

DENOUNCE THE GADCHIROLI MASSACRE! LONG LIVE THE PEOPLE'S WAR IN INDIA!*

Peru People's Movement (Reorganization Committee)

April 2018

With deep class hatred we condemn, reject and crush the cruel massacre perpetrated by the repressive counter-revolutionary forces of the old state between April 22 and 23, where at least 37 members of the Indian people were massacred after being surrounded by police and paramilitary forces. As reported, the massacre could be of greater magnitude. From the Indravati River, dead bodies have surfaced several hours after the killings of suspected Maoists and members of the poorer masses of people, the waters could return others.

We denounce the fact that the district has been completely isolated by the genocidal repressive forces that continue the illegal raids and persecutions in the villages.

We also denounce the lie that there was an armed confrontation between armed Maoists and the reactionary repressive forces; it was a surprise attack with grenade launchers while those attacked were having breakfast or resting. This is, therefore, one more massacre among the countless massacres committed by the forces of the old state in its bloody and merciless war against the people it has unleashed.

We denounce that the reactionaries spread a video showing the soldiers celebrating their "success" by dancing among the corpses. We show our class hatred and indignation against this barbaric massacre and against the fascist

*<https://vnd-peru.blogspot.com/2018/04/movimiento-popular-peru-comite-de.html>

and genocidal regime that ordered it! We call to condemn it in every possible way!

This massacre is part of Operation Green Hunt - the gigantic and protracted operation of repression and annihilation of the armed struggle of the masses, mainly of the poor peasantry, led by the Communist Party of India (Maoist) and the mass struggle in general, launched by the Indian State, currently led by the fascist Hindu Modi regime. As part of this Operation, in its third phase, there are massacres, deportations of populations, destruction of entire villages, mass rapes and a massive and systematic wave of arrests, disappearances, affecting the countryside and cities, universities and mass movements, with the systematic violation of the rights of the people.

This includes 10,000 political prisoners, with some prominent intellectual figures among them, such as Prof. Saibaba, artists, lawyers, jurists, student leaders and of course some prestigious Maoist leaders like Kobad Gandhi, Ajith, and others. Added to this is this new massacre in the vain attempt to stop the rebellion of the Indian masses and the people's war led by the CPI (Maoist).

Honor and glory to the heroes of Gadchiroli, fallen in the service of the great and glorious struggle for the liberation of the masses in India, which since the armed peasant revolt of Naxalbari, 50 years ago, until today has never stopped and marches indomitably towards victory. All in the service of the new democratic revolution in India and as part of and in the service of the world revolution.

Down with the counter-revolutionary war!

Down with the war against the people of the old State of India, a landlord-bureaucrat state in service of imperialism, mainly Yankee imperialism!

Down with **Operation Green Hunt!**

Long live the people's war!

The people's war in India will inevitably triumph!
