialists try to maintain their imperialist hegemony or undermine each other.”

The fragility of the Peruvian State in terms of its state system and system

of government is essential and insurmountable for this old State due to its conditions as a semi-feudal and semi-colonial country where an outdated and rotten bureaucratic capitalism evolves, this fragility is aggravated by the fulfillment of the three counterrevolutionary tasks, particularly its restructuring (reform or new constitution), its revitalization, which means aggravating the living conditions of the masses and, most importantly, confronting a popular movement in development and growing protest that has been generating in this five-year period a greater social overflow that seeks to satisfy its most elementary rights and demands in terms of the struggle for the seizure of power.

The old Peruvian State is sinking and will sink in repression and genocide, in its reactionary violence to maintain its outdated system and preserve the interests of the exploiters and imperialism, but in counterpart is the revolutionary violence which as part of history will soon shape the yearning of the Peruvian people for a new people's republic of Peru.

For the proletariat and the Peruvian people the problem will be to sweep away this or any "new constitution" of the exploiters or any other as an expression of the old prevailing order, because none of these represent the most supreme interests of the class and the people, it will be by the action of the protracted people's war led by the Communist Party of Peru under Marxism-Leninism-Maoism, Gonzalo Thought that will grant a true constitution and can be achieved in a State of new democracy, in people's war and under the omnipotent leadership of the Communist Party of Peru.

Finally, on September 24, 1992, Chairman Gonzalo established which were the urgent tasks that the party should fulfill: "we must strengthen the popular liberation movement and we will develop it through people's war because the people, it has always been the people who have defended the homeland, who have defended the developing nation. It corresponds to form a popular front of liberation, it corresponds to form and develop from the People's Guerrilla Army a People's Liberation Army; that is what corresponds! And that is what we are doing, and that is what we are doing and that is what we are going to do! You will be witnesses gentlemen."

We say to the proletariat and the Peruvian people:

Eternal glory to Chairman Gonzalo, leader of the party and of the revolution!

Raise, defend and apply Marxism-Leninism-Maoism Gonzalo Thought, principally Gonzalo Thought!

Long live the Communist Party of Peru!

The People's War will inevitably win!
Unite the people against the genocidal fascist dictatorship and pro-Yankee
sellout!

People's War!

Peru!

We salute the first Maoist international conference and the founding of

future communist international guided by Maoism!

“WHAT IS FUNDAMENTAL IN MAOISM? POWER. Power is fundamental in Maoism. Power for the proletariat, Power for the dictatorship of the proletariat, Power based on an armed force led by the Communist Party. More explicitly:

1. Power under the leadership of the proletariat in the democratic revolution;
2. Power for the dictatorship of the proletariat in the socialist and cultural revolutions;
3. Power based on an armed force led by the Communist Party, conquered and defended through people's war.”¹

WHAT IS MAOISM?

“Maoism is the elevation of Marxism-Leninism to a new, third, and superior stage in the struggle for proletarian leadership of the democratic revolution, the development of the construction of socialism and the continuation of the revolution under the proletarian dictatorship as a proletarian cultural revolution; when imperialism deepens its decomposition and revolution has become the

main tendency of history, amidst the most complex and largest wars seen to date and the implacable struggle against contemporary revisionism.”²

Introduction

With the publication of the three issues of Voz Popular (6, 7 and 8) dedicated to the Great Proletarian Cultural Revolution in China, we join the “Campaign to Celebrate the 130th Anniversary of Chairman Mao Zedong,” called by the International Communist League (ICL) through its declaration for May 1st of this year, and, likewise, we fulfill the commitment assumed in the great solemn opportunity of the “Celebration of the 50th Anniversary of the Heroic Surrender of his Life by Comrade Ibrahim Kaypakkaya,” a heroic action for the revolution in Turkey and the world revolution.

The key of the party documentation, which we offer in this opportunity, is to see how in the great class struggle on the international scale, the GPCR. Gonzalo Thought considers that a third, new and superior stage of the ideology of the proletariat arises: first as Marxism-Leninism, Mao Zedong Thought; then, Marxism-Leninism-Mao Zedong Thought; and, subsequently, defining it as Maoism understanding its universal validity; and thus arriving at Marxism-Leninism-Maoism, principally Maoism as the current expression of Marxism.

It is of great importance for communists and revolutionaries of the world to study and embody the party documentation on the GPCR in China, a great struggle personally led by Chairman Mao that is part of the whole of his great theoretical and practical work: Maoism. Studying and embodying the party documentation on the GPCR is of great importance to achieve a unified understanding of Maoism in order to uphold, defend and apply it.

²First Congress of the PCP.

The GPCR, in Historical Perspective, is the Most Transcendental Development of Marxism-Leninism by Chairman Mao

In historical perspective, because the cultural revolution is not the order of the day. Because the majority of countries of the world are the oppressed countries, in which, first the democratic revolution has to be carried out and then pass uninterruptedly to socialism and, in the imperialist countries, first the socialist revolution has to be carried out. The (cultural) revolution is not the order of the day; the order of the day is the problem of advancing in the understanding and embodiment of our ideology, to apply it and transform the world: to understand the definition of Maoism without butts or questions as the third, new, and superior stage of the ideology of the international proletariat; the order of the day is to achieve a unified understanding of Maoism, because not everyone understands the same things; the order of the day is the democratic revolution; the socialist and mainly the democratic revolution by the weight of the masses in history. That is why we say, in historical perspective it is the most transcendental. Today, we already know what we have to do when the opportunity arrives.

Two questions:

1. The cultural revolution, the GPCR, implies a milestone,
2. The restoration of capitalism in China is not a negation of the GPCR. The GPCR remains as a granite (i.e., as a granite rock) that all communists will have to raise when appropriate. The Chairman spoke of successive cultural revolutions.

The proletarian cultural revolution is the solution of the great pending problem of the continuation of the revolution under the dictatorship of the proletariat, yes, the pending problem is already solved because if it had not been solved then we would have been unarmed in front of the peaceful restoration. The Chairman, years before, already told us: “we know how to take power with arms, nobody takes it away from us with arms, but we do not know how to prevent the restoration, we do not know how to prevent capitalism from dominating again, from usurping the leadership of the Party, we do not know that”; well, we already know it, he already solved it. That

does not mean that we do not have to deal with restorations and counter-restorations; hopefully the historical perspective will allow us to prevent it in the end, and it is feasible, because if we start from the 70s of the last century, 1971, we already have more than 160 years, then the power of the class has to take root, and it will take root, in these coming decades it will take root, and that is part of our work. But the question is already solved, the continuation is already there, and this is a new problem of transcendental perspective.

Chairman Mao says: “a new, deeper and broader stage in the development of our country’s socialist revolution.” The Decision of the CPC expresses very clearly what the cultural revolution was about; it is concrete and they knew very well what it was about.

The GPCR implies a milestone in the development of the dictatorship of the proletariat towards the consolidation of the proletariat in power. What has been its concretion: Revolutionary Committees. The Commune was not mature and the key problem that was not mature was how the Party led.

Party documents, which we publish today, give testimony of how Chairman Gonzalo and the PCP lived those events and the decisive influence Chairman Gonzalo had in China in the middle of the GPCR and how it was followed by the Party. How those years were lived, we offer it in documentary testimony, which at the time was reported with the publication of these three issues of “Voz Popular” (VP), the theoretical mouthpiece of the Party, dedicated to the Great Proletarian Cultural Revolution of China.

Issue 6 of VP included the fundamental orientations of Chairman Mao Zedong, which guided the Chinese proletariat and people in the GPCR, and the basic documents of the CPC, elaborated under the leadership of Chairman Mao, which opened the struggle against the bourgeoisie. Issue 7 was devoted to highlighting the most important milestones of the GPCR process. Issue 8 analyzed the content and significance of the GPCR; as well as the events, at the time they were taking place, in China arising from the right-wing coup d’état, as it was typified at the time. We are not prophets of the past, said the Chairman. Chairman Gonzalo and the Party followed, then, step by step, the development of the greatest class struggle in human history, a great milestone on the road of the world proletarian revolution to seize power. That is why when the revisionist coup of Hua Guofeng, an outsider, behind which was the revisionist “pus sucker” Deng Xiaoping, was carried out and went on to repress the left headed by comrade Jiang Qing, the PCP was the first to denounce it, while others hesitated.
